Tuesday evening of this week they favored us with another open air concert. The band makes good music.

We acknowledge receipt of a neat piece of printing from the office of the Norwood Register. It is the prize list for East Peterboro Agricultural Society and reflects great credit on the printer, Bro. Keefer—also upon the society that is willing to pay for such high class work. The East Peterboro show, however, is one of the most prosperous in Ontario. We believe it is not unusual for 6000 people to be gathered within its gates.

The Mt. Forest Confederate was born in the year of confederation. Hence its name. It has been seven years under the present management. While the paper has had its ups and downs it has always been a credit to Mt. Forest and is more so than ever to-day under the able management of Bro. Wright, the present proprietor, who gets out a very newsy sheet filled with good local matter and strong editorials.

Saturday last a couple of extraordinary loads went through town, conveying a large Barber waterwheel and fixtures from Meaford, destined for the electric light company at Hornings Mills. The loads weighed over three tons each and the drivers had been from 4 p. m. Thursday until Saturday at noon making the 25 miles from Meaford here. They only made another five miles Saturday afternoon. The machinery attracted considerable attention while here as a wheel of the Barber variety was a curiosity to most of those who viewed it.

Squire Stewart and Mr. Henry Hurd of Kimberley, who have been up at Elk Lake and Gow Ganda for some weeks, returned home last week. They do not say so, but we fancy the mosquitoes and black flies had something to do with their early return. We understand they have secured a mining claim up there but in a location where the government will not allow development work at present. For this they are thankful, which seems to be an anomaly, but it means the claim is theirs sure until such time as the government allows them to proceed.

Ex. students of the Owen Sound Collegiate throughout this country and elsewhere will hear with extreme sorrow of the accidental death of Franklin, the 16-year-old son and only child of Mr. and Mrs. J. H. Packham. On Friday last the youth was amusing himself in the back yard of his home with a small rifle. He came into the house and putting his hand to his head said, "Mother, I have hurt myself again." He immediately fell to the floor unconscious. Doctors were called who located the bullet at the base of the brain. The lad did not again recover consciousness until his death at 6 p. m. Mr. Packham is second teacher in the collegiate and Mrs. Packham is well known for her work in church matters, more particularly through the Woman's Missionary society, for which she is district organizer. The affair will be a sad blow to these devoted parents and more than the usual amount of sympathy is extended them. It will never be known how the terrible accident occurred.

Barn Burned

Messrs. T. & J. Watson's fine frame barn down at Saugeen Junction was burned to the ground early Saturday morning. The fire started between two and three o'clock, and is supposed to have been the work of an incendiary. One horse, a valuable cow and 200 bushels of oats were consumed with the building. There was an insurance of $1000 on the barn, $500 on stock and $500 on contents. It is only about a year since the Messrs. Watson had another frame barn burned on a farm near by, also owned by them.

Successful Pupil.

Miss Celia Van Dusen of Flesherton recently passed the special test examination for proficiency in Shorthand and Typewriting, held in the offices of the United Typewriter Co., Toronto, and on their recommendation secured a position at once with the well known firm of Gordon, MacKay & Co. of that city. Miss Van Dusen received her training at the Collingwood Business College. Miss Jean Duncan, another Flesherton young lady, is at present attending the above institution.

Drowned at Hanover.

A drowning accident happened at Honover Monday evening when the Saugeen River claimed for its victim Miss Alice Wright. After tea Miss Wright in company with another young lady and two young men, went to bathe in the Saugeen. The party went half a mile down the river in a canoe and then went into the water. It appears Miss Wright was attempting to swim across, but got tired. One of the young men went to her rescue, and he would have also drowned had not the other young man resuced him in the canoe, but not before they had lost hold of their companion. Miss Wright was a graduate nurse from a Kenora, Ontario, hospital. She was engaged to be married to a young doctor, who is in England at present. She was a popular young lady. Her father, Mr. Wm. Wright, has been in the grocery business here for many years. The body was recovered about ten o'clock the same night in very deep water.

A Barnardo Boy Dead

Harry Jones, a Barnardo boy, died at the home of Mr. Richard Watters, near Clarksburg, last week, and the remains were brought up and interred in the Durham road cemetery. The lad's father was an engineer, whom he barely remembered. His mother died when he was four years of age and he was taken in charge by the Home authorities. He was brought to Canada at ten years of age and found a comfortable home with Mr. Watters, removing with that gentleman to Collingwood township in March of last year. On June 14 he took ill, the immediate cause being exposure to cold, but it was found that the bone back of the ear was diseased or decaying and that the trouble had existed for seven years or longer. After 11 days of great suffering he died Friday evening, June 25, and was buried near Priceville, the former home of the Watters family. According to his own story, when living on a dairy farm England, a man slapped him over the ear and knocked him down. The reason for the cruel treatment was that the boy fell and spilled some milk. It is supposed that this may have originated the cause of his death.

On Friday, while a barn was being raised with block and tackle on the farm of Mr. Arch McLean, on the 11th of West Luther, an accident occurred which had serious and painful consequences which might easily have been more serious. A chain that bore the weight of a bent broke at a point where it had a kink in it, and the bent dropped suddenly into its place. A girt, on which Mr. Wm. W. Duncan was standing, was displaced by the jolt and Mr. Duncan was thrown to the ground, his arm being broken. The heavy piece of timber fell on the foot of Mr. David Ferguson, his toes being so badly crushed that he was taken to the Mt. Forest hospital and is doing well.

Tell some deserving Rheumatic sufferer that there is yet one simple way to certain relief. Get Dr. Shoop's book on Rheumatism and a free trial test. Surprise some disheartened sufferer by first getting for him the book from Dr. Shoop, Racine, Wis.

In sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a Stomach nerve, or it may have given strength and support to the Heart or Kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the Stomach nor to temporarily stimulate the Heart or Kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell. Try it once, and see! Sold by all dealers.

Stops Hair Falling

Ayer's Hair Vigor, new improved formula, will certainly stop falling of the hair. Indeed, we believe it will always do this unless there is some disturbance of the general health. Then, a constitutional medicine may be necessary. Consult your physician about this.

Does not change the color of the hair.

Ayer's — Formula with each bottle. Show it to your doctor. Ask him about it, then do as he say

The reason why Ayer's Hair Vigor stops falling hair is because it first destroys the germs which cause this trouble. After this is done, nature soon brings about a full recovery, restoring the hair and scalp to a perfectly healthy condition.
