As every event and circumstance connected with the final settlement and establishment of the proposed New See of Kingston, interests the public mind, and retards or advances the growth and prosperity of the Church, this Pamphlet is offered to the public as a suitable accompaniment to a Pamphlet, now in the Press and shortly will be published, under the title of Papers and Correspondence relative to the proposed new See of Kingston," published in consequence of an offensive and degrading attempt of certain parties to elevate the Rev Thomas Hooks, A. M., to its Episcopate. The compiler and publisher of the expected Pamphlet is among the advocates for the elevation of the Venerable the Archdeacon of York, to the proposed See and Episcopric; and is interested in the secret discreditable and degrading canvass in his favor.

PRISON LIBRARIES.—We gladly copy from the Old Countryman the following paragraph on the above subject:

"A most timely letter has been addressed to the York Co. Council by J. G. Hodgins, Esq., on the fearful state of ignorance of the inmates of the Counties' Gaol, and suggests that a library should be established of instructive and amusing books for such as could read. The appeal has been answered by a grant for a library and appendages of twenty-five pounds, Halifax Currency."

In the speech from the throne allusion has been made to the necessity of legislating for juvenile criminals. No doubt, precaution is, in all cases, better than cure; and education based on religion, is the the only means to carry it out: but we must not forget that that is prospective. The present criminals who are inmates of the bastiles called gaols, where no classification exists, and where no occupation in the shape of learning trades or other useful works beguile the hapless inmates, a few books, judiciously selected, might prove of great benefit; and the time afforded for reflection might be profitably invested in the conversion of lawless ill-conditioned characters to good citizens. The County Council of York have set the example, and we trust this and other localities will follow.—[London (C.W.) Times.

Special Notices.

LYNO'S KATHIRON.—The Laidies have proclaimed this article to be, by far, the cleanest and most delightful preparation ever used; and from their verdict, in such matters, there is no appeal. Their decision is certainly well grounded for its wonderful efficacy in restoring, preserving and beautifying the Hair: cleansing it from dandruff and all other impurities: curing nervous Headache, &c: together with its delightful perfume, and its perfect cleanness and delicacy, (the result of the great care taken in its preparation,) have made it the most universally popular article of the kind, in the world.

Sold every where in large bottles, for only 25 cents.

SCROFULA.—Unprecedented instances of the cure of this Complaint.—This is, perhaps, the greatest scourge to which the human family are subject, and at the same time the most difficult of cure, inasmuch as it is dependant on the power of the medicine prescribed, and its instantaneous effects upon the parts affected. The only infallible remedy for the cure of this most distressing of maladies with which we are acquainted, is Holloway's Ointment and Pills. They quickly eradicate all cutaneous diseases, and there is perhaps no class of disorders which so readily yields to the treatment of these mighty medicines. They act like a charm, and not only astonish the patient, but the faculty themselves rendering them unparalleled in the history of medical science.

TAMPERING WITH BRANDY.—Very many people resort to brandy as a cure all for all their ailments, and thereby aggravate diseases sometimes beyond a cure. One 25 cent bottle of Dr. Jas McClintock's Diarrhoea Cordial will give instant relief and effect more speedy cures of Diarrhoea, Cholera Morbus, Dysentery, Cholera Infantum and Summer Complaints, than all the "gardeel" in Christendom. Every family should keep supplied with it.

Sold by E. W. Palmer and E. H. Parker, Chemists, King Street Kingston.

Medical Pedants are Thunderstruck at the sucess of Dr. Jas McClintock's philanthropic experiment. He has thrown open the doors of the temple of science, extended the benefits of thirty year's medical experience in the highest professional positions to the whole world. Dyspepsia and its concomitants are extinguished by his Dyspeptic Elixir, and all diseases arising from Impure Blood are at once eradicated by the use of his Alterative Syrup. Their success in curing disease has no parallel in medical practice.

Sold by E. W. Palmer and E. H. Parker, Chemists, King Street, Kingston.

Dr. Jas McClintock's Name, connected as it is with the highest professional honors, derives new lustre from the fact that he has placed the results of his vast researches and long experience at the disposal of the whole world. The marvellous effect produced in Consumption, Bronchitis, Coughs, and Colds, and all Pulmonary Complaints, by his Pectoral Syrup and Cough and Cold Mixture, must even hundred the Quackery out of the field; they have become Standard Medicines in all sections of the Union.

Sold by E. W. Palmer and E. H. Parker Chemists, King Street, Kingston.

All Energy gives way before the prostrating effects of Fever and Ague. But let us whisper to the sufferers for they need not despair. With unerrable certainty Dr. Jas McClintock's Fever and Ague Specific eradicates the disease. Armed with this curative the miasma of swamps may be braved without fear. It suspends the chills, subdues the fever and a thorough course of the medicine eradicates from the complaint. For billious complaints the Anti-Bilious Pills are equally reliable.

Sold by E. W. Palmer and E. H. Parker, Druggists, King Street, Kingston.

TO ARCHITECTS.

PUBLIC WORKS,
Toronto, 29th Dec. 1855.

PLANS ARE REQUIRED FOR A CUSTOM HOUSE, proposed to be Erected in the City of Quebec.

From the nature of the site on which it is decided the Building shall stand, as well as to be enabled to form a judgment upon the character of the materials to be used, and on the facility, or otherwise of procuring them, it will be necessary that the gentleman who may see fit to engage in the preparing of Plans and Estimates, should visit the locality and it is wished that the Estimates should show separately the additional cost, if any, should Granite, such as is to be had on the Montreal and Portland Road, be adopted for the principal fronts.

For full information, as to the amount nature and extent of the accommodation which the Building must afford, reference is to be made to the Collector of the Port of Quebec, J. W. DUNSCOMBE, Esquire.

The Plans are to comprise one of the Basements, showing the sewerage, principle of heating, &c., and one of each of the floors, with such sections also as may be necessary to convey fully the intentions of the Architect.

The plans are to be accompanied by a detailed Specification, measurement, and Estimate of the Works of the several classes required to complete the Building ready for business, and also by a Schedule of Rates by which any extra Work will be governed.

For the set of Plans, &c., which may be considered by the Commissioners of Public Works, most deserving and applicable, the sum of Two Hundred and Fifty Pounds will be paid, these Plans becoming thereby the Property of the Commissioners, who will make such arrangements for the Superintendance of the erection of the Building as they think fit.

A premium of £100 will be awarded to the design considered second in merit. All the Plans will be returned but those connected with the design adopted.

The Estimates are to show the cost of the necessary filling and forming and protecting the approaches distinct from the cost of the Building.

It is desired that the Building should present a respectable Architectural Facade to the River and also one to the Street. The Plank elevations to be plain but in character.

The entire, in appearance and construction, to be commensurate with the importance of the Port

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining the above requirements, and the necessary accommodation.

The Plans, &c., are to be Sealed and Addressed to the Chief Commissioner of Public Works, Toronto, Canada, and are to be delivered in, on, or before the 15th MARCH next.

By order,
THOMAS A. BEGLY,
Secretary.

Also, a Basement Plan, exhibiting the principles of Heating and Ventilating, and a plan of each on the floors; likewise such sections as may be necessary to convey fully the intentions of the Architect. Such Plans are to be accompanied by a detailed Specification, Measurement, and Estimate of the works of the several classes required for the full completion of the buildings &c, and also by a Schedule of Rates, by which any extra work will be governed.

For the set of Plans, &c, which may be deemed by the Commissioners of Public Works most deserving and applicable, and in the designing of which due consideration will appear to have been given, so that they shall combine all the requirements which such an institution should afford, as to the safe keeping and health of the prisoners, their classification, employment, and reclamation, &c., &c., the sum of Two hundred and Fifty Pounds will be paid—these plans becoming thereby the property of the Commissioners, who will make such arrangements for the superintendence of the erection of the Building as they they think fit.

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining all the necessary requirements, and with the substantial construction of the entire, as much as possible, on fire-proof principles, and in a suitable style of architecture.
