## VICINITY CH PS

Were you properly thankful on Monday?

Born—On Sunday, Oct. 24th, to Mr. and Mrs. Jas. Brodie, a daughter.

Born—At Pilot Mound, Man., on Oct. 13, to Mr. and Mrs. James Bowler, a daughter.

A young lady of 16 asks how long she should wear dresses. We would suggest, until she can get new ones.

The inevitable and ordinary result of cheap holiday railway fares has been experienced again—late mails.

The Durham Chronicle is sighing for more industries. Wait until the snow flies, brother. You can then form a mammoth snow shovel brigade.

About a dozen members of Prince Arthur Lodge, A.F. and A.M., attended the official opening of the new Markdale Masonic lodge on Tuesday evening.

The majority of male "Thanks givers" appear to give thanks for the opportunity to hunt game. As a result large numbers of partr—beg pardon, rabbits, paid the piper.

Guelph has discarded arc lights for street lighting and replaced them with incandescent lights. Flesherton has had its incandescent glow worms up for some years now.

Mr. Reid, a sister of Mr. H. Piper, Ceylon, died at Markdale last week after a very short illness. The funeral took place from Mr. Piper's residence to Flesherton cemetery on Thursday last, Rev. H. E. Wellwood officiating.

Negotiations are on foot, whereby Mr. Lees of Lucknow, who has been assisting John Nahn for some weeks, will take over the latter's carpet weaving trade for the winter. If the deal is consummated he will do business in the old Advance office, on Sydenham street.

Best Bros. have been doing some fast threshing this fall. For instance, they threshed 1525 bushels of grain the other day for Mr. George Johnston in five hours. This was made up of 1300 bushels of oats, 100 bushels of barley and 125 bushels of peas. That was threshing some. The boys expect to finish their season's work by Saturday next.

Gladys, the little daughter of Mrs. Lee, at the Park House, was in trouble last week. A can of Gillett's lye had been left in her reach. The little tot found it and began to investigate, but investigation showed that it didn't taste nice and that it burned. The result of the analysis was that her face and hands were rather severely burned.

Since installing a gasoline engine over a year ago, we have been experiencing many new sensations. Last week one of the staff met with the most peculiar. In cranking the engine to start it the thing kicked, giving him a sprained wrist. He is of opinion that the machine is thirteen mule power and not three horsepower, as was supposed.

Mr. R. Bentham of the suburbs has a turkey hen worth "gobbling." The bird hatched eleven chicks last spring and then began laying again. She stopped for a few days once or twice during the summer, but took up the burden again and is still laying. Mrs. Bentham says the bird must have laid one hundred eggs during the summer up to the present time, but unfortunately she did not count them. This bird evidently belongs to the laying strain—she has the strain, or spasm, anyway.

A head-on collision between the Owen Sound and Teeswater trains one night last week put two C.P.R. engines out of business near Melville Junction. Several people were shaken in the smash but none were seriously injured. The wreck is reported to be due to the carelessness of Conductor Wilson of the Owen Sound train. Some Flesherton people were on the train, but fortunately escaped serious injury along with the rest.

Are we in Flesherton an easy mark? Possibly so, but it is not hard guessing that a visitor last week found us to be anything but easy. A dusky-skinned female, possibly an Armenian, struck town with a neat recommendation for assistance, which stated that the bearer was "a MAN worthy of every assistance," and that "he" had a certain number of brothers and sisters killed by the Turks, and so forth. Why he was parading around in feminine apparel was not explained in the document. We believe the soliciting met with a lukewarm response, so the visitor struck off for greener pastures—or people.

Apropos of an article in The Advance last week, we interviewed a couple of our merchants in town and find that butter done up in pound prints and wrapped is worth more than bulk or roll butter. There is very little butter marketed in this manner, but one merchant will pay 1c per pound more for it, while another would probably pay more if it came in any quantity. The butter, wrapped in paper with the maker's name and address neatly printed thereon, is enhanced in value, and surely those who make good butter will bestir themselves to put it up in this manner and thus form an identifying mark for those who want good butter and are willing to pay for it. The cost of the wrappers is a mere bagatelle, and would not take up much of the profit of the scheme. We would suggest the matter as suitable for and worth discussion at the Women's Institute meetings, and would urge the members of the various surrounding branches to bring the subject up for discussion.

### Card of Thanks.

Robert Heron and family wish to thank their friends and neighbors for the many acts of kindness shown them during their recent bereavement.

Maxwell, Oct. 23, 1909.

### News of the Women's Institutes

The maternal heads of many homes in Flesherton were absent from the supper table on Tuesday evening. Inquiry elicited the fact that the Women's Institute was in session and that the Dundalk branch had been "asked in to tea." The visitors provided an interesting program, and were out about 23 strong. The program consisted of a number of choice musical selections and several instructive papers. Mrs. Noble read a paper on "Thanksgiving," prepared by Miss McGregor, and Mrs. J. R. McIntyre gave a paper on "Care of winter bulbs." The visit of the Dundalk sisters was much appreciated.

### With the Churches

Rev. Henry Berry of Priceville will occupy the Methodist pulpit on Sunday. Rev. Mr. Wellwood is conducting anniversary services for Mr. Berry at Salem church on the Priceville circuit.

The service in the Presbyterian church on Sunday did not materialize, as the clergyman who was to preach missed his train in Hamilton. Mr. Ross, who was to have presided, will, however, be on hand for next Sunday.

Mrs. Will Matheson of Port Dover assisted the Methodist choir on Sunday with two solos. Mrs. Matheson's singing is highly appreciated here. In the evening Mervyn VanZant of Toronto gave an excellent solo. Merv. has grown a very creditable bass voice.

Rev. R. Weber of Salford preached in the Baptist church on Sunday last.

Rev. J. Puttinham of Tetterville will occupy the Baptist pulpit here next Sabbath.

### Bible Society Meeting

The Flesherton branch of the Upper Canada Bible Society held a meeting in the Methodist church Wednesday evening of last week. Rev. Mr. Stobo, representing the society, was the speaker. He gave a most interesting description of the work of the society. It was formed in 1804 and the Bible was then published in 26 languages. To-day it is published in 418, giving the privilege of reading the Scripture to one-third of the human race. Last year there were printed 5,934,811 copies of the Scriptures. Mr. Stobo had been a colporteur in Quebec for 25 years, and gave a decidedly interesting account of his work there. In conclusion he stated that Flesherton had one of the best depositories it had been his pleasure to find in a village of this size, and complimented Mr. Bunt on the care of the books and the amount of husiness transacted.

At an executive meeting Mr. Richard Allen was appointed secretary in place of Rev. L. F. Kipp, who has removed.

### For the Season of Long Evenings

There are no lonely winter evenings in the homes where the Youth's Companion is a weekly visitor, and there need be no idle hours. The variety of the paper's contents appeals to every member of the household, and before one issue is exhausted the next is waiting at the postoffice. During the winter season the Companion prints nearly a hundred complete stories of considerable length, besides the absorbing serials, some 25 articles by men and women of renown, and about twice as many short character and humorous sketches as there are winter nights. Such articles as "Winter Gardening" suggests an interesting occupation which can be carried on in Alaska with snow twenty feet deep, and without the cost of a dollar. It is well worth while to read a paper so carefully and ably edited.

Send your subscription ($2.00) at once so as to receive free all the issues of the Companion for the remaining weeks of 1909, as well as the Companion's "Venetian" Calendar for 1910, lithographed in thirteen colors and gold.

Newmarket Express-Herald: Why some people continue to make sport of our canal is a mystery. There can be no doubt that this is one of the most real canals that has ever been constructed. Of this fact we need no further proof than the incident which is said to have occurred here only a few days ago. Two prominent members of Parliament came up to see our canal, and they had not looked at it more than five minutes before it turned both of them seasick. And yet some people have the audacity to say this isn't a genuine canal.

There is on exhibition in Byers' Bros.' jewelery store window, what is said to be a cormorant, shot at Pike Bay. The bird at all events is a stranger in this part of the country. Cormorants are often times trained to fish for their masters. They are web-footed birds, and in order that they will not be able to eat the fish they succeeded in catching, a band is placed about their neck. The bird is soon trained to bring the fish they capture to their master's boat. This is the first occasion on which a cormorant has made its appearance on the peninsula, according to reports.—Wiarton Canadian.

An Italian in the United States was being tried for murder, and slept while the jury was deliberating on his case. He had to be awakened to receive the death penalty.

# Millinery Openin STILL ON

We opened for the lady visitors to the fair the largest display of the most fashionable headwear ever exhibited here. Under the able charge of Miss M. Brown, who will courteously be pleased to show you her entire display. It will be no trouble to her to try them on. Come in and she will be delighted to meet you, and if possible make a satisfactory sale.

## DRESS GOODS

We show on the centre tables a complete range of up-to-date fall suitings, in all the new shades and goods, as Ashes of Roses, New shade of red Amethyst and other colors, which are being used very strongly this season. We have the reputation of carrying the most up-to-date stock of Dress Goods on the line, and we mean to not only keep up that Standard but raise it to a peer with the best houses in Canada.

## LADIES FALL COATS

The "Roger" Garments are recognized by all, as being the most up-to-date neat coat, made and put up on the market at a moderate price. Military and plain collars are being worn strongly, tight fitting in Brown, Green and Blue. Call and see our complete stock, which will arrive before the fair.

## GENTS' SUITS AND SUITINGS

After some difficulties we were fortunate in securing the right to sell the famous "Darling" clothes, made by the "Andrew Darling Co." of Toronto, who have the best equipped and most practical tailors in the trade. Everything is inspected and are turned out in every way satisfactory and are not the ordinary Ready Mades, but are on a peer to the best high class tailor made goods. Come in and see the styles and quality of the goods, also the making, and it will convince you.

## Gents & Ladies Fur and Fur Lined Coats

Here is where we shine—Now that we are beginning to feel the chilly winds of fall weather, furs are beginning to take a lead. The Stoles and Ruffs are selling fast and the best values are going fast. Also the best furs and fur lined coats are going. Have a look in the window to see four of the nicest coats that ever came into town. They cannot be beaten, and at the lowest possible price. Our motto is "Sell furs reasonable when they are the most needed, not when they are almost a dead stock." We sell on a small margin in order to make a quick sale. Come in and prove thisf or yourself.

## Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend
