An accident happened one day last week which might have proved fatal. Susanna, the little daughter of Geo. Her father, who was near, hastened to the spot, and had to raise some portions of the scales from her body. However, she escaped with only a slight bruise on her arm.

Mrs. Calder got quite a jolt on the train at Walkerton station on Monday evening. Before leaving, the train did some shunting to take on another coach or two, and in doing so bumped into the car with considerable force, throwing Mrs. Calder violently forward, striking her head against the arm of one of the seats, causing a considerable gash, and injuring her shoulder as she fell forward from the arm of the seat on which she was sitting in the crowded car. The sudden impact threw a couple of men against her, which intensified the fall, and made matters worse than they, perhaps, otherwise would have been.

On Thursday night last, when the Presbyterian church choir was returning from a garden party at the home of Mr. Putherbough, they discovered a frame barn belonging to Mr. Frank Caton to be on fire. It was soon learned that an attempt to save the building would be fruitless, but the house was dangerously close, and the ladies and gentlemen went to work at once to remove the contents of the dwelling and to carry water to protect it. All worked like trojans and were quite successful in their efforts. It was wearing well on to morning when the feasters and fire fighters reached their homes. We are indebted to an eye-witness to the effect that the ladies were quite as energetic in their efforts to save property as any of the men present. Some, in fact, overdid themselves, and felt the effects for a day or so after. Work of this kind deserves commendation and we honor the woman or young lady who can roll up her sleeves and wade into any kind of work when duty demands it. The loss, we understand, was about a thousand dollars and and the insurance $100. As the shed and house were badly scorched, the tenant, Mr. Kunsenhauser, may thank the Durham Presbyterian choir for getting off as safely as he did. The cause of the fire is not known.—Chronicle.

A failing tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The stomach also has its hidden, or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or failing Stomach, Heart or Kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by all dealers.

Singhampton

The Singhampton branch of the Women's Institute held their July meeting at Maolehurst, the home of Mr. and Mrs. George Bristow, on the 12th line, Osprey, when forty-three were present. The subjects for the afternoon were Canning and Preserving, by Mrs. A. McGirr, and many good recipes were exchanged. A very interesting and instructive question drawer was conducted by Mrs. James Smith. The subject, Care and Culture of Small Fruits, was ably dealt with by Mrs. George Bristow, who pointed out the merits of the different varieties experimented on at the experimental farms at Ottawa and Guelph. She told us the varieties that were best suited to our climate, etc. After the meeting all were conducted through the garden which was a model of neatness. Rows and rows of nicely kept small fruits of all kinds were exhibited. Mrs. Bristow explained the best method of propagation, trimming, pruning, mulching and training of each variety. Seven new members were enrolled. They are Mrs. McLean, Mrs. C. Sykes, Mrs. T. Freethy, Mrs. E. Cameron, Mrs. J. Bowins, Mrs. M. McLean and Mrs. J. Dyre. About 5 o'clock Mr. W. H. A serious fire occurred at Maple Valley on Monday forenoon, which destroyed W. D. Taylor's large pump factory and G. B. Moore's stable with contents of both. Nobody knows how the fire originated though it is presumed that a spark from the forge in the factory dropped through the floor to the hay in Moore's stable underneath. Taylor's loss will be $2000 with no insurance, Moore lost a ton of binding twine, a lot of hay and oats, harness, etc., on which he had an insurance of $200.—Creemore Star.
