Mr. J. E. Marcellus, the new teacher of high school work in our public school, accompanied by his wife, arrived in town on Thursday last and lost no time in getting down to work, starting in on Friday. The work, however, actually began on Monday of this week with 22 pupils in attendance. Those attending say they think the new rural high school will be all right.

At this time of year the enterprising scale or range peddler generally puts in an appearance at the farm with a load of the "best on the market." Our advice to the farmer is: Buy from the reliable merchant you know and to whom you can return if you fail to get satisfaction. You'll never get done up by the home merchant, and you'll find out who they are by consulting our advertising columns.

A scheme is on foot to develop electrical energy for Collingwood from Silver Creek at a point seven or eight miles west of Collingwood. The fine B. B. Osler property on the mountain has been purchased and it is estimated that from 350 to 400 horsepower can be developed.

The Flesherton A. O. U. W. lodge is an especially strong organization, and is still growing. On Monday evening the society had a sort of jubilee or banquet among themselves. Four new members were initiated, including two ladies, after which a luncheon and programme was provided. Several visiting brethren from Priceville were present. The program consisted mainly of speeches, with Bro. Jos. Blakeley in the chair. The speakers of the evening were Organizer and D. D. G. M., Henry of Orangeville; M. K. Richardson, Jas Turner, M. W. of Priceville Lodge, and others. A hearty vote of thanks was tendered the ladies for supplying the bountiful repast, and to the chairman for the excellent manner in which he fulfilled his arduous duties. The meeting was closed with the National Anthem.

A very large quantity of maple syrup has been made in this vicinity this year, notwithstanding recent predictions by our correspondents that the season would be a poor one. We do not remember as large a quantity ever being marketed here before. The latest sample to be placed before ye editor was from Mr. Harmon Radley, for which grateful thanks are extended. Mr Humberstone of Euphrasia had a quantity of very fine quality on the market Monday. Mr. Preston of Osprey is also an expert in this line and always finds ready sale for his choice production. On Monday Mr. Kernahan of Osprey gathered 600 pails of sap and Tuesday morning a similar amount. Mr. Lever of the suburbs has also made a large quantity. These are the chief manufacturers around us so far as we know, although many others manufacture their own supply.

One of the most welcome among the many exchanges which come to our desk is The News, of Toronto. The News has recently made wonderful advances, so much so that old friends of the paper would hardly recognize in this great Canadian newspaper the old News of a few years ago. The News now contains from fourteen to twenty pages each day, with twenty-four to thirty-two on Saturday. A specialty is made of political and parliamentary news and questions affecting the welfare of the public receive fair editorial treatment by clever writers. We are safe in saying that there is no paper more widely quoted in Canada and its cartoons are reproduced by many of the leading journals. Through an arrangement made with the News, we are able to offer The Advance and The News in a club for one year at the remarkably cheap price of $2.30.

Committed for Trial

Harriston, April 24.—The preliminary hearing of Duncan McKinnon, charged with committing an aggravated assault upon Miss Ellis on the highway in Normanby township on April 16, took place yesterday before Police Magistrate Ryan at Ayton. Crown Attorney Armstrong of Owen Sound represented the Crown; Mr. I. B. Lucas, K. C., represented Miss Ellis, and Mr. Anson Spotton the defence. The evidence for the prosecution showed that McKinnon pulled out a handful of her hair, kicked her in the body, pounded her head and body with his fists and a stick, and rode her down with his horse. It was also stated in evidence that a man named Dickert in the latter part of the assault looked on all the injuries Miss Ellis was receiving and rendered her no assistance, stating that McKinnon threatened him if he came near. The defence offered no evidence, and the prisoner was committed to Owen Sound jail to await his trial

Rheumatism.

More than nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp weather or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed, and it is certain to give a quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. Price, 25 cents; large size, 50 cents. For sale by W. E. Richardson.

During a temporary fit of insanity, Mrs George Elder, of the township of Pilkington, near Bethel, wandered from her home on Saturday last. A futile search for her was made until Sunday, when it was found that she had been drowned in a creek which runs through the Elder farm. The body was discovered by a neighbor, Mr. Moses Auger. There is every reason to believe it was a case of suicide. She leaves a husband and family of five, the youngest being about ten years of age.

Object to Strong Medicines.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties. When there is no fever and little, if any swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. You are certain to be pleased with the quick relief which it affords. Price, 25 cents; large size, 50 cents. For sale by W. E. Richardson.

Benjamin Bradley, 78 years of age, of East Garafraxa, who has been living in Orangeville for the past 15 months, having retired from his farm, is dead, on account of a seaweed growing in his stomach. Six months ago Bradley coughed up about six inches of this weed, which was of a dark green color. Dr. Gibson, of Hillsburg, who was his family physician before he came to Orangeville, applied the stomach pump and succeeded in breaking up the growth. At various times since Bradley coughed up portions of it, which has been of a semitransparent, muddy color. Specimens of the growth have been sent to a well-known analyst, who describes it as a variety of seaweed, the seed of which has been concealed in a raw oyster, which Bradley had eaten, and the seed had taken root in the folds of the lining of the stomach. Bradley went against the advice of a physician and refused to submit to an operation.
