With The Leaguers To The Pacific

Mrs. W. A. Armstrong, who returned last week from a visit to the Pacific coast, gave The Advance a short description of her trip, from which we judge she had a most enjoyable time during the nine weeks of her absence. She made one of a party of 100 who took in the Epworth League excursion to Seattle. The party took G. T. R. to Chicago, then went by way of Omaha to Colorado Springs. Here they took a side trip to the picturesque and beautiful little town of Manitou at the foot of Pikes Peak. The town is all built of red stone and is noted for its mineral springs. An ascent of the Peak was made by the inclined railway and much enjoyed. At Denver the party was driven around the city in autos. They considered this city the most beautiful they saw on the journey. Denver is built on rocks and everything in soil and vegetation is of an artificial nature yet of these things there is no dearth. At Salt Lake City they stayed six hours and visited the Mormon tabernacle where special service was held for the party. The beautiful Mormon temple building is only opened once a year to the public, but an underground passage admits wedding and christening parties when necessary. The Mormons have now practically lost control of the city, since which it has been going ahead fast. From Salt Lake the route led to Ogden, Utah, where a short stay was made and a visit paid to a Presbyterian church for service. While crossing the great Utah desert a sand storm was encountered that was an unpleasant experience. At Portland a civic reception greeted the party and the first acquaintance of Pacific coast roses was made. The party was delighted with great bunches of huge roses such as they had never before seen. Here the Columbia river was crossed and the next stop was the end of the journey —Seattle.

Mrs. Armstrong went on to Everett, on Puget Sound, 30 miles from Seattle, where a sister resides. Everett is a city of smokestacks—sawmill smokestacks—where the huge fir trees of the coast are cut up into lumber, bridge timber, etc. Mrs. A. visited the mills and saw logs handled of 7 and 8 feet in diameter. In Ontario the mills cut up logs of as many inches in diameter.

The Seattle exposition was somewhat of a disappointment, not being on quite so large a scale as anticipated, yet it was very beautiful, and Mrs. A. saw much to admire, the chief of which was our own Canadian exhibit. She is loyal to the core and was much delighted with the splendid exhibit of grain, fruit and minerals from Canada, which, she says, did us great honor. Canadian apples have better flavor than any apples in the world, and the mineral exhibit was a revelation. Perhaps the most charming of the Canadian exhibits, however, was a colony of beavers hard at work, which attracted much attention.

An experience among the most interesting was a visit to an island Indian reserve, where the redskins held a clam bake in honor of their white guests. A large hole was dug in the ground and filled with stones. Then a big fire was built over these and after it had died down several bags of clams were poured over the hot stones and a wet blanket spread over these. When these were done the party feasted on what everybody considered a great delicacy.

Several water and numberless auto trips contributed to make up a very pleasant visit.

The return journey was made by Victoria, Vancouver, and Winnipeg.

Forty dollars for trying to kiss a girl. This was the price paid by Patrick Joseph Kelly, of Cataract, a fireman on the C. P. R. The girl he tried to kiss was Miss Lucy Worden of Hespeler.

A failing tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The stomach also has its hidden, or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or failing Stomach, Heart or Kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by all dealers.

The Ladies Aid Society met at the home of Mrs. W. J. Wilson last Tuesday.

Mrs. McKinnon, nee Lizzie Campbell, was presented with a dainty sett of tea dishes. The address was read by Miss Marion Ferguson. Mrs. McKinnon replied in a suitable manner. The address was as follows:

MRS. ARCH. MCKINNON

Dear Friend,—We, the members of Salem church Ladies Aid Society, wish to express our sincere and hearty appreciation of your services in connection with the work of this church and society. We feel the success of our society in no small degree, has been due to your painstaking and interested efforts. Salem church Ladies Aid has become an important factor in the social, intellectual and practical part of our church work, and we realize from its commencement you have been one of the most earnest workers, giving freely of your time and means to make it a success. We ask you therefore to accept this gift as a slight token, although not by any means the measure of our love and esteem and good wishes. We are glad to have you with us again, and trust the new ties into which you have entered may be blessed, also that you and Mr. McKinnon may spend long, happy, and useful lives in the service of our Lord and Master.

Signed in behalf of the society: Mrs. Lawrence, Mrs. Campbell, Marion Ferguson, Ethel Ferguson.
