## FORTUNATE IF FREE OF BLADDER CAMPION

### Presence of this Weed in Any Clover Prevents Crop Grading Top

Fortunate are those growers whose clover fields are free of bladder campion. This weed was placed in the primary noxious class, at the recent meeting of the Seed Advisory Board at Ottawa, which means that any seed containing it cannot grade No. 1 for sale in Canada. Although many of these weed seeds can be removed by modern cleaning machinery there is always a portion about the same size and weight as the clover seed and this fact explains why buyers are not anxious to bid at all on seed from fields infested by this very serious weed.

"We have great fear of the spread of bladder campion," states W. J. W. Lennox of the Dominion Seed Branch, "as it is a perennial, very difficult to eradicate, and each plant produces thousands of seeds, it may be considered one of our most serious weeds. If we are to maintain our high reputation in the production of clover seed it is essential that growers make a determined effort to combat this growing menace. In those favored cvlover sections where this weed is as yet unknown, growers are fortunate and should find seed growing a profitable business, but they should be very careful in purchasing seed of any description that the same does not contain any seeds of this weed. Where there are only a few plants of bladder campion individual treatment is recommended. By this I do not mean simple mowing the thing down as this is often worse than useless, causing the weeds to branch out and raise more seeds than would have been the case had it not been cut, but to thoroughly eradicate each specimen. The plants should be dug out and burned or cut off deep below the surface of the soil and some salt sprinkled over the portion of the roots remaining. This may seem like a big job, an dit is a big job, but bladder campion is a mighty serious weed."

Less than one half of our domestic requirements of red clover seed, it is pointed out, are produced in Canada, principally in Ontario where bladder campion has become widely distributed. With this weed considered primary noxious, and none allowed in grade No. 1, about 85 per cent. of the Ontario red clover seed will have to be graded No. 2 and No. 3, or designated rejected and prohibited from sale in Canada. This means that a part of our northern-grwn red clover seed will be exported to other countries where it is much in demand because of its winter hardness. The demand in Canada is principally for seed that will grade No. 1 and to meet this demand red clover seed will have to be imported from France, Poland, New Zealand and other countries. Much seed from these countries has been used in recent years and has proven adaptable.

Golf and Webster are alike and not alike—both increase the vocabulary.

**Assam teas are known by experts as the finest teas grown—a fact which explains why Red Rose Orange Pekoe has become so deservedly popular in Canada. For Red Rose Orange Pekoe is chiefly composed of Assam teas, which accounts for its distinctive quality and value. Every package guaranteed.** 2-E

## Says Britain Not Asking for Advice

### Lork Birkenhead Sharply Critical of Coolidge's Speech

London.—The Earl of Birkenhead, until recently Secretary of State for India, was sharply critical of the Armistice Day speech of President Coolidge in an address at a recent complimentary dinner tendered him.

"I thought there underlay in that speech a spirit of patronage and a capacity for giving to Europe and to England," the Earl said. "As far as England is concerned, I am not sure that we specially require it. We have not asked the United States, as far as I am aware, to do anything for us."

Asserting that the United States entered the war not from any desire to assist the Allies, but solely because American nationals were being murdered by German submarines, he said:

"My answer to the President of the United States would be that we ask nothing from them except good will. When we discuss questions of naval construction, we do not specially invite lectures as to whether we are pacific or not i nour purpose."

**WHEN YOUNG GIRLS GROW PALE AND THIN**

**Dr. Williams' Pink Pills Should be Taken to Enrich the Blood**

When girls grow weak, pale and thin, parents should not neglect these symptoms; to do so means danger. The girl in her teens cannot develop into robust womanhood without an abundant supply of rich, red blood in her veins. It is the lack of this that is the great trouble with nine girls out of ten. Dr. Williams' Pink Pills have achieved world-wide fame for their remarkable blood-making properties. In these pills there is vigorous health, with glowing cheeks and sparkling eyes for every weak, pale girl. The value of the pills in cases of this kind is shown by the statement of Mrs. Winnifred Rutty, Barton street west, Hamilton, Ont., who says:—"About two years ago my eldest girl got into very bad health. I took her to a doctor who advised having her tonsils removed, saying this was the seat of the trouble. We had them removed, but it did not help her, and she seemed to have absorbed so much poison from the trouble that she did not pick up at all. She could neither eat nor sleep, and what food she did take did not digest. Then she developed a cough that kept her awake at night, and went down in weight to 95 pounds. A neighbor said to me, 'You have tried so many things why not try Dr. Williams' Pink Pills?' I got some and before she finished the second box she began to show improvement. She continued the use of the pills for some time and is now in the pink of condition, able to work and play, and eat and sleep with all her old-time vigor. These statements can be verified by neighbors who watched her restored from ill health to perfect health."

If your medicine dealer does not keep these pills you can get them by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### White Moose in Alaska Called Trappers' Hoodoo

A snow white moose with hoofs like a mule has been seen on the lower Kuskowim River by natives who declare it is possessed of the devil. Until the moose is driven away or killed they will not begin trapping.

Several attempts to trail it have failed, and they are now waiting for heavy snowfall when it will be run down and killed before the Indian or Eskimo trappers are stampeded. Fur buyers will pay a bonus for the destruction of the freak animal.

### Canadian Gold Production

If gold production in the United States continues to decline in the fairly steady way it has done since 1915, Canada with its yearly increasing production will in a very few years be the second largest gold-producing country in the world.

### Abrasive Garnets

Practically the whole of the Canadian abrasive garnet output up to the present has been obtained from a deposit situated some 18 miles east of Bancroft, Ontario.

**LONG SLEEP MAKES BABY HAPPY AGAIN**

"Our baby kept waking us several times a night, until we started giving him a little Castoria after his last nursing," says an Iowa mother. "He slept soundly from the first night and it made him look and feel worlds better." Baby specialists endorse Fletcher's Castoria; and millions of mothers know how this purely-vegetable, harmless preparation helps babies and children, with colic, constipation, colds, diarrhea, etc. The Fletcher signature is always on the wrapper of genuine Castoria. Avoid imitations.

Client: "My neighbor has a big dog that we are all afraid of. What do you advise?" Solicitor: "Get a bigger one."

### "Placating the Implacable"

Britannia (London): The South African Union has always had a different relation vis-a-vis the rest of the Empire from any other Dominion. Canada might conceivedly leave the Empire without bringing down the rest of the fabric. The secession of South Africa would cut in half our only assured line of communication with India, Australasia and the Far East. South Africa is the "clasp of the Imperial girdle." England acquired it by every conceivable title-conquest, cession and purchase. So long as she is responsible for India and has to keep touch with the Australasian Dominions, so long will she resist every means in her power, any attempt of South Africa to secede from the Empire.

**BABY'S OWN TABLETS ALWAYS IN THE HOME**

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, colds and simple fevers and making teething easier. Concerning them, Mrs. Saluste Pelletier, St. Dumas, Que., writes:—"I have used Baby's Own Tablets for the past ten years and am never without them in the house. They have always given the greatest satisfaction and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"So much crust was never associated with anything half-baked."

### Empire Preference

Rockhampton Bulletin (Queensland): Empire preference, to be anything more than a mere sounding board for windy orators, has to effectively protect the markets of the Dominions in Britain for raw products and foodstuffs, as well as the markets in the Dominions for British manufactured goods. Nothing short of that will count.

An old maid went to confession and told the priest that she had been ardently kissed. "When did it happen?" said the priest gently. "Twenty years ago," the old maid told him. "Have you ever confessed this before?" "Many times, father," sighed the penitent, "but I just love to talk about it."

## Learning!

### Horrors of War Depicted by Memorial in Germany

A war memorial that is not a glorification but a scathing denunciation of war and martial deeds has been erected at Ettlingen, Baden.

In the Town Hall tower, surmounted by a baroque helmet, one side of the wall is adorned with a haut relief depicting all the gruesome horrors and destructiveness of war. Symbolized death riding a black horse is seen swinging a blood-dripping scythe as his animal tramples on a mass of human beings and on soldiers engaged in fierce combat. The base of the relief, symbolizing human discord, pictures two men desperately clutching each other's hair, both enlaced in the coils of the serpent of paradise with the apple.

**Break Colds with Minard's Liniment.**

A theatrical troupe arrived in a New England town late one evening to find that no accommodation was to be had in the only hotel that the place afforded. The landlord did not seem a bit affected by the sad plight of the tourists but after much persuasion the old fellow said they could sleep in an abandoned church across the street. For want of any other shelter they accepted and retired for the night. About two o'clock in the morning the landlord heard the church bell ringing vigorously, and sent his son over to see what was the matter. Jake brough back the report: "There isn't anything the matter, Pop, but the gent in pew twelve wants a couple of gin fizzes sent right over."

Pamela had been so troublesome that her mother put her to bed a full hour earlier than usual. As she left the child, she murmured gently: "God bless you, darling, till the morning." "Dod bless you, too, mummy, till you bring me my supper," answered Pamela.

**Indigestion**

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, to efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.
