CANADIAN INDUSTRIES C-I-L LIMITED

Free Flowing Fertilizers

Here are four big reasons why we recommend C. I. L. Mixed Fertilizers to you:

First: Dry, free flowing, they end that costly nuisance, drill-clogging! . . . *Save labour!*

Second: When you need C. I. L. Mixed Fertilizers —that's when you get them! Drive up and get them —*right out of stock!*

Third: This prompt delivery service is less costly than the old-fashioned "order-and-wait" method . . . Saves you actual dollars-and-cents, as well as valuable time!

Fourth: Made in Canada.

The Late John Ferris

A highly respected pioneer of this district, in the person of John Ferris, passed away on Wednesday, July 30, at the home of his son, W. J. Ferris, Con. 6, Melancthon. The deceased who was born in County Fermanagh, Ireland, came with his parnts to Canada when twelve years old, settling first at Swinton Park. On reaching manhood he was married to Mary Ann Cluff, who passed away in 1885. A few years later he was married to Elizabeth Abbot, who predeceased him in December, 1928.

Mr. Ferris followed farming as an occupation, first in Proton Township and later in Melancthon for a lengthy period, retiring about fifteen years ago. He was a man of exemplary character, and his neighbors always had a good word for him.

The deceased is mourned by four sons and four daughters, namely: James and William J. Ferris, Melancthon; Thos. G. Ferris, in Osprey, Joseph A. Ferris, of Toronto; Sarah (Mrs. J. M. Wiley), Vancouver; Margaret (Mrs. L. D. Fallis), Toronto, and Ruth (Mrs. Wm. Patton), Proton All were present at the funeral with the exception of Mrs. Wiley, of Vancouver. One brother, Joseph Ferris of Priceville, and two sisters, Mrs. Plester of Egremont and Mrs. Joseph Coulter of Proton, also survive.

The funeral on Friday afternoon was very largely attended. A short service at the home of his son, W. J. Ferris in Melancthon, was followed by service in the United Church, Dundalk, of which the deceased was a faithful member, conducted by the pastor, Rev. E. Baker assisted by Rev M.F. Oldham, of the Anglican Church. Interment was made in the family plot in Dundalk Cemetery. The pallbearers were: James and W. H. Russell, Thompson Elliott, J. D. McDowell, R. Neithercut and Robt. Coutts.

Among the floral tributes were. Pillow, from the family; wreath, Jas Ferris and family; spray, Mr. and Mrs. L D Fallis; spray, Mr. and Mrs. F. Sageman; cross, Mr. and Mrs. E. Patton; sprays, Mr. and Mrs. George Rowley, Mr. and Mrs. Vern Pernue, (Toronto), Mr. and Mrs. Jas. Aitken.

Friends present from a distance. Mr. and Mrs. Jack Ferris, Viola and Delmar Ferris, Mrs. James Campbell, of Toronto; Mr. and Mrs. Bloomfield Ferris, Mr. and Mrs. J. McMillan, of Flesherton; Mr and Mrs. Joseph Abbott, Hanover; Mrs. Mathews, Markdale; Joseph Ferris, Priceville; Mrs. Coulter, Flesherton, and Mrs. Plester, Egremont.

The Advantage of Early Fall Plowing

Fall ploughing is generally considered a goood practice in most parts of the country, if best results are to be obtained. In a section such as Northern Ontario where the growing season is comparatively short it is not only advisable, but it is imperative that the greater part of the ploughing be done in the summer or fall.

At the Dominion Experimental Station, Kapuskasing, Ontario, it has been found that midsummer or early fall-ploughing has materially facilitated the coompletion of this work before the ground became too wet or was frozen.

Experiments have shown that practically all the common farm crops should be sown as early in the spring as the condition of the soil will permit and this is only possible when the land has been ploughed the previous fall, and better still if it has been ploughed sufficiently early to disk a couple of times and also open up proper water furrows before the freeze-up.

While it is true that all of the ploughing can not be done during the summer and early fall on account of certain crops occupying the land, nevertheless, a start should be made as early as possible. Night pastures and old meadows lend themselves particularly well to early ploughing.

This not only assists materially in getting the ploughing completed, but it makes possible the cultivation of the land to some extent after ploughing and thereby partly takes the place of summer-fallowing. This gives an opportunity of keeping weeds under control and storing up a supply of moisture and plant food for the next season's crop.

ARTEMESIA COUNCIL

Artemesia Council met at Flesherton on Monday, the 4th. day of August, 1930.

Members all present, the Reeve in the chair. Minutes were read and adopted.

By-Law, to authorize debentures for the Acheson drain was introduced and read first and second times and laid over for third reading at a future meeting.
