### Walkerton

Now that Walkerton is as much a neighboring town as Owen Sound, a few items occasionally from that quarter will be of interest to our readers. The following is culled from the Telescope of that town (one of the brightest newspapers, by the way, in this part of the province):

Fred Armstrong, who was committed to the Kingston penitentiary for forging Wm. Cronin's name to a cheque, was taken down on Wednesday by the sheriff and jailer. He felt pretty blue at the prospect of being placed under lock and key for the next two years. But he got sorry too late.

The town constable's complaint against Chas. Addley, or rather against his wife for selling goods on Sunday, was tried before Mr. McNamara on Wednesday last. The article sold was a stick of licorice, and the price was one cent. The magistrate, however, although the transaction was a trivial one, held that it was a violation of the law, and imposed a fine of a dollar and costs, Mr. Addley says he will appeal.

The Telescope had a call on Monday from Mr. Duncan Marshall, M. P. P., of Edmonton, and his right-hand man, Mr. Donald Gillies of the same town. Mr. Marshall is one man, who by sheer pluck and ability, has forced himself to the front. He is manager of the Edmonton Bulletin, Hon. Frank Oliver's paper, and at the late elections was elected for the constituency of Olds. It is generally understood that in the course of a few months he is to be taken into the Cabinet as Provincial Treasurer. He is now an enthusiastic western, and predicts a great future for that Province. Mr. Gillies was born in Elderslie, and is a nephew of the late John Gillies, M. P. His wife is a daughter of the late John Atton of Brant. These two Elderslie boys have been closely associated for several years past and seem bound to keep up the connection. Speaking of the province of Alberta, Mr. Marshall says that only 4 per cent of it is yet under cultivation. This will give us some idea of what that western country will produce, once it is all under cultivation.—(Both of these gentlemen are well known in East Grey as defeated candidates for parliamentary honors.—Ed. Advance.)

Coughs that are tight, or distressing tickling coughs, get quick and certain help from Dr. Shoop's Cough Remedy. On this account Druggists everywhere are favoring Dr. Shoop's Cough Remedy. The tender leaves of a harmless lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its curative properties. Those leaves have the power to calm the most distressing Cough, and to soothe, and heal the most sensitive bronchial membrane. Test it once yourself and see! Sold by all dealers.

### Swinton Park.

We presume the making of maple syrup is over for this season.

Farmers have started seeding.

People are delighted to see spring once more. Birds are singing sweetly and the beautiful wild flowers will soon be gathered by the children. We trust some of them will be carried to older ones who are not permitted to go to the woods, youth is the time to start to do acts of kindness.

Salem Methodist church has reorganized the Sunday school, with Mr. Geo. Wright as superintendent.

We are sorry to learn that Mrs. Richardson, sr., has a severe attack of la grippe.

The smallpox has not reached the Park, yet a few have been vaccinated, but the preventative is almost as bad as the disease.

Mr. Will Heard returned from Toronto in time for seeding.

Rev. Matheson preached an excellent sermon last Sabbath from Rom. 16-20, "And the God of Peace shall bruise Satan under your feet shortly." He has a Bible training class after service. It is too bad that there are not more young men and women avail themselves of this privilege of studying God's word, and join the class.

Miss Evelina Smith is home from Flesherton on a short visit to her parents at Eugenia.

The weather still continues cold and backward for spring work. Seeding is going to be very late.

Master Wilfrid McMaster, who got his arm broken a short time ago, had the misfortune on Saturday last to have the same arm broken again by falling off a wood pile. It is a new break, further up his arm. The poor little fellow seems to have a hard time.

The recent high winds have given farmers a great deal of extra work building fences, as they were completely levelled to the ground in some places.

Mr. Jake Williams has got his blacksmithing moved over to his house and still continues to wait on his customers.

A meeting was held at Eugenia, on April 20, 1909, for the purpose of organizing a football team, and the following officers were elected: President, Peter Munshaw; Vice Pres., Henry Cairns; Sec. ### Durham.

(Condensed and otherwise from the Chronicle)

So far, it looks as if Durham will be without a lacrosse team, or sporting aggregation of any kind this summer.

Mrs. McDonald, an old lady, 81 years of age, died on Sunday last in Glenelg, on the farm recently owned and occupied by the late Henry Farr.

The Walkerton Twine Factory, which has been idle for the past four or five years, was sold for ten thousand dollars two weeks ago and the purchaser intends to set in operation at once, in the manufacture of twine and rope. Though the price is said to be low, it will bring gladness to the hearts of the people of Walkerton to see the factory in operation once more.

"Billy" Livingston has departed from our midst and on Friday he moved his wigwam into the wilds of Tavistock. As a sport, gentleman and general favorite, Billy was the goods, and the news of his transfer into another world was received with real regret. Needless to say the best wishes of the whole town accompany him into his new field of action. Billy has some warm friends in and around Flesherton.

We regret to chronicle the death of Mr. Charles McArthur, at his home here on Thursday morning last, after a lingering illness of four or five years duration. The deceased gentleman, who was well known and highly esteemed in this town and locality for the greater portion of his life, was born in the Isle of Mull, Scotland. When a lad he came to Canada with his parents and settled with them, in what was then a wilderness in the centre of the township of Glenelg. Here he grew into manhood, when he engaged in the teaching profession, at which he spent more than twenty years in the adjacent townships. For over thirteen years he taught in S. S. No. 1, Glenelg, where he proved himself an efficient instructor and an excellent disciplinarian. In 1890 he purchased the Durham Review and ably conducted that paper for a couple of years, when he entered the mercantile business in the Dalgleish premises up town. About eight years ago he moved down town where the business has since been conducted, for a time in the store at present occupied by Mr. S. F. Morlock, and later in the old stand occupied for many years by Messrs. N., G. & J. McKechnie. About five years ago he became an invalid from the effects of sclerosis, and never recovered, being almost helpless for the past three years.

Tourgiss, who will do the masonary and brick work; Mr. S. Woolner, who will do the carpenter work, and Mr. E. Edwards, who will do the painting. The architect is Mr. P. Palin. All come from Collingwood. The new building has been desired for some years and now that it is within sight the trustees are determined to have a modern building in every particular.

Give Chamberlain's Cough Remedy. It will keep the cough loose, expectoration easy and render the fits of coughing less frequent and less severe. It is safe and sure. For sale by W. E. Richardson.
