"Family Guardians" is a title well merited by Dr Jas. McClintock's Diarrhea Cordial and Whooping Cough Remedy. Each dreadful disease is met by a separate and scientific remedy, which is indicated by the name it bears. Diarrhea, Dysentery, Cholera Morbus and Bowel Complaints, and Whooping Cough, Croup and Asthma, are immediately relieved and speedily cured by these valuable antidotes.

Among the scientific productions of Dr. Jas. McClintock are his Dyspeptic Elixir, for curing Dyspepsia, Loss of Appetite, and Indigestion, and his Alterative Syrup, for purifying the whole system and building up the constitution. The immense experience of their author, as Professor, Lecturer, Physician to the city hospitals and prisons, and late Founder of Philadelphia College of Medicine, entitle them to the esteem and confidence of the public at large.

If Dr. Jas. McClintock had given but two of his Medicines to the world, viz: his Pectoral Syrup and his Cold and Cough Mixture, he would have earned immortality. These preparations, which were first advertised through the press soon after their distinguished inventor resigned the Deanship of the Philadelphia College of Medicine, are exciting the astonishment of the oldest practitioners by their salutary effect in the worst cases of Bronchitis Consumption, and all diseases of the Throat and Lungs.

Tens of thousands of our industrial population are incapacited for labor, every Spring and Fall, by Fever and Ague. Therefore it should be universally known that Dr. Jas. McClintock's Fever and Ague Specific, in every case, however violent, not only breaks the chills, but thoroughly eradicates the disease. His Anti-Bilious Pills are no less efficacious in Bilious Remittants, and all classes of Fever Complaints. Sold by E. W. Palmer and E. H. Parker.

For sale by E. W. Palmer and E. H. Parker & Co., and all other respectable dealers.

KNOW SOMETHINGS.—There are two great classes in the community, the Know Nothings and Know Somethings. The former are the most numerous at present, but the latter are fast increasing. Among other things they know something that will speedily cure the most severe coughs, relieve Pains in the side and breast, check Night Sweats, stop Spitting of Blood, and convince them that whole train of ugly symptoms which are looked upon as the forerunners of Consumption. The pass-word to health is "Dr. Rogers' Syrup of Liverwort, Tar, and Cinchalagua." Friend, remember this—practice upon it, and you will be a true Know Something.

TO ARCHITECTS.

PLANS ARE REQUIRED FOR A JAIL proposed to be erected outside the walls of the city of Quebec, upon a suitable site.

The Plans are to comprise a general Plan, showing the insulating walls, position and extent of the Prison Building, with all the indispensable day-rooms, work-shops, and other outbuildings, hospitals and airing yards, sewerage, &c., &c. Also, a Basement Plan, exhibiting the principles of Heating and Ventilating, and a plan of each on the floors; likewise such sections as may be necessary to convey fully the intentions of the Architect. Such Plans are to be accompanied by a detailed Specification, Measurement, and Estimate of the works of the several classes required for the full completion of the buildings &c., and also by a Schedule of Rates, by which any extra work will be governed.

For the set of Plans, &c., which may be deemed by the Commissioners of Public Works most deserving and applicable, and in the designing of which due consideration will appear to have been given, so that they shall combine all the requirements which such an institution should afford, as to the sale-keeping and health of the prisoners, their classification, employment, and reclamation, &c., &c., the sum of Two hundred and Fifty Pounds will be paid—these plans becoming thereby the property of the Commissioners, who will make such arrangements for the superintendence of the erection of the Building as they they think fit.

A Premium of £100 will be awarded to the design considered second in merit. all the Plans will be returned but those connected with the design adopted.

The Estimates are to show, separately, the cost of supplying the premises with Water and Gas.

For information as to the number of prisoners for which the building should be suited, taking into consideration the rapidly increasing population of the country, reference is to be made to W. S. SEWELL, Esq., Sheriff, Quebec.

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining all the necessary requirements, and with the substantial construction of the entire, as much as possible, on fire-proof principles, and in a suitable style of architecture.

The Plans &c., are to be sealed, and addressed to the Chief Commissioner of Public Works, Toronto, Canada; and are to be delivered in, on, or before the 15th March next.
