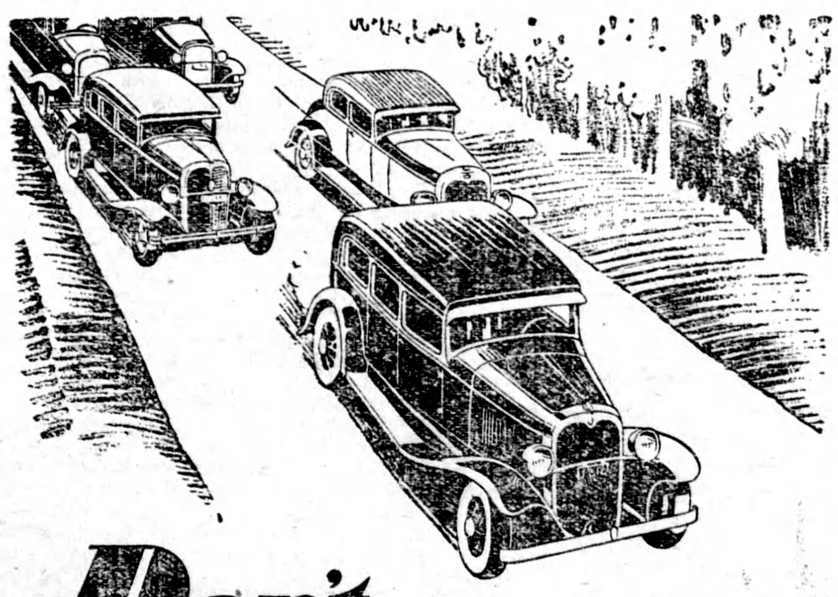
ADVANCE ADS. PAY



Don't be a road hog!

The person who drives in the middle of the road at any speed, but especially the extremely slow driver, offers a silent insult to every other driver on the highway.

But this disregard of every rule of common courtesy is merely incidental.

The real offense of the Road Hog is that he forces others to risk life and limb. He obstructs the vision of those drivers behind him and makes them either drive at his speed or risk a head-on collision in passing him.

Probably no form of law-breaking on the highways causes directly or indirectly so varied a list of accidents as does middle-of-the-road driving.

Every man who drives a car helps to pay for the highways. Every motorist is entitled to use them safely.

Why deprive any man of his right?

Don't be a Road Hog.
