## BRITISH PERIODICALS.
AND THE
## FARMER'S GUIDE.
GREAT REDUCTION IN THE PRICE OF LATTER PUBLICATION.

Leonard Scott & Co., New York, continue to re-publish the following leading British Periodicals, viz:—

1.
THE LONDON QUARTERLY, (Conservative.
2.
THE EDINBURGH REVIEW, (Whig.)
3.
THE NORTH BRITISH REVIEW, (Free Church.
4.
THE WESTMINSTER REVIEW, (Liberal.)
5.
BLACKWOOD'S EDINBURGH MAGAZINE, (Tory.)

The great and important events—Religious Political, and Military—now agitating the nations of the Old World, give to these Publications an interest and value they never before possessed. They occupy a middle ground between the hastily written news items, crude speculations and flying rumors of the newspaper, and the ponderous tome of the historian, written long after the living generation in the facts he records shall have passed away. The progress of the War in the East occupies a large space in their pages. Every movement is closely criticised whether of friend or of foe, and all shortcomings fearlessly pointed out. The letters from the Crimea and from the Baltic in Blackwood's Magazine, from two of its most popular contributors, give a more intelligible and reliable account of the movements of the great belligerents than can elsewhere be found.

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical—but politics form only one feature of their character. As Organs of the most profound Writers on Science, Literature, Morality and Religion, they stand as they have ever stood, unrivalled in the world of Letters being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of Advance Sheets from the British publishers gives an additional value to these Reprints, especially during the present exciting state of European affairs, inasmuch as they can now be placed in the hands of subscribers about as early as the original edition.

GENTS:—Our city was last evening visited with the most destructive fire since its existence, and you may well think we felt interested and anxious to know the result of several safes of yours and others in the fire. We need hardly tell you yours came out of the fiery ordeal triumphant over all others. Immediately under Anderson's office was 50 or 60 tons of tallow, and of course made the hottest kind of fire; and in another Safe of yours, in the same building was $20,000 in Bank bills, checks, &c., all of which came out in perfect order, after lying in the ruins ten hours. All that have seen the effects of the fire on the different kinds of Safes, are satisfied of the superiority of your "Rich's improvement on Wilder's Patent Safe." Yours respectfully,
