The Price of Wheat and its Abundance.

Lindsay, March 8th.

WHEAT.—There are now four buyers in Lindsay, as there should have been a month ago; the price given for Spring grain is 3s 3d; for Fall 4s. No little dissatisfaction was caused amongst the farmers a while ago by their being compelled to carry some of their loads home again; which was occasioned by the enormous quantities brought in at a rush, the buyers being run out of both money and room. Mr. Lang, who was the first to commence purchasing, took in close on 40,000 bushels in one week. There is now plenty of money and plenty of room, and as it is hardly probable that the present excellent sleighing will last long, we suppose all the wheat that can be gone, present prices will be brought in as fast as it can be drawn.

The Royal Canadian Regiment.

Toronto, March 3, 1858.

The following are Extracts from the Official Gazette:—

Whereas Her Most Gracious Majesty The Queen hath been pleased to approve of the raising within this Province of Canada, of a Regiment of Infantry, consisting of One Thousand rank and file, to be styled, "The 100th" or "Prince of Wales' Royal Canadian Regiment," I do hereby give notice that Depots for the inspection and reception of Recruits for such 100th Regiment will be opened, as soon as practicable, at the following Stations, that is to say:

UPPER CANADA:—London, Niagara, Toronto, Kingston Ottawa.

LOWER CANADA:—Montreal, Quebec.

All Persons whom it may concern are especially cautioned and desired to observe that no authority, express or implied, is or will be given to enlist or procure recruits, except within the Dominions of the Queen; and no bargain, promise or agreement made or entered into at any place, not situated within the Provinces of British North America, will be respected in any way or deemed valid or binding.

Notice of Conditions of Service in the 100th or "Prince of Wales" Royal Canadian Regiment.

In pursuance of the above Proclamation the Governor General desires to state that His Royal Highness the General Commanding in Chief has been pleased to allow His Excellency to submit the names of Gentlemen residing in Canada, including such as may have already served in the Army, or may be in receipt of Half-Pay, as Applicants for a certain number of Commissions in the 100th Regiment.

These Commissions will be as follows:

1 Major,
6 Captains,
8 Lieutenants,

and will be given without purchase on the conditions hereinafter stated:

1st. The fitness of every Applicant shall be certified by a Board of Officers, under the direction and subject in each case to the approval of the Lieutenant General Commanding Her Majesty's forces in British North America.

2nd. Every Applicant so certified and approved shall be recommended by His Excellency The Governor General.

3rd. Any gentleman receiving the Major's Commission shall have previously brought to one or more of the Depots for recruits at least 250 men passed and attested.

4th. Every gentleman receiving a Captain's Commission, shall have previously brought to one or more of such Depot's at least 80 men passed and attested.

5th. Every gentleman receiving a Lieutenant's Commission shall have previously brought to one or more of such Depots at least 40 men passed and attested.

6th. His Royal Highness the General Commanding in Chief has moreover been pleased to signify that he will permit the Governor General to recommend the names of a limited number of Gentlemen residing in Canada, and duly certified and approved as above, as fit and proper persons to receive Commissions as Ensigns in the 100th Regiment, with or without purchase, according to the discretion of His Royal Highness.

7th. No Gentleman receiving a Commission in the 100th Regiment will be permitted to sell or dispose of the same except under the regulations laid down for the Army.

8th. The Governor General will not consider any gentleman as qualified to obtain a recommendation from him until he shall have transmitted to the Assistant Military Secretary, an attested copy of the Certificate of a Board of Officers, countersigned by the Lieutenant General Commanding.

9th. Such Board of Officers will assemble at Montreal, and will sit at such times and at such places as may be directed by the Lieutenant General, for the purpose of examining and reporting from time to time on the Military qualifications of such gentlemen as may be referred to the Lieutenant General for examination, and approved by His Excellency the Governor General. The certificates of the examining Board shall have especial reference to the rank which the person examined may seem qualified to fill with credit to the service.

10th. In order, in the first instance, to obtain the necessary certificate and approval from the Military authorities, it will, as a general rule, be requisite that the applicant should either be personally known to the Lieutenant General, or should present himself to His Excellency, at Toronto, for the purpose of obtaining a reference to the Lieutenant General; but to such reference will in no way be a pledge or promise on the part of His Excellency ultimately to recommend the applicant for a commission, even if he is certified to be fit.

11th. Any gentleman passed and approved as fit to receive the commission of Major, Captain or Lieutenant respectively, who shall have been informed by the Assistant Military Secretary of the Division thereof that he has been selected by His Excellency, may then, and not before, bring to any recruiting depot the recruits whom he shall have collected. Such recruits will be examined, and if approved and attested credit, at Head Quarters for the number so brought, will be given to the parties bringing them, until the number required for the commission according to the scale mentioned above shall be complete.

12th. A recruit presenting himself at a Depot, without being brought by any applicant for a commission or who may be brought by a person not previously selected by the Governor General, will not be carried to the credit of any applicant for a commission without purchase.

13th. Every recruit will receive the usual Bounty and kit hereinafter specified. They must be from 5 feet 4 inches in height and between the ages of 17 and 50 years.

BOUNTY.

On being attested, to each	£0	2	6
the first approved by the Inspecting Field Officer, in cash	0	7	6
On joining the Depot at Montreal or Quebec, in cash	2	10	0

THE MURDERS AT BROCKVILLE.

(From the Brockville Monitor.)

On last Monday night, something about nine o'clock, the most cruel and barbarous murders, that ever occurred in this part of Canada, or probably in any other, were perpetrated close by the line of the Brockville and Ottawa Railway, about ten miles from Brockville, and some two miles from New Dublin, on the concession road leading to North Augusta. The unfortunate victims of this terrible tragedy of murder and robbery, were John Thompson, a farmer aged some 38 years, Fanny Thompson, his wife, about the same age; and John Slavin, who was about 36 years old. Thompson and his wife were Protestants; Slavin, we learn, was a Roman Catholic. The latter had been working on the railroad, was a boarder in the house, and had been sick for some time before his murder. Thompson, although living on a rented farm, belonging to John Horton, was reputed to be possessed of considerable wealth, and supposed to have a good deal of money by him, as he was about to purchase a farm of his own. His horse was near where Mr. Hamilton Sherwood's men were working on the railway. On Monday afternoon he delivered some oats to Mr. Sherwood, agreed to get some more ready for him by next day, and while in the act of winnowing these in the barn was murdered by blows from a shovel, when his pockets were rifled of whatever money was in them. There is no doubt that two, or perhaps three, assassins were engaged in the bloody work; and, that, not finding as much money on the person of Thompson as they expected, they went into the dwelling, which is only a few rods distant from the barn, and there murdered Mrs. Thompson with a sharp axe, and beat Slavin's brains out with a shovel; thus leaving no witness alive of their horrid deed. They then proceeded to examine the chests and drawers in the house for money, and finally decamped, leaving all the doors of the dwelling and barn closed. Nothing was known of the murder till next evening, when a person of the name of Whalen, who was bringing some oatmeal to the sick man, Slavin, to make gruel, discovered Mrs Thompson sitting dead in her chair, her face horribly gashed, and her throat cut, and Slavin also lying murdered on a high bunk in the same apartment. It was at first supposed that Thompson himself was the murderer, but on persons going to the stable to see if he had taken away the horses, the animals were found there, and then going to the barn, the corpse of the unfortunate man was soon discovered stiff and cold.

The first intelligence of these murders reached Brockville late on Tuesday evening, and immediate steps were taken by our very efficient and energetic coroner, Dr. Reynolds, to hold an inquest on the bodies on last Wednesday, when a large amount of evidence was taken. The inquest was adjourned till Friday last to permit of the bodies being buried on Thursday, and other necessary measures being taken.

Mr. Benedict of Niagara Falls is in Oswego, to obtain signatures to a petition, requesting the Canadian Government to enlarge the Welland Canal, by making a side cut from Thorold to Niagara, a distance of twelve miles. The Oswego Times says the petition has received the signatures of all the heavy business firms of that city, and will be endorsed by the Council. The cost of the Canal will be $4,000,000.

A SPECIAL NOTICE.

LIFE ASSURANCE AS A SECURITY TO CREDITORS.

In the present day most persons of intelligence are aware of the value of Life Assurance as a provision for the widow and the orphan; many also know that by means of an Endowment Assurance they may contribute to their own comfort, by themselves receiving the amount assured; but comparatively few are aware of the extent to which Life Assurance may be made available as a security to creditors—frequently proving, in fact, the only source to which they can look for the liquidation of their claims, in case of the early death of the debtor. A case which has lately occurred, will serve to illustrate this fact.—We allude to the death of a citizen of Ingersoll, at the early age of twenty four.—Only a few months before his death he had assured his life in the Provident Life Assurance Company of Toronto (one of our native Institutions) for the sum of £300—which sum has just been paid by the Company, and the distribution of which will doubtless cause several persons to become warm advocates of Life Assurance for the rest of their days. 38

WOOD'S HAIR RESTORATIVE.—This wonderful preparation is having an extensive sale in all parts of the Union. It is one of the few patent medicines which are now sold over the country, that are really what their inventors claim for them. Wherever it has had a fair trial the result has been precisely as Wood predicts. It has never failed to turn the white hair back to its natural color, where the directions have been strictly followed, and in numerous cases it has restored the hair upon heads that had been bald for years. It is not pretended that it will make the hair grow in every case, but where it fails there is certainly no remedy. The restoration of the hair has been effected in so many instances where the case seemed utterly hopeless, that it is certainly worth while for all who have lost their hair to try the experiment of using a bottle or two of Wood's Restorative.—Meline Workman

Sold by all respectable Druggists. 28

INVIGORATE THE LIVER.

It is a most undoubted fact that Dr. Sanford's Invigorator or Liver Remedy is one of the greatest discoveries made in medicine the past century. It has been a study of the Dr. during twenty years' practice to find what particular organ, when diseased, caused the greatest number of ills or pains, and his conclusion is, that the liver is the greatest regulator of the system and the most liable to disease, while if kept free from disease is a preventive of Dyspepsia, Jaundice, general debility, &c., while last but far from least we mention consumption; for our experience is that more cases of consumption occur from diseased liver than from all other causes put together.

Taking this to be a correct hypothesis, we have not to find a remedy with which to correct the liver, and we have a cure of nearly all the diseases we are subject to by simply using a preventive. That the Invigorator is such a remedy, is beyond doubt to all who try it, for its victims are such that for all complaints arising from liver derangements, it is an unfailing remedy, while as a family medicine, for all diseases of the stomach or bowels, which are caused in a greater or less degree by liver derangement, it is the safest, surest and most efficacious remedy known.—Princeton Press.

For sale wholesale and retail by

E. W. PALMER,
And by Druggists generally. 120

FOR CLEANSING THE TEETH.—Wet your brush in water, pour on it one or two drops of the "Persian Balm" and apply to the mouth night and morning—the effects will be to neutralize all acids of the mouth, render the gums and soft parts perfectly healthy, the Teeth white as alabaster, and impart to the breath a delicious fragrance. 25

LUXURIENT HAIR.—The Mahommedans say that the angels dwell in long beards—and long hair has always been highly prized, and very justly so, for nothing can prove so injurious, even to the prettiest face, as coarse hair. The time was, when persons were obliged to leave this hair as nature gave it, but of late years Bogle's Hyperion Fluid has come into use, and as an article for the toilet, both for ladies and gentlemen, it is unsurpassed. Sold by all Druggists. 37

HOLLOWAY'S PILLS.—In cases where medical skill has exhausted all its expedients, and the practitioner sorrowfully admits that his repertory contains no drug that will help his patient, this all conquering anti-bilious achieves its most signal triumphs. Where the frame is reduced almost to a skeleton, the appetite gone, and a general atrophy of the system prevails, a course of the Pills will infuse energy into the whole vital organization, and spur into action every torpid and palsied function. Thus nature is enabled to combat the debilitating influence of disease, while the antiseptic properties of the remedy are at work upon the animal fluids, purifying them from all matters antagonistic to health, and imbuing them with nutritious and life-sustaining elements. 37

DR. SANFORD'S LIVER Invigorator.—It has become an established fact that Dr. Sanford's Invigorator will cure Liver Complaint, Jaundice and general debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt.

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that have come under our observation it seemed the means of snatching its victim from the grave. We wish all our readers who need medicine would try one bottle, for it will surely give relief.—True American. 252

THE GREAT ENGLISH REMEDY.

SIR JAMES CLARKE'S CELEBRATED FEMALE PILLS.

PROTECTED BY ROYAL LETTERS PATENT.

Prepared from a Prescription of Sir J. Clarke, M. D., Physician Extraordinary to the Queen.

This invaluable medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

SPECIAL NOTICE.

FRANGIPANNI.—Mr E. W. Palmer advertise the genuine Frangipanni—a most exquisite perfume. Its name has a history which we copy from Notes and Queries:—

"There is in Rome a family bearing the patronymic of Frangipanni, as famous in Italy as the Plantagenets and the Tudors in England. The origin of the name of this family is traced to a certain office which an ancestor filled in the church—that of supplying the holy bread, the wafer in one of the ceremonials. Frangipanni literary means 'broken bread,' one so received from Frangi to break, and Pisma, bread. Hence we have the Frangipanni puddings, which good housewives know are made with broken bread. One Mercutio Frangipanni, who lived in 1493, was a famous botanist and traveller, famous as being one of the Columbus expedition when they visited the West India Islands. The sailors, as they approached Antigua discovered a delicious fragrance in the air. This, Mercutio told them, must be derived from sweet-smelling flowers. On landing they found vast quantities of the Plumeria Alba, in full bloom, rendering the air redolent with rich odor, and from this plant, which the present inhabitants of Antigua call Frangipanni flower is distilled that exquisite fragrance which is now so popular in fashionable circles."

Lightning Rods and Iron Ladders.

THE Subscriber would inform the Citizens of Kingston and surrounding country, that he is prepared to erect

LIGHTNING RODS UPON BUILDINGS,

This ensuing Season, on the most improved and modern plan. Having been engaged in the above business for the last ten years, I feel confident that I can do as good and perfect work in that line as can be done in Canada or elsewhere.

I am also manufacturing and erecting a new kind of

STATIONARY IRON LADDERS,

Upon Buildings, which in point of safety, ordinness and durability, as a House or Building Ladder, cannot be surpassed by any other Ladder now in use.

All orders, by Mail or otherwise, promptly attended to.

GEORGE A. RUMRILL.
Kingston, March 1st, 1858. 53

CERTIFICATE.

This is to certify that G. A. RUMRILL, of the City of Kingston, has lately erected Lightning Rods for us, which we highly approve of, and believe to be the best and most approved Rods now in use, and we believe them to afford a safe protection against the sad effects of Lightning. Judging from the manner in which he executes his work, we are confident that he is well qualified for that business, and would recommend him to the Public in general as worthy of patronage.

R. R. R.

LET not the sick die! for in Radway's R. R. R. Remedies there is new life for all who have faith in them!!

LET THEM BE TRIED!

RADWAY'S METHOD OF CURE IS *SIMPLE, QUICK, SAFE AND EFFECTUAL.*

There is no pain, however torturous or excruciating, but that a simple application of Radway's Ready Relief will instantly stop and quickly allay the most violent spasms, inflammations and congestions. There is no disease, however long it may have become established in the system, whether constitutional, chronic, humorous or of a loathsome character, but Radway's Renovating Resolvent will exterminate and infuse new life, new blood, and a new existence throughout the broken down and emaciated organizations of the body.

If by irregularity or otherwise the organs of the system become deranged and incapable of performing their several functions;—if the Liver, Heart, Bowels, Stomach, Bladder, Kidneys, Skin, Nerves, Blood; etc., are at fault, a dose or two of Radway's Regulators will restore health and regularity to every organ throughout the body. They force each and every organ to the natural performance of its duty, and thus keep up a regular and healthy circulation of the blood.

If a dose of Radway's Regulators were swallowed the moment a person feels unwell, or when any unpleasant symptom appears, there would be no further trouble, for the diseased action would be arrested, and a healthy action re established. On one fact the sick may depend—that disease cannot grow in the system fortified and under the influence of the R. R. R. Remedies.

MALARIA.

In countries where malarious diseases prevail, Fever and Ague, Dysentery, Cholera, Cholera Morbus, Typhoid, Typhus, Pneumonia, and other Malignant Fevers, Radway's Ready Relief, taken as a preventive, will securely protect the inhabitants of an infected district against any serious attacks; and if the infection has already spread, a prompt use of the Ready Relief and Regulators will quickly cure the patient and expel the infectious malady entirely from the system.

CONSTITUTIONAL DISEASES.

Many diseases that afflict humanity are inherited as heirlooms from the diseased bod
