MILLINERY

MISS E. P. AMOS is again in charge of the showroom. This season the shapes are somewhat modified as to size. The high turban, the roll at the back, and side turn shapes being much worn. Large wings and sprays are extensively shown, and in colors green and ashes of roses are very popular.

Ladies' Mantles

In Ladies' Mantles we have some beautiful lines ranging in price from $8 to $23.50. This year the styles are semi-fitting, 7/8 length, and much the same as last season's garments. In Misses our prices run from $4 to $8.50; and children's from $2.75 to $5.00.

Dress Goods

In these, stripes are all the rage, and the more decided the stripe the more popular. We have a beautiful range in colors—black, marine, navy, green, mysteria, brown and taupe, and at prices ranging from 55c to $1.50

Furs

In Furs we have a complete range of the following lines—ladies' stoles, scarfs, muffs, caperines, etc. Also men's and ladies' fur and fur-lined coats, caps, mitts, gauntlets, etc.

Ready-Made Clothing

In Clothing we have the Progress Brand, made by H. Vineburg & Co., of Montreal, also W. R. Johnston & Co's clothing of Toronto. These are two of the largest clothing houses in the dominion. Their goods and prices are right.

Boots, Shoes and Rubbers

This is the season for the heavy shoes and they certainly are selling fast. We are full in all lines and are selling at prices which defy cometition. Come in and examine our stock.

A LAND OF LIBERTY—OR BRAG?

For years have the Americans boasted loudly of the liberty of their country, but it would appear that a certain section are beginning to change their ideas of the amount of liberty enjoyed by Americans as compared with Canadians—and the decision is that there may be more talk of liberty in that country,—but no ground for this talk at the final meeting of the American Federation of Labor convention held in Toronto the resolution was passed:

That the freedom of speech which we have exercised during the present convention without judicial restraint based on superconstitutional and self-arrogated authority has been more in conformity with the fundamental principles of a free and self-governing country than is possible at present in the United States of America.

It is also discovered that there is more rush of business in London, Eng., than in New York, but less talk of it. The eagle's screech is easily heard, but when heard too often it becomes tiring, and unheeded.

CHURCH UNION.

The tendency towards churce union is becoming gradually stronger. It is not for us to say when the ideal scheme will be consumated, but that time will see the change we doubt not for a moment.

The Presbyterian and Methodist peoples at Lancont, Alta., have gone a long way toward solving the difficulty. They jointly built a place of worship, and each Sunday one denomination meets in the morning and one in the evening. In this way the doctrines of both peoples echo in the same walls in a spirit of friendliness and Christian good will.

This reminds us of a yarn we once heard at a church social, which did not indicate a similar sentiment. In a town were a Baptist, a Presbyterian and a Methodist church. The former bought a bell to call the worshippers and each Sunday it called out "We are the people! We are the people!" In time the Presbyterians got a bell too, and it boomed out "No you're not! No you're not!" At last the Methodists made an effort and got a bell also, adding to the chorus "We've got one too! We've got one too!"

ONTARIO "DRYING UP."

This January two cities, Peterborough and Brantford, and about one hundred and fifty towns, villages and townships will vote on Local Option. This is by long odds the greatest number to try it in any one year, and though numerous defeats are inevitable, the feeling is that the contests will be successful for the supporters of the by-law in the majority of cases.

In Ontario there are already three hundred and thirty four municipalities out of a total of eight hundred and six in which there is no legal sale of liquor. There are ninety-two others which have voted "dry" under substantial majorities, but not large enough to clear the obstacle of the three-fifths vote.

The Legislators one time said that the people were not ready for provincial prohibition, but after this January the probability is that over half of the province will be under prohibitory laws, and then our representatives in the Legislative halls will see their duty. Being men they will be expected to do their duty.

THE SPORTING PAGE.

"Red Hawk Beats Fred Simpson." "Longboat Gets $1,000." "Yonkers Marathoners." "Meadows is Ready." These are headings in one Toronto newspaper recently. They tell in no uncertain voice what is to be expected on the sporting pages from now on. They will act somewhat in the same manner as does a red cloth with a vicious bull, to the crusty old gent who never ran in his life unless to catch a car, or at least that has totally forgotten his running days. He will grit his teeth and rage about the degenerate age in which the papers waste column after column over two fellows chasing each other around a building. But why should he kick? If he doesn't like the sporting page he doesn't have to read it, and can confine himself to the headliners telling of murders, abductions, divorces, accidents, hold-ups and so on.

It is a question to us if the sporting page is not better reading than the front page of the average metropolitan newspaper. And if the sporting page gives a stimulus to honest sport it does worlds more good than the rest of the paper put together, and who will try to argue differently in the light of the suicides, fires, and even immoral advertisements which often times are found in many newspapers.

A "Why go to Canada?" campaign has been inaugurated in the United States. There's a reason.

Wilfred Laurier on Saturday celebrated his 68th birthday. We wish him "many happy returns,"

A commercial airship line will be started in Germany this coming spring. Next thing to a "bee line," isn't it?

o o o

Our readers will doubtless notice signs of new life in this column. The muse has inspired the writer again, under the favorable influence of venison roasts.

o o o

It is announced that scientists have discovered a process for melting wood. That must be the same process which causes our woodpile to melt away so rapidly these days.

o o o

An exchange objects to the law which permits two deer to be shot by each hunter. To get such things as this out of his system we would suggest that the editor of that paper take a week off some year and go on a deer hunt.

The Scientific American gives a description of three styles of guns designed for destroying balloons. Cornell University will establish a chair for aeronautics next year. The world is moving on. In a short time the term "up in the air" will have lost its significance.

o o o

At the time of the recent election a Montreal daily published a widely copied article headed "It pays to be Yellow." The article was inspired by the support which Hearst, the "Yellow" newspaper man, appeared to be receiving. In the light of after-election events does it pay to be Yellow? We think not.

o o o

The editor of a Toronto weekly objects to the Lord's Day Act., on the ground that the rich may break it with impunity. Well, he needn't howl. Surely there is enough left after the printers are paid and taxes squared up to allow this editor sufficient of the "ready" to break the law. Now, if he were a country editor, ———.

The news comes by way of Flagstaff, Arizona. that Mars has had a violent snowstorm. The circulation of stories of this kind, whether true of false, is, to say at least, not tactful. Mars is probably as touchy about its climate as Canada is, and it will be difficult to establish pleasant relations with that planet if we start in by nicknaming it Our Lady of the Snows.—Mail and Empire.

Yes, and more than that, the C. P. R. or some other big railway over there might refuse to grant special rates when there is any celebration on, on the grounds that it savors too much of the winter carnival idea.

o o o

Is there anything in the open air that corrodes ones veracity? There must be something in outdoor life with a degrading tendency if one is to believe everything he is told. One "old trapper" will risk his reputation that there will be no sleighing until late in December. Another solemnly declares we are going to have a hard winter. Still another comes along with the statement that the squirrels are still running around and so the winter will be short and pleasant. Where are we at? Surely these men are not all correct. It seems to us that there are so many "signs" that they are bound to become muddled. But there is one infallible sign of winter—our wood pile is visibly shrinking!

Signs point to the speedy spanking of a very naughty "small boy"—this same "small boy" being nothing less than President Zelaya of Nicaragua, and the one to administer the spanking is our southern neighbor, Uncle Samuel. Several Americans were taken prisoners by the Nicaraguans while participating in a revolution against President Zelaya, and after a courtmartial were shot. The Americans consider that the shooting was the outcome of the personal enmity of Zelaya to one of the prisoners and that he wasn't "playing fair" to act as he did—that he did not deal with the prisoners according to the rules of international law relating to prisoners of war. Talk is rife of properly punishing this freehanded President, but what form the punishment will take remains to be seen. At any rate, despatches say that unusual activity is noticeable in the navy and that troops are being prepared to take a trip to the canal zone or Nicaragua next Saturday.

The statistical Editor of The Advance has discovered that in a list of eighty-three inquiries in a recent number of Industrial Canada, from foreign dealers, sixty came from South Africa. These inquiries were for articles ranging from binder twine, lard and breakfast foods to motor cars. This would indicate that a great interest is being taken in Canada by South Africans. Liberals will attribute this state to good government, while Conservatives will claim it to be due to the weather. We refrain from stating our convictions, but simply stay on the fence in the matter. It is interesting and gratifying to note these inquiries, however. Ten inquiries were from London and four from Australia. It was from Mauritius that the request for information as to manufacturers of breakfast foods came. It is rather astounding to find that the predigested sawdust and shavings have not invaded even the most distant of places. Possibly Mauritius was overlooked in the rush of business, and the error will be rectified.

Burned to Death Near Collingwood.

Mr. and Mrs. James Dand, and Mrs. Gowler, the latter's mother, were burned to death near Collingwood on Thursday of last week. The fire was first noticed in the kitchen, but it had gained too much headway to permit of rescuing the aged people. Mr. and Mrs. Dand leave an adopted daughter, Grace Dand, who is a school teacher in Norland, Victoria. The Dand farm is about half a mile from the scene of the Glory Whalen tragedy of 1903.

Rabbits are so plentiful here-abouts this fall that one can take a random shot into a swamp anywhere and can imagine he sees the fur fly.—Says The Dundalk Herald.

FARM PROFITS
May be largely increased by knowing the exact condition of the farmer's market, and by learning of the best method in farm practice. This is precisely the sort of information the Farmers' Weekly Sun gives in every issue. It has no equal as a Farmer's Business Paper. Good farmers rely on it. For price see our clubbing offer.

AFTER TREATMENT

He was surprised at how the sores healed—"I took your NEW METHOD TREATMENT for a serious blood disease with which I had been inflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the NEW METHOD TREATMENT for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." W.
