Refutes Statement of Miss A. C. Macphail

Editors of Grey County: In a recent issue of Flesherton Advance was a report of a political meeting at Eugenia. Statements made therein are absolutely at variance with the truth, hence this protest.

The article stated "Miss McPhail mentioned the matter of a speaker from the Department of Agriculture at Markdale on the platform at Eugenia in the interests of the Conservative candidate. She thought that the Department was free from politics and were particularly keen on keeping their skirts free".

For the benefit of the public allow me to say no permanent member of the staff of the Department of Agriculture, Markdale has ever either in this or any preceding election been on a platform at any political meeting. Moreover, no temporary employee of the Department of Agriculture while in the service of the department has ever taken the political platform either.

If any person did take part in the campaign—and they may as I have never been to one political meeting since coming to Grey in 1920—it was after their employment had ceased and therefore were no longer subject to my control or the justification of the Civil Service Act. Mr. A. C. Stewart is only engaged for the School Fairs. He did not appear on any platfarm while these were in progress. Why were not these statemets made more specific. Why was the party not named? Is it fair by insinuation to cast suspicion on the Department of Agriculture, Markdale, by making such general statements involving innocent people? That such is the case is proven that already some farmers have intimated to me personally that my actions were very indiscreet and expressed surprise at my appearing on a political platform.

Is it fair to attack a person who, because of limitations imposed by the Civil Service Act, cannot protect himself on the platform when he is positively innocent? Is there any principle about such action? We leave to the fair minded people of Grey—and I repose all confidence in them—to decide for themselves.

We want to be fair but I feel some public retraction should be made. This will not appear till after the vote has been cast, after the people have rendered their decision. Retraction should then be made all over Grey County.—I am.

Yours very truly,
T. STEWART COOPER.

SHOOTING MATCH
