A failing tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The stomach also has its hidden, or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or failing Stomach, Heart or Kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative ever for a few days soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by all dealers.

Robinson---McKee.

A very pretty and quiet wedding was solemnized at the home of Mr. and Mrs. W. T. McKee, 99 Garden Ave., Toronto, on Wed., Aug 11th, when their youngest daughter, Tressy Dot, was united in the holy bonds of matrimony to Mr. Sidney Robinson, Toronto. The Rev. Mr. Morrow of St. Mark's Presbyterian church tied the silken knot which made two hearts as one, in the presence of immediate friends only. Promptly at eight o'clock p. m. to the beautiful strains of the wedding march, played by Mr. Frank Robinson, brother of the groom, the bridal party entered the parlor. The bride, who was given away by her father, was beautifully and becomingly attired in white organdie, trimmed with ace and insertion and silk sash, and wore a wreath of orange blossoms. She was attended by Miss E. Ellis of Toronto, dressed in pink organdie with lace and insertion. The groom was ably supported by Mr. J. Blakely, also of the city. After the ceremony the guests were entertained by a dainty breakfast. The bride's popularity was evidenced by the useful presents she received. After a very enjoyable evening spent in games and other amusements the happy couple left for their new home, 14 Bellwoods Ave., amid showers of rice and confetti. A wide circle of friends and neighbors join in wishing Mr. and Mrs. Robinson a long, happy and prosperous journey through life.

Deal at Home.

The Advance has been hunting around to find some illustrations to back home an argument against the mail order business, and we found one in the furniture line. Mr. Bunt sold a roll-top desk, quartered oak top, 30x50 inches, the price being $32. The same desk at Eaton's or Simpson's would cost $36, not to mention freight or express. The moral is discernible. If any of our readers are asked for an order for printing by an outside concern we might be able to give another instance, that would point the moral.

Challenge.

We the members of the Eugenia football club do hereby challenge the Markdale football club to home and home games at any date in the near future.

Signed on behalf of the team.

The rat-catching record has been smashed to smithereens. On Monday night Mr. Thomas Vogan set a large cage trap in his barn, and on Tuesday morning no less than fourteen rodents had visited its cosy quarters and decided to spend therein the remainder of their days. Mr. Vogan claims the championship of the Bruce Peninsula and is ready to defend his title against all comers.—Wiarton Canadian.

High School Opened

The Initial Day a Precursor of a Successful Term.

The High school opened on Monday with an attendance of 24. divided as follows: form 1, 3; form 2, 20; form 3, 1, and while this is encouraging, yet it will be added to in a few weeks. A number of scholars being detained at home to assist in the harvest.

The Advance called on Mr. Marcellus on Monday and was shown the equipment of the school by that gentleman. The said equipment consists of a bewildering array (to the lay mind, at least) of glass beakers, bell-jars, test tubes and kindred objects. There is an electric motor, telegraph outfit, electric bells, dry batteries, induction coil, and altogether a good electrical equipment. Included also is a good set of plaster casts as drawing models for the art class. An interssting instrument is the tellurian, designed for teaching mathematical geography—the seasons, night and day and eclipses, etc. Mr. Marcellus states that when they get the tables installed he will have a good equipment and if the scholars do their part there is nothing to stand in the way of success. He is pleased with the action of the trustees in supplying the equipment, and reference library, which contains over 130 volumes, all excellent books, designed to lend every aid to the students. There are also several gifts from the Department such as "Farm Weeds," etc.

The trustees are highly enthusiastic over the prospects for the school, and are determined to make it the success it deserves. There are 4 sections in the plan and the trustees held a conclave last week, and gave Mr. Marcellus permission to continue work for another year with the old Geometery, Latin, Arithmetic and Book Keeping text books as the new ones are not on sale yet. Next year it will only be necessary to purchase new Latin and Arithmetic text books, the other courses not requiring text books.

The Toronto Newsboys Union will import American newspapers to do away with the agents' profits.

Constable Hahner, of Delanco, N. J., in the absence of any local police station, handcuffs tramps and chains them over night to a large tree. The mosquitoes are so thick that no hobo subjected to the treatment ever returns.

A official of the Canadian Emigration Society states that he has had enquiries recently from many men whose incomes reach £4000 to £5000 a year, and that men of considerable financial standing have gone out, particularly to British Columbia and Ontario, to farm themselves or to establish a livelihood for their sons.

Chas. Ferguson, of White's drug store, saw a large meteor fall on Monday evenevening about nine o'clock. It appeared to be about two feet in diameter and left a trail of smoke in its downward flight. Mr. Ferguson thinks it struck the ground somewhere between Shelburne and back line and not far north of the town line. —Shelburne Free Press.

The papers make mention of a gentleman in New Jersey who undertook the task of manufacturing eggs. He is something of a chemist and, having discovered by analysis the various elements which compose an egg, he went to the drug-store, bought those ingredients, and went home to perform the experiment which he expected would astonish the civilized world. He made a hot fire, put his chemicals in a vessel, and soon they began to boil. He took a blowpipe, and concluded to fluff off a dozen fresh eggs as samples for the scientists. He had scarcely placed the end of his blowpipe in the kettle when there was an awful explosion, and when the inventor had picked himself out of the debris, he looked at his wife, who was attracted from the garden by the noise, and said: "I guess I used the wrong sort of vessel." "Yes," she said, "you did." "What do you think it should have been?" he inquired. "It's out there in the yard," she replied; "It's a hen,"

The Bruce Herald says of the recent examination results: "From Wiarton two out of four passed, from Chesley, 6 out of 24 and from Walkerton 9 out of 19."

More matches are used in the United Kingdom than in any other one country in the world. It has been estimated that English people use an average of eight matches each person per day.

The recent successful aquatic meet at St. Catharines has set the Owen Sound Times longing for the good old times to return again when water sports were popular in Owen Sound, and when various interesting rowing and sailing races were pulled off. Today the only pleasure craft visible there are motor boats, and even they neglect competitions.

It is whispered that the C. P. R. had a man on taking a census of the traffic across the tracks at the Main street crossing Tuesday to see if the traffic was heavy enough to demand gates according to the requirements of the Railway Commission. They certainly picked on a good quiet day of the week for taking the census. —Shelburne Economist.

James and Albert Johnston, of Mulmur who have been confined in the County gaol here for some months as persons of unsound mind, were set at liberty Tuesday morning. Their father, James Johnston, an ex-school teacher, arrived in town Monday evening and left for home with the two young men shortly after they were set free.—Orangeville Banner.

The Court House at Washington, Mason county, in which "Unce Tob," of "Uncle Tom's Cabin" fame, was sold, was struck by lightning and destroyed. The building was erected in 1794. It was the sale of an aged negro at this place that gave Harriet Beecher Stowe the basis for her story.

For the first time since the Indian list went into force in London, Ont., the authorities have a whole family prohibited from going near hotels. The family includes Emanuel Kelly, the father; Mary G. Kelly, the mother; Miss Julia, a daughter; and Thomas and Walter Kelly, sons. Except for their weakness for liquor, they are good citizens.

"Bungus" Brown, a youth residing on Berford street north, had his chin gnawed by a hungry rat Tuesday night, and is now laid up for repairs. Of course "Bungus" must have been sleeping as it is a well-known fact his talking apparatus is never still long enough during his wakeful moments to give a rat half a chance.—Wiarton Canadian.
