The Imperial Press Conference that is now meeting in England, including delegates from the colonies, has gone along thus far without anything of importance being done. There is an idea germinating in the brain of the uninitiated that this Press Conference was gotten up expressly for the purpose of giving somebody a good time.

Why will not individuals who delight in being on the water learn to swim? The drownings this year of the unfortunate class who cannot swim are particularly numerous. Every man, woman and child in this broad and fruitful country ought to know how to paddle themselves to land when either on or in the water. The art of swimming in this land of lakes and rivers ought to be made compulsory.

The Department of Public Works, Ottawa, has published a comprehensive report on the proposed Georgian Bay ship canal, embracing a volume of 601 pages of letter press and maps, and accompanied by a list of 23 plates, also a portfolio of 24 very fine photo engravings of interesting portions of the proposed route. This work cost a large sum of money and occupied three years in its compiling. To put the result briefly before our readers we might say that the proposed waterway wouldbe 440 miles in length and the estimated cost of construction is one hundred million dollars. It would have a uniform depth of 22 feet and a bottom width of 300 feet. The estimated cost of maintenance after construction is put [illegible] 000 per annum! With these [illegible] and con-

Sold Inferior Seed

Creemore was recently visited by Seed inspectors, T. G. Raynor and J. A. Hayes of the Dominion Department of Agricultural, in connection with a case where some seed had been offered for sale with more weed seeds than the law allows to be sold, which is five per thousand. Even what the law allows to be sold is pretty dirty, as it will be seen when figured out to the pound. In the case of red clover it amounts to 1450 per pound. In seeding down an acre with such seeds a farmer would sow 14,500 noxious weeds per acre. A dealer in Creemore who recently engaged in the seed business, was offering some red clover seed which contained eleven per 1000, which, when figured out per pound, would mean 3,190. If ten pounds of such seed were used per acre, it would mean the sowing of no less than 31,900 noxious weed seeds per acre, to say nothing of other weed seeds that are not considered noxious. The dealer referred to pleaded guilty and paid a small fine. The law known as the Seed Control Act seeks to prevent the sale of such seed for seeding purposes in Canada, hence action was taken in the above case.

It may be interesting for many to know that the law applies to a farmer in selling similar seed to his neighbor for seeding purposes. Recently two farmers, one in the vicinity of Newmarket and the other in the vicinity of Brantford, were cited before magistrates, pleaded guilty and were fined. In one case the farmer was selling his clover seed at his barn, and in the other he was offering it on the market. It is believed that in this way co-operation will be obtained on the part of grower, dealer, and seed merchant to handle only the best and purest grades of seeds for seeding purposes, and thus help to hold in check the spread of noxious weed life which is costing the country so much in lessened crops of poorer quality.

If you would have a safe yet certain Cough Remedy in the home, try Dr. Shoop's—at least once. It is thoroughly unlike any other Cough preparation. Its taste will be entirely new to you—unless it is already your favorite Cough Remedy. No opium, Chloroform, or any other stupifying ingredients are used. The tender leaves of a harmless, lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its wonderful curative properties. It is truly a most certain and trustworthy prescription. Sold by all dealers.

Word reaches here that "Tede" McGirr, who is attending a law institute at Valparaiso, Indiana, has passed his first examination with flying colors, taking 98¼ marks out of a possible hundred. There are about 350 students attending [illegible]te and "Tede" is the only [illegible]. That the young [illegible] well in the selves appear to know. It is not known by outsiders why the men, on striking oil immediately pulled up stakes and moved to a new field. Whether it is that oil is not in paying quantities to encourage pumping operations, or that a promising oil field has been discovered the secret is not divulged by the men. Farmers in the neighborhood, however inquisitive, are not made wiser. At a rough estimate the drilling at Mr. Howell's costs between $3000 and $4000. Farmers in Melancthon, Proton and Luther have leased 50,000 acres for 10 years for drilling purposes. The drillers have moved their outfit to Moorefield where they begin operations. —Dundalk Herald.

A little forethought may save you no end of trouble. Anyone who makes it a rule to keep Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand knows it to be a fact. For sale by W. E. Richardson.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend
