THE BREAD SITUATION

Some time ago a government commission was appointed to enquire into the bread situation. It was claimed that there was too great a spread between the price of wheat and the price of bread. Shortly after this commission was appointed the price of bread took a very material drop. It skidded down suddenly.

The commission has now reported and declares that it cannot discover any "conclusive" evidence of an illicit combine within the meaning of the anti-combine law. At the same time it admits that the situation is such that it would warrant the government in keeping a close watch on it.

The commission thinks, however, that the situation can take care of itself, enumerating several factors which will work to that end, among which they mention the possibility of bread being "baked at home." If all the commission's deductions are as brilliant as this it should resign in favor of someone else. Imagine the housewives of our cities baking bread at home! Why, even in the Ninevehan period public bakeries were in vogue whever there were congested human centres. Only where there were no such facilities possible was bread the product of the home.

The commission gives some startling news in connection with their findings. They tell us that "four big flour milling companies in Canada have acquired control over ninety-six bakeries operating from Nova Scotia to British Columbia, the report states. These ninety-six bakeries now produce over a third of the bread sold in the Dominion, and over 90 per cent. of the bread sold in the localities in which they operate."

EDITORIAL NOTES.

Just as hockey teams which have artificial ice have the advantage over teams without, so it seems that curling rinks with artificial ice have the same advantage. Important Ontario curling trophies have been won in bonspiels by rinks with artificial ice. To overcome this handicap rinks from smaller centres will be obliged to enter bonspiels which are confined to rinks with natural ice.

* * *

The manner in which the bye-elections of yesterday were conducted by some of the active politicians, reminded one of the old-time campaigns when abuse took the place of argument, and whiskey flowed freely. We are not inferring that liquor was used in Hamilton and Greenville, but all other symptoms were in evidenee.—Aylmer Express.

* * *

Thirty-six thousand persons, one in every hundred of the population—in Ontario last year received old age pensions, that number being very greatly in excess of the original estimate of those who would apply for such assistance. The total cost to the taxpayers was $6,572,000, or about $182.50 for each pensioner. Allowances cost the province $2,369,000, and childrens aid protection $288,000.

ROUND THE WORLD BY CAR

Fresh from a world of more than 100,000 miles, packed with romance and adventure and tinged with tragedy, George Jelinski, native of Poland is now in the United States after a globe-encircling trip made in the interests of the Polish Boy Scouts. Mr. Jelinski visited the Buick factories at Flint, Mich., last week, to have his car examined after its long journey and chatted with officials of the company concerning the adventures of his trip. One of his companions on the tour was stricken and died and the other fell ill and returned home, leaving him to finish the greater part of the venture alone. The Buick in which Jelinski made the trip bears the insignia of the 30 automobile clubs he joined in Poland, France, England and other countries. The car is equipped with radio and the rear seat is so constructed that it is easily converted into a bed.

CARD OF THANKS

We desire to thank our friends whose sympathy and assistance were so generously given through our late trying ordeal by the death of our beloved wife and mother.

—Jos. Badgerow and Family.

TENDERS WANTED

Tenedrs for the purchase of buildings standing on the Eugenia Bird Farm of the Ontario Department of Game and Fisheries will be rereived at the Department of Game and Fisheries, Parilament Buildings, Toronto, until 5 o'clock p.m., Thursday, March 5, 1931.

Further conditions and terms of sale may be had from the Mortgagee's solicitors, Skeans & Hooper, 171 Yonge st., Toronto 2, Ontario.

Royal Purple Poultry Specific Keeps Poultry Free from WORMS

Mr. Wm. Jarrott, of Brigden, wrote us a year ago stating that his poultry had become badly infected with worms. We advised him to use 2 lbs. of Royal Purple Poultry Specific in each 100 lbs. of Laying Mash for two weeks and continue throughout the Winter with 1 lb. After using it for three weeks he wrote us stating that in three days he noticed blood streaks in the droppings, and that his egg production had gone up 100%. During the Fall, Winter and Spring months he purchased 600 lbs. of this Poultry Specific. We received a letter from him the latter part of August, stating that he was amazed at the results he obtained, that his poultry were entirely free from worms, and that during August of this year his production was 100% larger than last year.

It will pay every poultryman, no matter what feed he is using, or if he mixes his own, to add one pound of Royal Purple Poultry Specific to each hundred pounds of feed during the whole season the poultry are shut in. While this great tonic destroys the worms, it at the same time tones up the birds, keeping their digestive organs active the same as if they were on range, compelling them to take from 15% to 20% more good from the feed they eat. This is naturally reflected in increased egg production.

Worms in poultry is often mistaken for other diseases. The birds become very thin and show symptoms of diarrhoea. When badly infested they will die.

Put up in 30c. and 60c. packages, $1.75 and $6.00 tins, also 100-lb. air-tight bags—$14.00. For sale by 4,600 dealers in Canada. If your dealer cannot supply you, write direct.

Royal Purple Laying Meal

We can supply you with Royal Purple Laying Meal with or without the Poultry Specific mixed in. Mr. T. L. Matheson, Innerkip, Ontario, tells us that he fed Royal Purple Laying Meal to 600 pullets last year with the Royal Purple Poultry Specific and got an average of 74% production from the middle of December until the middle of March. He also states that he has received the largest production of eggs he has ever had during the twelve months he has been using Royal Purple Laying Meal, and that it keeps his poultry healthy during the entire season. If your dealer cannot supply you we will be pleased to quote you a price, freight paid to your station.

VIMLITE (formerly known as Vitalite) We are sole distributors for this wonderful wire-filled product used for windows in poultry houses, barns, sun-rooms, etc. It lets through the ultra-violet, growth rays from the sun that will not pass through ordinary glass. Write for descriptive circular.

FREE We will be very pleased to send you one of our 32-page books with illustrations in colour, describing the common diseases of Stock and Poultry with particulars of the Royal Purple remedies for each, and details of all the different lines of feed we manufacture. It deals with 186 subjects of vital interest to every farmer and poultryman. 10

A school teacher asked pupils to tell who the world's smartest man is, and give the reasons. One urchin suggested Thomas Edison "because he invented the phonograph and the radio so people could stay up all night and use his electric light bulbs."

Mother and Anne had always been very close to one another. When Anne married and moved to another city, each missed the other greatly.

But one thing more than any other has helped to keep them close — the telephone. Every Friday evening Anne calls her mother by Long Distance . . . after 8.30 p.m. when the low night rates are in effect. During the week they both keep memos of topics they wish to discuss. Then there is no time lost . . . and nothing forgotten.

What if they are 120 miles apart! The telephone connection is made in about a minute — nearly always while Anne holds the line. Their voices are just as clear as on local, and the cost, after 8.30 p.m., is only 40 cents.

Evening rates on "Anyone" (station-to-station) calls begin at 7 p.m. Night rates begin at 8.30 p.m.

THE BELL TELEPHONE COMPANY OF CANADA
