THE CRAZE FOR SPEED

The British must look to their laurels in the matter of railway speed. Hitherto, it has been understood that the fast train record was held by the London-Edinburgh Scottish express, but now the French claim that the Paris-Bordeaux express has made the 365 miles at an average speed of 62½ miles per hour, slightly faster than the British fastest train. After all, however what necessity is there for all this wish to beat speed records on land, sea and air. We in Canada have some pretty speed-trains on each of our two great transcontinental railway, but our railway bosses will do well to be moderate in their speed competitions and continue to put the emphasis on safety. For that matter, there seems no good excuse for our air men careering over land and sea at the crazy rates that some people, who should know better, are ready to endorse, to pay for out of the public purse. Outside those who live in our remote regions, we see no good reason for encouraging special airplaning between points that can now be reached easily by our express trains and steamships. The people are not in such terrible haste to have themselves, their goods and chattels, and letters moved, as to require expensive air carriage and incidental risk of human life. "Canny" would be a warranted injunctioin here!

STEPS TO HAPPINESS

We take very kindly to the declaration of the late famous Professor Blackie of Edinburgh University, who adduces these as "steps to happiness":

1. Accept your limitations.
2. Seize your opportuinty.
3. Enjoy the good of the hour.
4. Improve the bad, and if you can't, let it drop.

And to these may we add a 5th:

Let no day pass that opportunity for you to do at least one kindly act for a fellow mortal.

EDITORIAL NOTES

Though kept out of the present Parliament our friend, Tommy Church and Toronto's much-elected ex-mayor, manages to keep in the oratorical limelight. He talks to the point quite often, too.

* * *

Editor Curran of the Canadian Soo reports the capture near his home of a white wolf. That is not much of a "find." A friend of ours, returning from a Lodge meeting recently, reports having seen a purple rabbit.

* * *

It is hoped that the Flesherton branch of the Women's Institute will be able to announce the appointment of a President at the next meeting of the society. At the election of officers on Wednesday last there was a dearth of candidates for the chief office. During past years the W. I. has filled a prominent place in the village activities and it is hoped that it will again function with increased activity.

* * *

The Owen Sound Sun Times declares that there is a suggestion on foot to have another agricultural representative appointed to Grey County. We feel sure that the ratepayers will not take kindly to this proposal. It would add more to the burden of taxation, already heavy enough as it is. Nor is such a movement wise or necessary. The present incumbent can do all the work necessary. In fact the work does not occupy his whole time. When such a proposal comes to a vote in the County Council it would be well to have the yeas and nays recorded so that tab can be kept on all those who vote for the scheme.

PROTON STATION

Mr. Herbert Corbett, Peel of Artemesia, underwent an operation on Saturday morning in Owen Sound hospital. According to latest reports he is doing as well as can be expected.

Mr. Leslie, our student minister, put a bed a very interesting and appropriate Mother's Day sermon on Sunday last.

Mr. and Mrs. Jas. Hemphill and family have moved into Mr. James Dever's house, recently vacated by Mr. and Mrs. Irwin.

Mr. and Mrs. Duncan McNichol and daughter, Helen, and Mr. Lloyd Lyons spent Sunday with their mother, Mrs. C. Lyons.

The Misses Acheson were home for Mother's Day.

Mr. Arnold Hergott of Toronto was a week end guest at his home here.

Mr. and Mrs. Still and family spent Sunday at Mt. Forest with Mrs. Still's mother, Mrs. Brown, and brought her home with them for a visit.

Mr. and Mrs. Thos. Wyvill spent part of last week with their daughter at her summer cottage at Meaford.

Mr. and Mrs. Vause visited their brother on the Old Durham Road.

Mr. and Mrs. Elwood Moore and Mrs. Wauchope, Mr. and Mrs. Lloyd Wauchope and baby and Mr. Stanley Lyons and lady friend were visitors at Chesley.

Mr. and Mrs. Crawford of Allenford and Miss Ina Bradley, Berkeley, Mr. and Mrs. Geo. Fenton and Mr. and Mrs. Clarence Fenton of Holstein were the guests of Dever brothers on Sunday.

ATTENDED FUNERAL

Mr. and Mrs. Andrew Gilchrist, R. Bentham, Mr. and Mrs. T. Bentham, Mrs. Wilcock, Mrs. G. Cairns and Mr. Thos. Gilchrist attenend the funeral of the late Mrs. Fred Weir, which took place at Collingwood Thursday afternoon last.

SUNSHINE AND BABIES

Out of doors, in the fresh air and sunshine, is the place where the baby should spend a great part of his life. In order that he may grow and have a strong, healthy body, the baby needs fresh air and sunshine just as much as he needs food.

Not only is sunshine pleasant, but it is actually health giving, and the rays of the sun acting upon the body are health forces which prevent rickets.

The baby should have his sun-baths regularly each day. There is a right way to take sun-baths and this way must be followed or harm will result. The same attention should be paid to this part of the baby's life as to his feeding and bathing.

Sun-baths may be taken in front of the open window. It is essential that the window be open, as ordinary window-glass keeps out certain rays which are desirable. As the weather grows warmer, the sun baths are taken out of doors.

On the first day, the hands and feet are exposed to the sunshine for five minutes and no longer. Next day, the time is ten minutes, and so five minutes are added each day until the bath is made to last one hour.

As the time is lengthened, the surface of the body exposed to the sun is also increased. On the second day, the legs below the knees are exposed, then the whole leg; after that the abdomen and, lastly, the chest, front and back.

On the day each part is exposed, the time of exposure of that part should be limited to five minutes, and the exposure of each part increased by five minutes a day until the whole body is given an hour's sun-bath daily.

There must be no hurry with regard to the area exposed or the time of exposure as this causes trouble. The gradual increase is the only safe way.

The sun-bath should not come just before or after a meal. When the weather is really hot, the sun-bath should be given before eleven in the morning or after three in the afternoon as it is not desirable to expose the baby to the mid-day sun during the excessive heat.

Not only do the sun's rays bring health to the baby, but the exposure of the body to the air - the air bath - is also of benefit to the child.

The ancients worshipped the sun as a god. We today should recognize the sun as a giver of health.

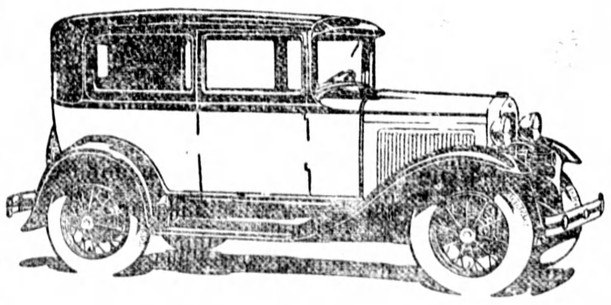
More than 73,000 miles in a new Ford

THE substantial worth of the new Ford is reflected in its good performance, economy and reliability. Its stamina and endurance are particularly apparent in sections where bad roads and severe weather put a heavy extra burden on the automobile.

In less than a year a new Ford Tudor Sedan was driven more than 73,000 miles over a difficult route. The operating cost per mile was very low and practically the only expense for repairs was for new piston rings and a new bearing for the generator.

The car carried an average load of 1200 pounds of mail and was driven 250 miles daily. "The Ford has never failed to go when I was ready," writes one of the three mail carriers operating the car. "The starter did the trick last winter even at 34 degrees below zero. The gas runs about 24 miles per gallon. At times I pull a trailer whenever I have a bulky load."

Many other Ford owners report the same satisfactory performance. Every part has been made to endure—to serve you faithfully and well for many thousands of miles.



THE NEW FORD TUDOR SEDAN

$585 *F.O.B. East Windsor, Ontario, plus taxes. Bumpers and spare tire extra at small cost. You can buy a Ford for a small down payment, on convenient, economical terms.*
