Laurie Smith, Isaac Smith's five year old son, was knocked down and tramped on by a horse on Wednesday. The little chap was standing near the animal when a falling board frightened it, resulting in the injuries mentioned. A year ago he broke his leg by falling out of the mow in the barn.

The acceptance of the Markdale foot-ball challenge to the Kimberley team resulted in a complete back-down by the former, when they withdrew the challenge.

J. A. Halbert of Harkaway returned to old-time methods, in harvesting a 25 acre field of wheat that was too rough to run a binder over, by having a bee and cradling the field with the aid of a number of neighbors.

The largest consignment of lumber ever leaving Flesherton Station at one continued shipment was during the last three weeks from Messrs Collinson's mill at Ceylon, they having sent out forty-one car loads, shipped to Massey Harris Co. of Toronto.

Mr. Hawthorne, formerly of Durham, is the new leader of the Collingwood band. It will be remembered that Mr. Hawthorne got mixed up with the authorities at the Niagara military camp a year ago, and as a result gave up the leaders baton for the Durham musicians.

Jimmie Whyte, whose arm was broken by being throw from a horse a month ago, returned from the Sick Children's Hospital on Saturday, his father, Mr. Dan. Whyte, bringing him home. The arm is doing nicely. Mr. Whyte returned to the city on Tuesday.

On Saturday the Priceville voters will decide whether they want cement sidewalks. As far as we are aware there is no doubt but that the by-law will pass and that growing village will take another long jump forward.

The residence and grounds occupied by Herb Smith have been improved this summer. The lawn has been reduced to the level of the sidewalk, a cement walk and steps laid, and a neat verandah erected. The lot is faced with a neat wire fence.

On Sunday evening Rev. Wellwood preached to the boys and girls on "ships" He departed from the beaten trail and introduced a few homely illustrations, with, we believe, the result of a strengthened impression on the minds of the boys and girls.

Solicitor Kelly, acting for Loretto Abbey, paid $50,000 to C. W. Chadwick for twenty acres on the north side of Eglinton avenue. The price paid for the property marks an event in the history of North Toronto real estate. Only four years ago sixty acres were bought at $300 an acre.

Lachlan McDougall of Durham road lost a cow and two calves last Thursday night. They had wandered onto the C. P. R. track and were lying down when the night express came along. The cattle were struck and killed, but without damaging the train, which was stopped a short distance past the cattle.

The Markdale almost team came to town in the pouring rain on Monday for a game of baseball—or water polo, or something. At the end of the sixth innings the near team from [that thriving burg to our north were behind 5-3, but in the seventh innings (played after dusk) they turned the score to 9-5 in their favor. The first five innings was exceedingly good ball—for Flesherton, no runs being scored by the visitors, but the game was lost in the darkness. No use crying.

The editor of this paper returned on Monday from a two-weeks' outing, but has not yet taken up the quill. If he can be persuaded to forget what was said in these columns two weeks ago about fish stories he may have something to say next week. Suffice to say, his complexion has lost its lily whiteness and his appetite is nearly as voracious as a pike—and that is saying a good deal.

The popularity of The Advance was testified to last week by a Maxwell subscriber, who we trust will pardon us for the reference. We received a request for another copy, the subscriber saying "Mine was lent to a neighbor before we were done with it, and she gave it to a Dundalk man."

Geo. Stuart was in town last week, but left yesterday (Wednesday) to return to Gowganda. In coming out George had to tramp 32 miles to Elk Lake, from where he took the boat to Latchford. We have heard similar tales of this country, and some day Gowganda will be enjoying railway facilities, and possibly "airway" facilities also, when all those weary tramps will be but as disturbing dreams.

The Methodist Ladies' Aid held an enjoyable lawn party on the parsonage grounds on Friday last. The event was an enjoyable one, and was participated in by a fair crowd, the receipts being about $22.00. A high-class program of vocal and instrumental music was given. We might especially mention the bass solo by Mr. Ames. This gentleman has a well trained voice, and rendered a very difficult selection to the great enjoyment of all.

We shiver for our reputation, but still when anything unusul or astounding comes under our notice we are in duty bound to pass it on. On Monday John Weber handed us a stalk of corn 11 feet, 3 inches in length. The corn is of Early Compton variety and was grown by W. A. Weber and planted about the 1st of June. We were also handed some oats 4 feet, 10 inches in length grown by Adam Hyslop. This would not indicate the poor crop of oats that we have heard about.

Dr. Murray and party returned on Saturday last from a most enjoyable boating trip through the islands of the Georgian Bay. The Shirley M. behaved magnificently and proved herself a very sea-worthy craft, The trip was made from Thornbury via Collingwood, across to the Christian islands, thence through the labyrinth of islands as far north as Parry Sound, where the return trip commenced. The party had no exciting experiences on their trip and are all enthusiastic over the grand scenery of lake, island and shore line. Brown as berries scarcely describes the complexions of the returned sailors—it was a fine butternut hue.

A crying need of Flesherton to-day is that of a resident magistrate. The mere fact of his presence would act as a deterrent to poker-playing, cigarette smoking and rowdyism. Since the death of the late A. S. VanDusen our village has been in a wide-open state as far as concerns the restraining presence of a magistrate. The evils mentioned above have been allowed to gain undoubted sway with the young boys, and no questions asked. If someone could be induced to accept the slightly unpopular duties of the magistrate it would not require many convictions to stop the gambling and poker-playing, and cigarette smoking. The Advance has received a number of complaints recently as to the prevalence of poker playing among the boys from fifteen up. It is said by eye witnesses that some of them get so low with their gambling that they have to stake postage stamps and other articles of a cash value. This fact alone should be of suffcient importance to cause its stoppage, but when the boys admit wrong doing by going back to the bush secretely to indulge, then no question as to right or wrong can be raised. For a time their gambling was concealed, but with the growing practise came the difficulty of concealment, and now it is a comparatively easy matter to detect them, and there is good material for conviction when the opportunity comes. Is there no person in Flesherton with the proper qualifications that will accept the onerous magistracy and help wipe out this disgrace?

Street mail delivery is to be inaugurated by the Postoffice Department in Owen Sound and the town has been asked to have the streets named and houses numbered in order to facilitate this work. A special committee of the Council has decided to recommend that the thoroughfares running north and south be named avenues, and numbered as such, and those running across town be numbered streets. A special meeting of the council will be held to-morrow night to deal with the question. Though the proposed change is regarded as a radical move, it is endorsed as the best possible solution of a problem which is particularly complex in Owen Sound.

A report just issued by the emigration authorities in Germany shows that 'spontaneous emigration' to the United States has ceased. Reports of German steam ship companies show that only 174,000 persons have embarked at Hamburg and Bremen since the first of the year. This is greatly in excess of the figures for the first six months of 1908, when the financial crisis caused a sharp decline in emigration, but it is nearly 100,000 below the record for the same period of 1907.

Nothing in the way of a cough is quite so annoying as a tickling, teasing, wheezing, bronchial Cough. The quickest relief comes perhaps from a prescription known to Druggists everywhere as Dr. Shoop's Cough Remedy. And besides, it is so thoroughly harmless that mothers give it with perfect safety even to the youngest babes. The tender leaves of a simple mountain shrub, give to Dr. Shoop's Cough Remedy its remarkable curative effect. It is truly a most certain and trustworthy prescription. Sold by all dealers.
