SUGGESTED BY THE NEWS BROUGHT BY THE AMERICA, JULY 1st, 1856.

Oh, England, can it be, that thou
So mighty in thy *deeds* of yore,
Will act the *craven's part*, and bow
Yon braggart boasting race before?

Where has thy *national honor* flown?
True British blood could never brook
Insult on insult wildly thrown,
Yet meet them with an humbled look!

The Briton's heart is true as steel:
Why then so tamely turn the cheek?
Would'st thou *another smart blow* feel?
Oh! humbled England, thou art meek.

Rouse up thy spirit, rouse, tis time;
Else the wide world will think thee dead:
Thou'rt honor'd yet in many a clime—
For others' weal thou oft hast bled!

God speed thee, for thy cause is just;
Thou'st borne with patience much of wrong;
But if not *England's honor rust*:
Forbearance must not last *too long!*

Matilda, C.W., 2d July, 1856.

Mr George Brown, M.P.P., a Costly Patriot

"The smallest possible amount of reason in the largest conceivable array of words."—*Spirit of the Times.*

"Concentration is strength, diffusion is weakness."—*Archimedes.*

An ingenious friend, says the Hamilton *Spectator*, has sent us the following—and if correct—important statistical facts connected with one of our great patriots, Mr George Brown, which will incontestibly prove that great self-esteem in an M.P.P. is wasteful of the public time, the public cash, the public good, the public patience, and the government printing ink and paper, to say nothing of the public character amongst those thinking men who are not brought within the vortex of the whirl-pool of passion and excitement, at the expense of reason and principle:—

"Taking the average salary of each M.P.P. at two pounds per day—the sittings of the House at eight hours per day—Mr George Brown has occupied, for the last three Sessions, three hours of each sitting—more than one-third of the whole time devoted to the business of the country—in attacks upon other members and individuals in office, or in defence of himself, the whole being of a purely personal nature, at a cost to these Provinces for salaries, allowances to Members, printing, commissions, committees, witnesses, &c., £67,840! Mr Brown's speeches cover 1,983 columns of solid type, every portion of which bears almost exclusive reference to himself.—The number of capital I's amount to nearly one million! Praise to himself 3,230 times.—Accusations of dishonesty against members of the House and Cabinet, 743. The word "Villain," as addressed to his political opponents, occur 621 times. The number of assertions that he has exposed "rogues" and "public pilferers," 1,137. The number of assertions that no other man could save the country, 477. The number of times Mr Brown's eloquence had cleared the House of all but twenty members and the Speaker, 177. The number of gin slings, toddies, and Brandy smashes drank to while away the time till the hon. gentleman had ceased speaking, 77,821. The number of yawns by the listeners to the speeches, 54,000. The weight of the type-metal used in setting his speeches, motions, minutes, returns, and orders, &c., 681 tons.—If the lines of printed matter were placed lengthways they would extend twice round the globe, and nearly 900 miles over, and if the capital I's were placed lengthways they would reach 177 miles! These three years' efforts of Mr George Brown, which have not produced one result, would form the pretty considerable little library of 2,274 closely printed octavo volumes, the whole substance of which could be more understandable, and better expressed in 470 pages, or little more than one of the said volumes. What a slanderous rogue old Dr Sam. Johnston was, when in his dictionary he had the audacity to describe 'Patriotism as the last refuge of a knave.'"

Holloway's Pills the most efficacious remedy for Determination of Blood to the Head.—The marvellous power possessed by these wonderful pills in the cure of determination of blood to the head, and all bilious disorders, although well known and appreciated by the mass, yet among some private individuals, it is perhaps not understood. To such as are afflicted with these ailments, and nervous disorders, we strongly recommend them; and would advise their trying recourse to the same after having other means have failed, with the certainty of obtaining immediate relief, and by perseverance a lasting cure. The thousands who have derived final benefit from the use of this inestimable medicine is at once a proof of the virtues the medicine possesses, and renders it an indispensable requisite in every family, whether at home or abroad. These Pills are equally efficacious in all diseases of the liver and stomach.

Valuable Household Articles—Dr Jas. McClintock's Alterative Syrup, for purifying the Blood, eradicating Pimples, Blotches, Scrofula, and all kinds of Taint from the system, thereby nourishing, strengthening, and building it up; also, the Dyspeptic Elixir, the Great remedy for Dyspepsia, Loss of Appetite, Indigestion, and all diseases that follow these complaints. They are a combination of the virtues of the best remedies the vegetable kingdom affords.

Dr James McClintock's Sucess in treating diseases of the Lungs and Throat, while at the head of the Philadelphia College of Medicine, has given him a world-wide reputation. Cold and Cough Mixture removes every vestige of irritation from the Throat and Lungs in the worst cases of Cold Cough, Catarrh, Influenza, &c., and where these too-often-neglected complaints have become merged in Brocnhitis or Consumption, his Pectoral Syrup will save the patient in cases which are usually pronounced hopeless.

Multitudes are now suffering under the debilitating effects of Fever and Ague, who might speedily be restored to health, vigor, and usefulness by a course of Dr. Jas. McClintock's Fever and Ague Specific. Its curative results are certain and invaluable. If the complaint is complicated with Liver Complaint, resort should be had to Dr. McClintock's Anti-Bilious Pills, which never fail to afford relief in Bilious diseases.

Dr Jas. McClintock's Whooping Cough Remedy and his Diarrhea Cordial have become the great leading and standard remedies in families, nurseries, and every where they are known. Whooping Cough, Croup, Asthma, &c., and Diarrhea, Cholera Morbus, Cholera Infantum, and Summer Complaints, are immediately relieved and speedily cured by their prompt effects. Are the discoveries of an eminent and scientific man founder of the Philadelphia College of Medicine.

Holloway's Ointment and Pills—cure of Piles, after fourteen years' affliction.—Mr M. C., of Montreal, was a martyr to this complaint for 14 years, rendering him an object of misery to himself as well as to his friends; he shunned society lest he should let those around him observe his affliction, and thus he suffered secretly. As he had tried every remedy without success, he at last gave upin despair all hopes of recovery; but resolved to give Holloway's Ointment and Pills a last trial, and fortunate it was he did so, for these potent remedies cured him in five weeks. He feels so grateful for the cure effected, that he wishes these facts to be made public for the benefit of similar sufferers.

Excursion to New York City!

THROUGH IN TWO HOURS!!

BULLARD'S PANORAMA will be exhibited at Kingston in the

CITY HALL,

THURSDAY, FRIDAY, AND SATURDAY EVENINGS, JULY 3d, 4th, and 5th,

At half-past EIGHT o'clock. Also on SATURDAY AFTERNOON, JULY 5, at 3 o'clock.

The Panorama moves before the Audience for nearly two hours, and takes the spectator over SIX MILES through the streets of New York City, in the midst of the business—in places and through streets which to a stranger would be of most interest, and he would be most likely to visit; and while he is apparently passing along, he has extended perspective views of the buildings, on both sides of upwards of FIFTY STREETS, which, collectively, being about forty miles of buildings, gives him a view of "the city city and its people," as it would appear to him if he were to go there, and walk through the streets among the bustle and confusion of THE EMPIRE CITY. He will have a faithful and exact view of the magnificent churches, public and private buildings, the shipping and steamboats, horses and carriages, omnibuses, railroad cars, and the THOUSANDS OF PEOPLE who daily throng the streets of New York Distinguished men and acquaintances are readily recognized among the crowd of persons in the streets. The signs can be read the same as if you were in the city, as all are **FAITHFULLY** represented upon this painting—public and private processions, military companies, firemen and their engines, bands of music, &c., &c. While the Panorama moves before the spectator, over 700 horses and carriages pass in view, and more than 10,000 of the people of the City at their daily business.

It is impossible to state all that is to be seen on this moving painting Persons in viewing it can hardly persuade themselves that they are not actually in the city among its business and bustle—viewing the citizens and strangers as they really are in every day life at their avocations, and persons unacquainted in New York City, will get a better view, and gain more information of the city, and its people, by once seeing this Panorama, than they would to actually visit the city and walk its streets and thoroughfares for ten days, as thousands of persons have testified.

At each exhibition of the Panorama, as it passesbefore the spectator, an explanatory lecture is given by Mr George Doel, one of the Proprietors of Mr Albert Norton, illustrative of New York City, its statistics, buisness and resources its people, their go-aheadativeness; and much valuable knowledge of great importance to a stranger, and of general and instructive information to everybody.

Addmission 25 cents, Children, half-price. Reserved Seats, 50 cents.

ALBERT NORTON, AGENT.

It will also be exhibited at Picton, Milford, Wellington, Northport, Demorestville, Consecon, Brighton, Colborne, Percy Frankford, Trenton, Belleville, Shannonville, Napanee, Newburgh, Mill Creek, Bath, Gananoque, Brockville, Prescot & Ogdensburgh.
