The Royal Canadian Regiment.

Toronto, March 3, 1858.

The following are Extracts from the Official Gazette:—

Whereas Her Most Gracious Majesty The Queen hath been pleased to approve of the raising within this Province of Canada, of a Regiment of Infantry, consisting of One Thousand rank and file, to be styled "The 100th" or "Prince of Wales' Royal Canadian Regiment;" I do hereby give notice that Depots for the inspection and reception of Recruits for such 100th Regiment will be opened, as soon as practicable, at the following Stations, that is to say:

Upper Canada:—London, Niagara, Toronto, Kingston, Ottawa.

Lower Canada:—Montreal, Quebec.

All Persons, whom it may concern are especially cautioned and desired to observe that no authority, express or implied, is or will be given to enlist or procure recruits, except within the Dominions of the Queen; and no bargain, promise or agreement made or entered into at any place, not situated within the Provinces of British North America, will be respected in any way or deemed valid or binding

Notice of Conditions of Service in the 100th or "Prince of Wales" Royal Canadian Regiment.

In pursuance of the above Proclamation, the Governor General desires to state that His Royal Highness the General Commanding in Chief has been pleased to allow His Excellency to submit the names of Gentlemen residing in Canada, including such as may have already served in the Army, or may be in receipt of Half-Pay, as Applicants for a certain number of Commissions in the 100th Regiment.

These Commissions will be as follows:

1 Major,
6 Captains,
6 Lieutenants,

and will be given without purchase on the conditions hereinafter stated:

1st. The fitness of every Applicant shall be certified by a Board of Officers, under the direction and subject in each case to the approval of the Lieutenant General Commanding Her Majesty's forces in British North America

2nd. Every Applicant so certified and approved shall be recommended by His Excellency The Governor General.

3rd. Any gentleman receiving the Major's Commission shall have previously brought to one or more of the Depots for recruits at least 200 men passed and attested.

4th. Every gentleman receiving a Captain's Commission, shall have previously brought to one or more of such Depots at least 60 men passed and attested.

5th. Every gentleman receiving a Lieutenant's Commission shall have previously brought to one or more of such Depots at least 40 men passed and attested.

6th. His Royal Highness the General Commanding in Chief has moreover been pleased to signify that he will permit the Governor General to recommend the names of a limited number of Gentlemen residing in Canada, and duly certified and approved as above, as fit and proper persons to receive Commissions as Ensigns in the 100th Regiment, with or without purchase, according to the discretion of His Royal Highness.

7th. No Gentleman receiving a Commission in the 100th Regiment will be permitted to sell or dispose of the same except under the restriction and after the time and service usual in the Army.

8th. The Governor General will not consider any gentleman as qualified to obtain a recommendation from him until he shall have transmitted to his Assistant Military Secretary, an attested copy of the Certificate of a Board of Officers, countersigned by the Lieutenant General Commanding.

9th. Such Board of Officers will assemble at Montreal, and will sit at such times and at such places as may be directed by the Lieutenant General, for the purpose of examining and reporting from time to time on the Military qualifications of such gentlemen as may be referred to the Lieutenant General for examination, and approved by His Excellency the Governor General. The certificates of the examining Board shall have especial reference to the rank which the person examined may seem qualified to fill with credit to the service.

10th. In order, in the first instance, to obtain the necessary certificate and approval from the Military authorities, it will, as a general rule, be requisite that the applicant should either be personally known to the Governor General, or should present himself to His Excellency, at Toronto, for the purpose of obtaining a reference to the Lieutenant General; but no such reference will imply a pledge or promise on the part of His Excellency ultimately to recommend the applicant for a commission, even if he is certified to be fit.

11th. Any gentleman passed and approved as fit to receive the commission of Major, Captain or Lieutenant respectively, who shall have been informed by the Assistant Military Secretary of the Governor General that he has been selected by His Excellency, may then, and not before, bring to any recruiting depot the recruits whom he shall have collected. Such recruits will be examined, and (if approved and attested) credit, at Head Quarters for the number so brought, will be given to the person bringing them, until the number requisite for the commission according to the scale recited above shall be complete.

12th. A recruit presenting himself at a Depot, without being brought by any applicant for a commission, or who may be brought by a person, not previously selected by the Governor General, will not be carried to the credit of any applicant for a commission without purchase.

13th. Every recruit will receive the usual Bounty and Kit hereinafter specified. They must be from 5 feet 4 inches in height and between the ages of 17 and 30 years.

BOUNTY.

On being attested, in cash	£0 2 6
On final approval by the Inspecting Field Officer, in cash	0 7 6
On joining the Depot at Montreal or Quebec, in cash	2 10 0
Total, Sterling	£3 0 0

Washington, February 25th.

Yankee Fighting.—Of the barber's shop fight at Willard's, between Lieutenants Robert Williams, 1st Regiment of Dragoons, and David Bell, 1st Regiment of Cavalry, a letter writer says:—

"The gallant Lieutenants had almost simultaneously repaired to the barber's shop for the purpose of getting shaved or having their hair cut. The moment they encountered they fought, but in the most gentlemanly manner. Williams broke his cane over Bell's head, and the two grappled and struggled with as much decorous restraint as if they had been acting a tableaux in a fashionable drawing room; not an oath, not an exclamation not a loud word escaped them. Bell having no cane, returned to get one. He presently returned accompanied by a friend. Williams was standing before a mirror quietly adjusting his cravat, which had been disarranged in the scuffle. As Bell approached him with uplifted cane, he turned, folded his arms and coolly awaited the blow. At this point the barber, whose basins, vials, bottles, and other fragile wares, had suffered somewhat in the fray, interposed with a pathos equal to that of the combatants.

'Gentlemen,' he said, 'permit me to suggest that this is hardly a fit place to fight in. I have already sustained considerable damage by your movements, and if the struggle is to be renewed—'

'You speak like a man of sense,' interposed Bell, suspending the descent of his cane. What you say is very reasonable. This is no place for a fight. The affair must be settled elsewhere. Make out your bill for the damages we have done, and I will pay it.'

The barber's account was presented and paid, and the belligerent sons of Mars withdrew in the quietest manner possible, agreed to fight a duel, met at Bladensburg at five o'clock the next morning, Mr. Bell firing a bullet through W.'s hat, the latter firing into the ground—shook hands, went home 'satisfied.'"

Legalized Importations of Africans into Louisiana.

New Orleans, March 3rd, 1858.

A bill has passed the House of Representatives of Louisiana, authorizing a company, already organized, to import twenty-five hundred free blacks from the coast of Africa, to be indentured for not less than fifteen years.

DOMESTIC.

A Fracas at Ottawa.—The Bench and Parliament were very nearly coming into collision in this city on Monday sennight, the former in the person of the distinguished Judge of the County Court here, and the latter in that of the present member for this city. Some dispute took place between these two gentlemen whilst the scrutiny of the votes, recorded on behalf of the latter at the late election, was going on, which led to an altercation between them, the M.P.P. insinuating rather too plainly that the Judge was not acting with due impartiality towards him. Words grew hot and heavy between them, and the learned Judge threatened to consign the Legislator to the Tombs for a space, to allow his temper to cool, and to learn how to treat judicial dignitaries with proper respect. The fracas ended with no worse result, after all the wind and fury, than a mysterious hint from the successor of Coke, that the M.P.P. might hear more about it after the enquiry was over. We hurried up to the scene of hostilities the moment the report reached our ears, with the intention of taking notes, but arrived too late for the sport. From present appearances it would not take us wonderfully by surprise should some other interesting episodes take place before the enquiry is ended.

We understand that Capt Clarke of the Yorkville Cavalry is recruiting for the new Canadian Regiment; and as honor and promotion are open to all ranks, the recruiting officers have something to offer beyond the "Queen's shilling"

Townsend.—McHenry still remains in Merrittsville jail, notwithstanding the abundant proofs which have been given of his innocence of the fearful crimes with which he is charged. Among others who have recently come forward to prove that McHenry was in California at the time of the murder at Port Robinson, is Mr. F. J. Huber, of Rochester, who states that he employed one Robert McHenry, in Sierra County, California, about the time the murders with which the prisoner is charged were committed. In reference to this the Rochester Union says:—"We have received a letter from Edgar Barker, Esq., of Dunville, C. W., counsel for R. J. McHenry, who is under arrest in Canada as Townsend, the great robber and murderer. Mr. B. says McHenry confirms our statement that he was employed in mining operations in California by Mr. E. J. Haber, of this city, whose services as a witness will be of great importance. It is supposed by McHenry that there are other returned Californians in this section who know him in the Golden State. If there be any such here they are earnestly requested to make themselves known, as they may be instrumental in saving the life of an innocent man, the victim of circumstances," whose neck the Canadians seem bound to stretch, if they can possibly secure the sanction of the law for their proceedings". The Spring Assizes at Merrittsville take place during the present month, when the trial will be resumed, and will, we have little doubt, result in acquittal.—[Hamilton Times.

The Murders Near Brockville

Brockville, March 5.

The inquest is still going on. Witnesses from the neighbourhood have been examined, but no evidence has, as yet, been elicited, to fasten suspicion upon any one. The inquest has been adjourned till Monday, and search is being made, and every other step taken, to find out the perpetrators of these atrocious murders.

A SPECIAL NOTICE.

LIFE ASSURANCE AS A SECURITY TO CREDITORS.

In the present day most persons of intelligence are aware of the value of Life Assurance as a provision for the widow and the orphan; many also know that by means of an Endowment Assurance they may contribute to their own comfort, by themselves receiving the amount assured: but comparatively few are aware of the extent to which Life Assurance may be made available as a security to creditors—frequently proving, in fact, the only source to which they can look for the liquidation of their claims, in case of the early death of the debtor. A case which has lately occurred, will serve to illustrate this fact.—We allude to the death of a citizen of Ingersoll, at the early age of twenty four.—Only a few months before his death he had assured his life in the Provident Life Assurance Company of Toronto (one of our native Institutions) for the sum of £300—which sum has just been paid by the Company, and the distribution of which will doubtless cause several persons to become warm advocates of Life Assurance for the rest of their days. 38

Wood's Hair Restorative.—This wonderful preparation is having an extensive sale in all parts of the Union. It is one of the few patent medicines which are now sold over the country, that are really what their inventors claim for them. Wherever it has had a fair trial, the result has been precisely as Wood predicts. It has never failed to turn the white hair back to its natural color, where the directions have been strictly followed, and in numerous cases it has restored the hair upon heads that had been bald for years. It is not pretended that it will make the hair grow in every case, but where it fails there is certainly no remedy. The restoration of the hair has been effected in so many instances where the case seemed utterly hopeless, that it is certainly worth while for all who have lost their hair to try the experiment of using a bottle or two of Wood's Restorative.—Moline Workman

Sold by all respectable Druggists. 28

Lukuriant Hair.—The Mahommedans say that the 'angels dwell in long beards'—and long hair has always been highly prized, and very justly so, for nothing can prove so injurious, even to the prettiest face, as coarse hair. The time was, when persons were obliged to leave the hair as nature gave it, but of late years Bogle's Hyperion Fluid has come into use, and as an article for the toilet, both for ladies and gentlemen, it is unsurpassed. Sold by all Druggists. 37

For Cleansing the Teeth.—Wet your brush in water, pour on it one or two drops of the "Persian Balm" and apply to the mouth night and morning.—Its effects will be to neutralize all acids of the mouth, render the gums and soft parts perfectly healthy, the Teeth white as alabaster, and impart to the breath a delicious fragrance. 37

Holloway's Pills.—In cases where medical skill has exhausted all its expedients and the practitioner sorrowfully admits that his repertory contains no drug that will help his patient, this all conquering antidote achieves its most signal triumphs. Where the frame is reduced almost to a skeleton, the appetite gone, and a general atrophy of the system prevails, a course of the Pills will infuse energy into the whole vital organization, and spur into action every torpid and paralied function. Thus nature is enabled to combat the debilitating influence of disease, while the antiseptic properties of the remedy are at work upon the animal fluids, purifying them from all matters antagonistic the health, and imbuing them with nutritious and life-sustaining elements. 37

DR. SANFORD'S LIVER Invigorator.

It has become an established fact that Dr. Sanford's Invigorator will cure Liver Complaint, Jaundice and general debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt.

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that have come under our observation it seemed the means of snatching its victim from the grave. We wish all our readers who need medicine would try one bottle, for it will surely give relief.—True American. 252

THE GREAT ENGLISH REMEDY.

SIR JAMES CLARKE'S CELEBRATED FEMALE PILLS.

PROTECTED BY ROYAL LETTERS PATENT.

Prepared from a Prescription of Sir J. Clarke, M. D., Physician Extraordinary to the Queen.

This invaluable medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,

JOB MOSES,
(Late I. C. Baldwin & Co.)
Rochester, N.Y.

NORTHROP, & MOSES,
Newcastle,

Tapioca,	De Barry's Arabian Revalenta, and Ground Rice.

THE Subscriber has just received a supply of the above named articles, recommended as nutritious food for invalids and children.

G. F. LaSERRE, Successor to E. H. Parker, Chemist & Druggist, King Street. 28

INVIGORATE THE LIVER.

It is a most undoubted fact that Dr. Sanford's Invigorator, or Liver Remedy is one of the greatest discoveries made in medicine the past century. It has been a study of the Dr. during twenty years' practice to find what particular organ, when diseased, caused the greatest number of ills or pains, and his conclusion is, that the liver is the greatest regulator of the system and the most liable to disease, while if kept free from disease is a preventive of Dyspepsia, Jaundice, general debility, &c., while last but far from least we mention consumption; for our experience is that more cases of consumption occur from diseased liver than from all other causes put together.

Taking this to be a correct hypothesis, we have but to find a remedy with which to correct the liver, and we have a cure of nearly all the diseases we are subject to by simply using a preventive. That the Invigorator is such a remedy, is beyond doubt to all who try it, for its virtues are such that for all complaints arising from liver derangements, it is an unfailing remedy, while as a family medicine, for all diseases of the stomach or bowels, which are caused in a greater or less degree by liver derangement, it is the safest, surest and most efficacious remedy known.—Princeton Press.

And by Druggists generally. 420

SPECIAL NOTICE.

Frangipanni.—Mr. E. W. Palmer advertise the genuine Frangipanni—a most exquisite perfume. Its name is a history which we copy from Notes and Queries:—

"There is in Rome a family bearing the patronymic of Frangipanni, as famous in Italy as the Plantagenets and the Tudors in England. The origin of the name of this family is traced to a certain office which an ancestor filled in the church—that of supplying the holy bread, the wafer in one of the ceremonials. Frangipanni literary means 'broken bread,' and is derived from Frangi, to break, and Pane, bread. Hence we have the Frangipanni puddings, which good housewives know are made with broken bread. One Mercutio Frangipanni, who lived in 1493, was a famous botanist and traveller, famous as being one of the Columbus expedition when they visited the West India Islands. The sailors, as they approached Antigua, discovered a delicious fragrance in the air. This, Mercutio told them, must be derived from sweet smelling flowers. On landing they found vast quantities of the Plumeria Alba, in full bloom, rendering the air redolent with rich odor, and from this plant, which the present inhabitants of Antigua call Frangipanni flower, is distilled that exquisite fragrance which is now so popular in fashionable circles."

Lightning Rods and Iron Ladders.

THE Subscriber would inform the Citizens of Kingston and surrounding country, that he is prepared to erect

LIGHTNING RODS UPON BUILDINGS,

This ensuing Season, on the most improved and modern plan. Having been engaged in the above business for the last ten years, I feel confident that I can do as good and perfect work in that line as can be done in Canada or elsewhere.

I am also manufacturing and erecting a new kind of

STATIONARY IRON LADDERS,

Upon Buildings, which in point of safety, neatness and durability, as a House or Building Ladder, cannot be surpassed by any other Ladder now in use.

All orders, by Mail or otherwise, promptly attended to.

GEORGE A. RUMRILL.

Kingston, march 1st, 1858. 53

CERTIFICATE.

This is to certify that G. A. RUMRILL, of the City of Kingston, has lately erected Lightning Rods for us, which we highly approve of, and believe to be the best and most approved Rods now in use, and we believe them to afford a safe protection against the sad effects of Lightning. Judging from the manner in which he executes his work, we are confident that he is well qualified for that business, and would recommend him to the Public in general as worthy of patronage.

R. R. R.

LET not the sick die! for in Radway's R. R. R. Remedies there is new life for all who have faith in them!!

LET THEM BE TRIED!

Radway's Method of Cure is *SIMPLE QUICK, SAFE AND EFFECTUAL.*

There is no pain, however torturous or excruciating, but that a simple application of Radway's Ready Relief will instantly stop and quickly allay the most violent spasms, inflammations and congestions. There is no disease, however long it may have become established in the system, whether constitutional, chronic, humorous or of a loathsome character, but that Radway's Renovating Resolvent will exterminate and infuse new life, new blood, and a new existence throughout the broken down and emaciated organization of the body.

If by irregularity or otherwise the organs of the system become deranged and incapable of performing their several functions;—if the Liver, Heart, Bowels; Stomach, Bladder, Kidneys, Skin, Nerves, Blood, etc., are at fault, a dose or two of Radway's Regulators will restore health and regularity to every organ throughout the body. They force each and every organ to the natural performance of its duty, and thus keep up a regular and healthy circulation of the blood.

If a dose of Radway's Regulators were swallowed the moment a person feels unwell, or when any unpleasant symptom appears, there would be no further trouble, for the diseased action would be arrested, and a healthy action re-established. On one fact the sick may depend—that disease cannot grow in the system fortified and under the influence of the R. R. R. Remedies.

MALARIA.

In countries where malarious diseases prevail, Fever and Ague, Dysentery, Cholera, Cholera Morbus, Typhoid, Typhus, Pneumonia, and other Malignant Fevers, Radway's Ready Relief, taken as a preventive, will securely protect the inhabitants of an infected district against any serious attacks; and if the infection has already spread, a prompt use of the Ready Relief and Regulators will quickly cure the patient and expel the infectious malady entirely from the system.

CONSTITUTIONAL DISEASES.

Many diseases that afflict humanity are inherited as heirlooms from the diseased bodies of sickly sires. Scrofula, Consumption, Sy
