The Flesherton Advance

Is published every Thursday at $1.00 per annum if paid in advance, $1.50 if not so paid

The Emperor of China died on Saturday last, followed on Sunday by the Empress-dowager. Many rumors are afloat in diplomatic circles that the death of these rulers was from other than natural causes. Be that as it may, China finds herself in a peculiar situation. Prince Pu Yi, a child 3 years of age, son of Prince Chun ascends to the throne. The whole future rulership of China is vague and indefinite, there are so many different persons who can be counted on to do the improper thing and to probably precipate trouble. The Empress-dowager has been the real head of the government since 1861 and without protest since 1881. Regarding her the Toronto Globe says:

See was a law unto herself. She violated the constitution of the dynasty, which forbids a woman ruler, and broke the sacred customs given by the sages. She became the mother of an Emperor, and her political career began with the wholesale beheading of Princes in 1861, by which she established her son on the throne. A slaughter of reformers and others took place thirty-seven years later, following the coup d'etat in 1808. Two years after this, upon advice she deliberately set about slaughtering all Christians and foreigners.

She was regarded by the progressives educated abroad, as China's greatest enemy, because she was the greatest obstacle to advancement. She managed the empire without modern advisors, and as far as the repose of her people went managed it well, for she put down three rebellions. It has been said of her that she was a more able ruler than any man who ever sat upon the dragon throne.

The future of China will be watched with interest by all the civilized powers. For centuries she has been shut out, at her own will, from the the rest of the world. She has always regarded the foreigner and his wiles with a suspicious, if not hostile eye, though at times her hostility has been more marked than at others. The past few years have noted a slight stir in China's attitude to the foreigner and it seemed as though free intercourse might yet be had between it and other counties. Then comes the death of the rulers of this vast people, and time alone can tell whether, tortoise like the country will again draw itself into its shell, or whether it will come out and join the rest of he world in a bustle of industry and commerce.

Destroys Hair Germs

Recent discoveries have shown that falling hair is caused by germs at the roots of the hair. Therefore, to stop falling hair, you must first completely destroy these germs. Ayer's Hair Vigor, new improved formula, will certainly do this. Then leave the rest to nature.

Does not change the color of the hair.

Ayer's — Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says

Recent discoveries have also proved that dandruff is caused by germs on the scalp. Therefore, to cure dandruff, the first thing to do is to completely destroy these dandruff germs. Here, the same Ayer's Hair Vigor will give the same splendid results.
