Kingston, April 5, 1856.
To commence with Teas and Groceries.

HEAR THE OTHER PARTY.—Somebody, evidently a sour old bachelor, who was refused by some girl of good sense in his early days, is continually giving advice to young men about to marry, as if they were the only ones ever victimized, and as if your young men indeed were angels, and hid their wings in their wide coat sleeves out of mere modesty. And as if young women were continually going about seeking whom they might devour. Here is some of the sage counsel of this ill-natured somebody:—

"Young man, a private word. When you go courting, find out as soon as possible weather your affections are being planted, more in a bundle of dry-goods and things generaly, than a pulsating heart hemmed in by warm ribs and all that. Many a fellow has laid himself out on a full made woman, and only found a very extensive assortment of cotton, whalebone and similar delusive institutions. Just look over the goods before going to the parson."

Now to match this, we will give some advice to the girls, God bless 'em:

"Young woman, a private word. When you are courted, find out as soon as possible, whether affections are being planted more in brilliant vestings, gay studs, a curling moustache and raven hair, than a pulsating heart under the vest and studs, and brains and spunk under the ravishing locks. Many a girl has thought she was obtaining a husband when she was only securing the window of a dry goods and variety store. Just look over the goods before going to the parson!"

LYON'S KATHAIRON.—The Ladies have proclaimed this article to be, by far, the cleanest and most delightful preparation ever used; and from their verdict, in such matters, there is no appeal. Their decision is certainly well grounded for its wonderful efficacy in restoring, preserving and beautifying the Hair: cleansing it from dandruff and all other impurities curing nett ralgia Headache, &c: together with its delightful perfume, and its perfect cleanness and delicacy, (the result of the great care taken in its preparation,) have made it the most universally popular article of the kind, in the world.

Sold every where in large bottles, for only 25 cents.

Preventative is better than a cure.—Extraordinary case. Dropsical swellings—Turn of life. Mrs. Morgan, of Windsor, Nova Scotia, aged 45, was suddenly thrown on a bed of sickness, her feet, legs, and ankles, began to swell, strongly indicating Dropsy; weeks passed away and she became worse instead of better, medical aid was called in and her life was endangered owing to a wrong treatment being adopted. Mr. Morgan, therefore, dismissed his medical attendant, and resolved to commence the Holloway's system of medicine; this quickly produced a beneficial effect, and by a continuance with this infallible remedy, the husband had the satisfaction of again seeing his wife restored to the blessings of health.

Among the scientific productions of Dr. Jas McCintock are his Dyspeptic Elixir, for curing Dyspepsia, Loss of Appetite, and Indigestion, and his Alterative Syrup, for purifying the whole system and building up the constitution. The immense experience of their author, as Professor, Lecturer, Physician to the city hospitals and prisons, and late Founder of Philadelphia College of Medicine, entitle them to the esteem and confidence of the public at large.

If Dr. Jas. McCintock had given but two of his Medicines to the world, viz: his Pectoral Syrup and his Cold and Cough Mixture, he would have earned immortality. These preparations, which were first advertised through the press soon after their distinguished author resigned the Deanship of the Philadelphia College of Medicine, are exciting the astonishment of the oldest practitioners by their wonderful effect in the worst cases of Bronchitis Consumption, and all diseases of the Throat and Lungs.

Tens of thousands of our industrial population are incapacitated for labor, every Spring and Fall, by Fever and Ague. Therefore it should be universally known that Dr. Jas. McCintock's Fever and Ague Specific, in every case however violent, not only breaks the chill, but thoroughly eradicates the disease. His Anti-Bilious Pills are no less efficacious for Bilious Remittants, and all classes of Fever Complaints. Sold by E. W. Palmer and E. H. Parker.

For sale by E. W. Palmer and E. H Parker & Co., and all other respectable dealers

Also, a Basement Plan, exhibiting the principles of Heating and Ventilating, and a plan of each on the floors; likewise such sections as may be necessary to convey fully the intentions of the Architect. Such Plans are to be accompanied by a detailed Specification, Measurement, and Estimate of the works of the several classes required for the full completion of the buildings &c., and also by a Schedule of Rates, by which any extra work will be governed.

For the set of Plans, &c., which may be deemed by the Commissioners of Public Works most deserving and applicable, and in the designing of which due consideration will appear to have been given, so that they shall combine all the requirements which such an institution should afford, as to the sale keeping and health of the prisoners, their classification, employment, and reclamation, &c., &c., the sum of Two hundred and Fifty Pounds will be paid—these plans becoming thereby the property of the Commissioners, who will make such arrangements for the superintendence of the erection of the Building as they they think fit.

A Premium of £100 will be awarded to the design considered second in merit. all the Plans will be returned but those connected with the design adopted.

The Estimates are to show, separately, the cost of supplying the premises with Water and Gas.

For information as to the number of prisoners for which the building should be suited, taking into consideration the rapidly increasing population of the country, reference is to be made to W. S. SEWELL, Esq., Sheriff, Quebec.

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining all the necessary requirements, and with the substantial construction of the entire, as much as possible, on fire-proof principles, and in a suitable style of architecture.

The Plans &c., are to be sealed, and addressed to the Chief Commissioner of Public Works, Toronto, Canada; and are to be delivered in, on, or before the 15th March next.
