This was followed by a solo from Miss Sadie Warling. Mrs. A. E. Myles being present was called on and gave a short synopsis of the work for the past year, showing a good increase. Miss Rosie Gilbert gave a solo and Miss Hyland addressed the audience on "Twentieth century food fads." Mrs. Myles gave an instrumental in her usual pleasing manner. Miss Verney gave a reading on the benefits of Women's Institutes. The branch seemed to be well pleased with the delegates. From the fact presented that thorough mastication will reduce the food necessary 25 per cent., the molars are likely to have much more to do in future. The branch is in a prosperous condition, holding regular monthly meetings. The next meeting will be held June 17. Visitors welcome.

Dundalk.

Mr. George Sharp claims $200.00 damages from Dundalk and has caused a writ for this amount to be issued against the municipality. The difficulty has arisen in connection with putting the big drain last summer across Sharp's property.

A rather serious runaway occured on Tuesday afternoon on Main street. Fred Tansley, who works for James Carson in the suburbs, was driving into town with a team attached to a wagon. By some means the horses started running and the driver lost control on account of not being able to brace his feet on the loose boards of the box. He actually dropped down on the tongue between the horses and the bunk of the wagon and was in that position when the team collided with full force into a buggy occupied by the two Misses McMillan, of Wareham, on the cement walk in front of Symington's shoe store. That there was not someone killed or seriously injured was a miracle. As it was the ladies received a very severe shock and were somewhat bruised. The buggy was badly smashed in the mix-up. The three horses fell on the cement walk but were very little injured. The ladies after a rest were able to go home that evening. Tansley was uninjured.—Herald.

At about 11 o'clock Saturday night the fire alarm rang out and it was soon seen that George Wood & Son's planing mill and sash and door factory on Owen Sound street was in flames. The wind was from the north and carried the sparks across the town, increasing the danger to other buildings. The fire was, however, confined to one place, but it was completely destroyed. The loss to the firm is severely felt as they had but $1500 of insurance. They were burned out before at the same place in August of 1907. The building was therefore new and the machinery mostly all new. The fire coming at the beginning of a new season is a discouraging blow to the firm and they have the sympathy of the community. As to rebuilding they have not definitely decided. The fire is supposed to have originated from a smouldering spark in the saw dust.

Born in Iowa.

Our family were all born and raised in Iowa, and have used Chamberlain's Colic, Cholera and Diarrhoea Remedy, made at Des Moines, for years. We know how good it is from long experience in the use of it. In fact, when in El Paso, Texas, the writer's life was saved by the prompt use of this remedy. We are now engaged in the mercantile business at Narcoossee, Fla., and have introduced the remedy here. It has proven very successful and is constantly growing in favor.—Ennis Bros. This remedy is for sale by W. E. Richardson.
