TO THE

Fabrist, the Amateur, the Manufacturer, and all who desire beautiful

WORKS OF ART.

THE Proprietors of the *Art Journal* pe[illegible] to recommend that Publication [illegible] their attention to the following [illegible] for the year 1851: inasmuch as a Prospectus [illegible] will be commenced in January, New Volume [illegible] favorable for New Subscribers.

Moreover, the Art-Journal, during the year 1851, will contain upwards of a Thousand Engravings on Wood, of the rarest, most beautiful, and most suggestive, of the Works of Industry of all Nations, to be exhibited in London, in 1851: comprising the most extensive, and the most perfect, of the Illustrated Catalogues of the Great Collection of the Art of the World.

With the First of January, 1851, will be commenced a new volume of THE ART-JOURNAL, with such improvements as have been suggested by experience, the advanced intelligence of the age, and that augmented power which results from increased prosperity. The circulation of this Journal, during the past year, has approached 18,000 monthly; its conductors are consequently enabled to obtain the co-operation of accomplished writers and eminent engravers, and to avail themselves of all the advantages which industry and capital may place at their command.

The engravings from pictures by British Artists, comprising the Vernon Gallery, will be most varied; of these, as heretofore, two will be issued with each number, engraved on steel by the most eminent British artists. Among the Pictures to appear during the year 1851 are the following:—

The Death of the Stag	Sir E. Landseer, R. A.
The Crusader Sleeping	W. F. Witherington, R. A.
Rebekah at the Well	W. Hilton, R. A.
The Cote—Side	F. R. Lee, R. A.
The Meadow	Sir A. W. Callcott, R. A.
The South Sea Bubble	E. M. Ward, R. A.
The Golden Bough	J. M. W. Turner, R. A.
Spaniards & Peruvians	H. P. Briggs, R. A.
Cupid Bound	T. Stothard, R. A.
The Flower Girl	H. Howard, R. A.
The Battle of Trafalgar	C. Stanfield, R. A.
Cupid and the Nymphs	W. Etty, R. A.

The Works of Sculpture for the coming year have been selected, for the most part from the statues of the Sculpture of Chantrey; of these will be engraved the leading works of Professors Rauch, Wichmann, and Kiss, of Berlin; Professor Rietschel, of Dresden; Schwanthaler, Dannecker and Thorwaldsen.

Moreover, His Grace the Duke of Devonshire has been pleased to place at the disposal of the Editor, for engraving in the *Art-Journal*, the whole of his Gallery of Sculpture at Chatsworth.

The Editor has also arranged in Germany for a series of Twenty-four drawings—"Episodes in Life"—drawn expressly for the Art-Journal by Moritz Retzsch; these will be engraved on wood, of large size and in the highest style of Art.

A series of illustrated articles on "Early Costumes," from the pen and pencil of Professor Carl Heideloff, produced expressly for the Art-Journal, the engravings to be on wood.

A series of Twelve drawings of figures representing the "Cardinal Virtues," drawn expressly for the Art-Journal by Professor Moritz of Darmstadt.

A series of selections (of which four will be issued monthly) from the Illustrated Bible of Baron Cotta; the drawings engraved on wood, by Overbeck, Bendemann &c. &c.

In addition to these, other interesting works are in preparation; among them may be mentioned a series of Lives of the Great Painters, with illustrations of large size, produced from the Pre[illegible] of the "Vies des Peintres," of Paris; a series of Illustrated Articles, exhibiting "The Domestic Habits of the Early English," by T. Wright, F. R. S., and F. W. Fairholt, F. S. A.; a series of original designs for furniture after the models of the middle ages, by Carl Heideloff; the continuation of a "Dictionary of Terms in Art;" illustrated; the continued series of Dr Braun's Papers on the Art-Manufacture of the Austrians; and also those of Mr. Robert Hunt, on the "Application of Science to the Fine and useful Arts, and various matters, interesting and instructive to the artist, the amateur, the manufacturer and the public.

Among the authors whose valuable assistance is given to the *Art-Journal*, and whose names the Editor is free to mention, are—Dr Waagen, Mrs. Jameson, Dr Braun, Dr. Forster, Professor Heideloff, R. Westmacott, Mrs. Merrifield, T. Wright, F. S. A., Robt. Hunt, Mrs. S. C. Hall and F. W. Fairholt F. S. A.

To the atelier of the *Artist*; to the library of the *Amateur*—to the desk of the *Student*—to the workshop of the *Manufacturer*—and to the drawing room table of the Admirer of Beautiful Engravings, the Art-Journal is recommended as a 'companion and counsellor, at once agreeable and instructive'—as 'ably and impartially conducted' as 'stimulating the manufacturer to the production of excellence, and the public to appreciate his improved works'—and as having worked out with 'industry, integrity and ability,' its high purpose of 'supplying to Artists and Amateurs, accurate and useful information upon all subjects in which they are interested, and to the public the means of justly appreciating and estimating the progress of Art both at home and abroad.'

The year 1851 will be memorable in the History of the Industrial Arts in Great Britain. 'The Exhibition,' to be commenced in May, will be of the highest interest to every civilized Nation of the world: it is, above all things, essential that the Exhibition should be properly reported; and this can be done only by a very large number of engravings. The Editor of the Art Journal has therefore announced his intention to issue, in May, June, and July, Supplementary Parts [or double numbers,] each Part to consist of at least Fifty-two pages of letter press, and to contain between 250 and 300 engravings, exhibiting the best and most suggestive objects contributed to the Exhibition. This project cannot fail to be received with favor by all subscribers to the work. The Reports then supplied will become—as a Catalogue of its most beautiful and valuable contents—a permanent record of the Exhibition and a key to the most meritorious manufactures of all parts of the world.

The Volumes, handsomely bound, of the Art Journal, for the years 1849, and 1850, containing each, Twenty-five Line engravings (on Steel) of the Vernon Gallery, Twelve Engravings, [on Steel] of Works in Sculpture, above Eight Hundred Engravings on Wood, and Four Hundred pages of Letter-press, may be purchased, each for the sum of Thirty-one shillings and six pence. These volumes therefore contain Fifty Engravings of pictures in the Vernon Gallery, which began with the volume for 1848, when a New Series of the Art Journal was commenced.

In order to meet the wishes of those who require copies of the Engravings for the portfolio or for framing, a limited number of proofs and impressions on large paper are issued; for these early applications will be necessary, as they are taken only for Subscribers.

Artists' Proofs, Two Guineas the Part [of which only 150 are printed.] These will be signed by the Engravers. [illegible]

[Of which only 200 are printed.]

THE BRITISH PERIODICALS
AND THE
FARMER'S GUIDE.
LEONARD SCOTT & CO.
NO. 54 GOLD ST., NEW YORK,

CONTINUE to publish the four leading British Quarterly Reviews and Blackwood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural work, called the

"*Farmer's Guide to Scientific and Practical Agriculture.*"

By Henry Stephens, F.R.S. of Edinburgh, author of the "*Book of the Farm*," &c. &c., assisted by John P. Norton, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c. &c.

This highly valuable work will comprise two large royal octavo volumes containing over 1400 pages, with 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c. &c., the various domestic animals in their highest perfection; in short the practical feature of the book is unique, and will render it of incalculable value to the student of agriculture.

The work is being published in semi-monthly Numbers, of 64 pages each, exclusive of the steel engravings, and is sold at 25 Cents each, or $5 for the entire work in numbers, of which there will be at least 22.

The British Periodicals Re-published are as follows:—

The London Quarterly Review (Conservative,)
The Edinburgh Review (Whig,)
The North British Review (Free-Church,)
The Westminster Review (Liberal,)
AND
Blackwood's Edinburgh Magazine (Tory.)

Although these works are distinguished by no political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. *Blackwood* still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is at this time unusually attractive from the serial works of Bulwer and other literary notables, written for that magazine and first appearing in its columns both in Great Britain and in the United States. Such works as 'The Caxtons' and 'My New Novel' (both by Bulwer,) 'My Peninsular Medal,' 'The Green Hand,' and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be re-printed by these publishers from the pages of Blackwood, after it has been issued by Messrs Scott & Co., so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

Skylight Daguerreotypes,
AT THE
LONDON FIRST PREMIUM
DAGUERRIAN GALLERY.
No. 214 Main Street, Corner Seneca, Buffalo

THE above, is a cut of a SILVER MEDAL awarded the subscriber at the New York State Agricultural Fair, at Buffalo, and the Fifth Premium in the last nine years. Also, the first prize at the late Fair at Syracuse, in competition with over three hundred pictures from some of the first galleries in the United States. This Gallery has now become the PICTURE EMPORIUM for the entire Western World, and the standard of imitation. Our competitors involuntarily acknowledge their inferiority by following in our wake and apeing us in every particular except THE PORTRAIT!

Therefore, strangers visiting the city are respectfully solicited to compare our pictures with those executed by others. Also, all who have long been propounced in favor of other Daguerreans, and have pictures taken by them, are very urgently invited to call and have one executed at this establishment, that they may have an ocular demonstration of the vast difference in portraying the same individuals.

The subscriber would also notify the people of C. W. that he has opened a branch Gallery on Princess St. Lambton House, Kingston, where persons may expect such pictures of themselves and friends as will rarely if ever be offered to that community again.

N. B. The undersigned would most respectfully further notify the public that no premiums or diplomas have ever been awarded by the New York State Agricultural Fair to any Daguerrean in Buffalo except the subscriber.

The oldest Practical Daguerrean in the U. S.

FIRE! FIRE!

Capital $300,000.

The St. Lawrence Insurance Company Chartered in 1836, continues to insure at as cheap rates as any other sound Company in New York. Insures from five to six millions annually, and presents the following advantages.

1st. Its total rates for five years do not exceed the rates of Stock Companies for one year on farm property.

2d. It does not insure buildings in blocks, nor extra hazardous risks, but ordinary and detached risks only. In the several towns of Plattsburgh, Watertown, Corning, Port Hope, and Picton lately destroyed, in each of which the Company had agencies, its total losses were less than $1000.

Such facts speak.

3d. The Company is bound by the survey of the agents; and this is printed on all policies.

4th. The total liability of the member is the note, and the company cannot assess beyond that sum, as is the case in most Companies of the State.

5th. The capital of this Company is almost wholly unimpaired, as it has had but one small assessment in FIVE YEARS, and the cash balance in favor of the Company, October 1, over and above all liquidated liabilities was about

$12 000 00

6th The policy covers from 12 o'clock noon the day the money is paid to the agent.

7th. The total of the members of this Company assume hypothecated to borrow money, but a member can withdraw his note, and cancel his policy when he may please, by paying his share of loss to that date.

8th. The capital of this money is bona fide, not got up to answer the requirements of the law of the State by taking enormous notes, on enormously hazardous property, but the notes are on safe property throughout.

This Company has twelve millions of Insurance—three hundred thousand dollars capital; the heavy surplus fund above stated—its risks are well and carefully chosen; and if prudent management, strict economy, small risks, and a large business can save the members from assessment it will be done. This Company regards it as dishonest, and an imposition in any mutual Company to countenance its agents in promising what cannot be foreseen, but it gives the facts, and parties must be their own judges.

We consider the past a good guarantee for the future. During the past year the Company paid in losses $32,417 28, and its expenses were only $2 125 84 exclusive of the fees to the agency. It includes $300 paid to the Officers, about $600 for postages, and the balance was for printing and other incidental expenses.

N. B. Agents have commissions signed by the Secretary, and parties paying monies will require their products in and receipts. The company will not hold itself in any way responsible for the acts of any person not having in its commission.

If the policy be not received, the party must mail his receipt to this office in thirty days, and the policy or cash will be returned.

AGENTS, who can come well recommended for proper age, judgment and character, are wanted to whom liberal inducements are offered. Address the Secretary.

DIRECTORS.—Erastus Giles, President.—William Bacon, V. P.—Ira Wheelock, D. Cricklam, S. Stilwell, jr. Walter Wilson, Allen Chaney, W. E. Gates, J. G. Hopkins, Ira Hale, Wm. E. Sterling, J. F. Kent, Royal Niles.

Camphene Distillery for Sale.

FOR SALE a compact little Camphene Distillery, situated in a convenient location in the neighborhood of Kingston. It consists of a frame building, nearly new, paying a low ground rent, a Copper Rectifying Still and Worm, capable of running 35 gallons in 10 hours, and all the other necessary apparatus in good order for carrying on the business. As this is the only manufactory of Camphene in this neighborhood, there is always a steady demand at a good remunerating profit for all that it can make, so that this holds out an opportunity rarely to be met with, for an industrious man with a small capital to secure the means of independence. A knowledge of the business is easily acquired—only two or three lessons being required—which a purchaser can easily obtain for a trifle.
