A private in a St. Catherines regiment was well nigh fatally injured in the armories by running foul of a brick wall in a blindfolded race. Of course he now regards that race as one of the most foolish things imaginable, while before the accident it was the best of sport. The same may be noted in other cases. The young man wanders around as though blindfolded, working a week or so on one job and then throwing it up and hunting up another. All that is needed in this case is that the young man receive a blow—that he see himself as he really is and what he will become. If he sees this he will get the blow from that very fact. The Huron And Ontario Again.

That the Huron and Ontario electric railway scheme is not dead is evidenced by a despatch from London, Eng., published in the Toronto News of Friday last. The despatch reads as follows: London, Nov. 27.—The Canadian Associated Press learns that bonds of the Huron and Ontario Railway Company to the amount of $302,400 have been sold to R. G. Shaw & Co., East India merchants, at 84. A. McD. Allan, of Goderich, has been here for some months in regard to the matter, and has latterly had the assistance of T. M. Sanders, a well known engineer, who is to manage the entire construction and equipment of the road. J. Gerry, London, Out., is the contractor, and H. Middemist, Toronto, the construction engineer. The Shaw Company is to give the Railway the use of their offices here and throughout Europe. Asia and America where the bonds and their interest coupons are likely to be payable.

Skunks are very plentiful around this neighborhood, but the following incident however was the experience of a Ben Allen ... resident. He was out one evening ... a lantern and on returning recently with ... home almost stepped upon a skunk near his woodshed door. There were two of them and in the hunt which was organized one was killed and the other escaped. The premises were of course terribly defiled by the killing of the malodorous little animal. The carcas was hung on a fence quite a distance away from the premises and a trap set directly underneath, and the result was that the second skunk was found caught next morning and there was an increased density in the badness of the atmosphere as a consequence.—Owen Sound Advertiser.

It may be news to some of our readers to say that James Fennel of Amaranth is the owner of a fox kennel and intends to raise foxes on scientific principles for pleasure and profit, principally the latter. Two weeks ago James visited his brother at Petrolia, and while there went to Wyoming to see a couple of kennels there and if possible make a couple of purchases to increase his own stock. The proprietor received him courteously and took him out to see the animals, which are kept in cement kennels in the ground. Only four or five came out while he was there. One, a beautiful black fox, took Mr. Fennell's attention and on asking the price found that it was valued at $1000. The price of a silver grey one was $250 and one or two more valued at $150 each. James thought the prices very high and came away without purchasing any.—Shelburne Free Press.

The Youth's Companion for Christmas

There are three good reasons why the Youth's Companion makes one of the best of gifts for Christmas time, for a birthday, for any occasion when a present is in order. It never fails to give pleasure. There is something in every issue of The Companion for every member of the family. The children never pass it by, and the parents are restless until the children reluctantly put it down to go to bed. It is easy to order by mail. You need not go through the vexation of Christmas shopping to make a present of The Companion. Sit down in the quiet of your own house and send the subscription. The Companion will be delivered wherever you say, on Christmas morning. It comes every week in the year. Nine out of ten Christmas presents have lost their novelty by New Year's. The Companion provides a continual pleasure, for it is renewed 52 times, until Christmas comes again. Is there another present equal to it that costs so little—only $2 to subscribers living in Canada? The new subscriber receives free the double holiday numbers and The Companion Calendar for 1909, "In Grandmother's Garden," litographed in 13 colors. Full illustrated announcement of the new volume for 1909 will be sent with sample copies of the paper to any address free. The Youth's Companion, 144 Berkeley Street, Boston, Mass.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with
