BRITANNIA LIFE ASSURANCE COMPANY.

No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

ENPOWERED BY SPECIAL ACT OF PARLIAMENT, 4 Vic. Cap. 9.

THE great amount of this Institution in Europe, and the uniform Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death.—The rates of the Britannia are the lowest which can be offered consistently with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the annexed Table of Rates, specimens of which may be seen at his office, or in the Montreal Herald, Montreal Gazette, and Montreal Courier as also in several papers in the Upper Province.

Assurances may be advantageously effected on the lives of others, either for the purpose of securing debts, or debts or in case where the party has an interest in the life of another, so as to be in any way prejudiced in the event of his decease. To creditors, a Policy of Assurance affords a certain, and, in many cases, the only means of security. Also in addition to the published rates, an extensive set of Tables has been computed for Assurance on Joint Lives, the survivor of two or more lives, and for Contingent Assurances; also for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency affecting human life, against which it may be prudent or expedient to provide.

COMPARATIVE STATEMENT OF THE RATES OF THE FOLLOWING OFFICES:

Rate for one year, (which is Life) for the Assurance of £100:

	Age			
National Loan Fund	age 30	£2	4	4
Colonial Life Assurance Com'y do		2	5	2
United Kingdom do		2	3	10
British Commercial do		2	1	10
Medical do		2	1	9
Britannia do		2	0	8

The other Offices doing business in the Colonies are as much higher, that competition is unnecessary.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds, Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may draw for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable investment to the person wishing to Assure.

All claims payable within twenty days after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, except under any circumstances be afterwards proved to be in question. Policies effected by parties on their own lives are not vested, and in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned the unexpended Premium received thereon will be returned to the family of the Assured.

The subscriber begs to remark that the Britannia Company has been doing business in this Province for about ten years—and has been always found liberal, and prompt in the settlement of claims.

The necessary forms, and every requisite information as to the mode of effecting Assurances, may be obtained either by letter or personal application to

To the Artist, the Amateur, the Manufacturer, and all who desire beautiful

WORKS OF ART.

THE Proprietors of the *Art-Journal* presume to recommend that Publication, and direct their attention to the following Prospectus for the year 1851: inasmuch as a New Volume will be commenced in January, and the occasion is favorable for New Subscribers.

Moreover, the *Art-Journal*, during the year 1851, will contain upwards of a Thousand Engravings on Wood, of the rarest, most beautiful, and most suggestive, of the Works of Industry of all Nations, to be exhibited in London, in 1851: comprising the most extensive, and the most perfect, of the Illustrated Catalogues of the Great Collection of the Art of the World.

With the First of January, 1851, will be commenced a new volume of THE ART-JOURNAL, with such improvements as have been suggested by experience, the advanced intelligence of the age, and that augmented power which results from increased prosperity. The circulation of this Journal, during the past year, has approached 18,000 monthly: its conductors are consequently enabled to obtain the co-operation of accomplished writers and eminent engravers, and to avail themselves of all the advantages which industry and capital may place at their command.

The engravings from pictures by British Artists, comprising the Vernon Gallery, will be continued; of these, as heretofore, two will be issued with each number, engraved on steel by the most eminent British engravers. Among the Pictures to appear during the year 1851 are the following:—

The Death of the Stag	Sir E. Landseer, R. A.
The Crown of Hope	W. F. Witherington, R.A.
Rebekah at the Well	W. Hilton, R.A.
The Cove—Sole	F. Lee, R.A.
The Meadow	Sir A. W. Calcott, R.A.
The South Sea Bubble	E. M. Ward, R.A.
The Golden Bough	J. M. W. Turner, R.A.
Sprightly & Perplexed	H. P. Briggs, R.A.
Cupid Bound	T. Stothard, R.A.
The Flower Girl	H. Howard, R.A.
The Battle of Trafalgar	C. Stanfield, R.A.
Cupid and the Nymphs	W. Etty, R.A.

The Works of Sculpture for the coming year have been selected, for the most part from the studios of the Sculptors of Germany; of these will be engraved the leading works of Professors Rauch, Wichmann and Kiss, of Berlin; Professor Rietschel of Dresden; Schwanthaler, Dannecker and Thorwaldsen.

Moreover, His Grace the Duke of Devonshire has been pleased to place at the disposal of the Editor, for engraving in the *Art-Journal*, the whole of his Gallery of Sculpture at Chatsworth.

The Editor has also arranged in Germany for a series of Twenty fine drawings—"Episodes in Life"—drawn expressly for the Art-Journal by Moritz Retzsch; these will be engraved on wood, of large size and in the highest style of Art.

A series of illustrated articles on "Early Costumes," from the pen and pencil of Professor Carl Heideloff, produced expressly for the Art-Journal the engravings to be on wood.

A series of Twelve drawings of Scenes representing the "Cardinal Virtues," drawn expressly for the Art-Journal by Professor Moritz of Darmstadt.

A series of selections (of which four will be issued monthly) from the Illustrated Bible of Hamon Cotta; the drawings, engraved on wood, by Unterbeck, Brendamann &c. &c.

In addition to these, other interesting works are in progress; among them may be mentioned a series of Lives of the Great Painters, with illustrations of large size, procured from the Proprietors of the "Vies des Peintres," of Paris; a series of Illustrated Articles, exhibiting "the Domestic Habits of the Early English," by T. Wright, F. R. S., and F. W. Fairholt, F. S. A.; a series of original designs for furniture after the models of the middle ages, by Carl Heideloff; the continuation of a "Dictionary of Terms in Art," illustrated; the continued series of Dr. Dresler's Papers on the Art-Manufacture of the Animals; and the views of Mr. Robert Hunt, on the "Application of Science to the Fine and Useful Arts, and various matters, interesting and instructive to the artist, the amateur, the manufacturer, and the public.

Among the authors whose valuable assistance is given to the *Art-Journal*, and whose names the Editor is free to mention, are—Dr. Waagen, Mrs. Jameson, Dr. Ryan, Dr. Forster, Professor Heideloff, R. Westmacott, Mrs. Merrifield, T. Wright, F. S. A., Robert Hunt, Mr. Dyce, Mr. Cole, F. W. Fairholt, F. S. A.

To the visitor of the *Art-Journal*, the library of the Amateur—to the desk of the Student—to the workshop of the Manufacturer—and to the evening room table of the Admirer of Beautiful Engravings, the Art-Journal is recommended as a companion and counsellor, at once agreeable and instructive—as a valuable and importantly conducive to "stimulating the manufacturer to the production of excellence, and the public to appreciate his improved works"—and as having worked out with "industry, integrity and ability," its high purpose of "supplying to Artists and Amateurs, accurate and useful information upon all subjects in which they are interested, and to the public the means of justly estimating and encouraging the progress of Art both at home and abroad."

The year 1851 will be memorable in the History of the Industrial Arts in Great Britain. "The Exhibition," to be commenced in May, will be of the highest interest to every civilized Nation of the world: it is, above all things, essential that the Exhibition should be properly reported—and this can be done only by a very large number of engravings. The Editor of the Art-Journal has therefore announced his intention to issue, in May, June, and July Supplementary Parts [or double numbers] each Part to consist of at least Fifty-two pages of letter-press, and to contain between 250 and 300 engravings, exhibiting the best and most suggestive objects contributed to the Exhibition. This project cannot fail to be received with favor by all subscribers to the work. The Reports then supplied will supersede a Catalogue of its most beautiful and valuable contents—a permanent record of the Exhibition and a key to the most meritorious manufactures of all parts of the world.

The Volumes, handsomely bound, of the Art-Journal for the years 1849, and 1850, containing each Twenty-five Line engravings [on Steel] of the Vernon Gallery, Twelve Engravings [on Steel] of Works in Sculpture, above Eight Hundred Engravings on Wood, and Four Hundred pages of Letter-press, may be purchased, each in the year of Thirty-one shillings and six pence. These volumes the above contain Fifty Engravings of pictures in the Vernon Gallery, which began with the volume for 1849, when a New Series of the Art-Journal was commenced.

In order to meet the wishes of those who require copies of the engravings for the purpose of framing, a limited number of proofs and impressions on large paper are issued; for these early application will be necessary, as they will be taken only for Subscribers.

ARTISTS' PROOFS, TWO GUINEAS THE PART [of which only 150 are printed]. These will be signed by the Engraver.

NOW IN PRESS.

CANADA:

PAST, PRESENT, AND FUTURE;

BEING a Geographical and Statistical Account of Canada West, (formerly Upper Canada,) exhibiting its past history, present condition, and future prospects; showing its resources and capabilities as a great Agricultural and Manufacturing Country, and its relative advantages as compared with the other British Colonies and the United States, as a new home for British Emigrants.—Also, contained a popular account of the mineral wealth, and other valuable available resources of each District; with an original description of the Mining Region of Lake Huron and Superior. The whole compiled from information obtained in each locality, up to the date of publication, by W. H. Smith, Author of the Canadian Gazetteer.

A chapter will be devoted to the special benefit of Emigrants—furnishing them with information concerning the proper measures and precautions to be taken in order to reach the Province in a comfortable and economical manner; with hints as to the cheapest and most advisable means of securing land on their arrival, &c.

Correct tables of distances from place to place will be added, with all routes from each Province to Any or all the rest; a table for post-riding known; and a variety of miscellaneous useful matter. The whole forming a complete work on the subject of Canada for families, a valuable book of reference for every class of business, and a guide for the traveller and emigrant.

Price [illegible] to subscribers, the work will extend double size at 2s. 6d. each, and will be completed in about ten parts. Each part will be accompanied by a Map, containing one or more Counties; and a general Map of the Province compiled expressly for the purpose, will be appended to the work. The Maps will be engraved on copper, in the best style of art, and will contain the latest division of Counties, and all the new settlements in the Province up to the latest dates.

THE WORK WILL BE REVISED TO SEPTEMBER 1850.

A complete Business Directory of the Upper Province will be added to the work, being the first ever published in other Provinces. As the Author and Publisher possess peculiar facilities for collecting the necessary information, that subscribers will have the advantage of receiving this portion of the work without any additional expense.

The first part of the work will be ready for delivery in about a fortnight, and will be supplied to subscribers by the Publisher or Agents.

Local Agents wanted to canvass for the work, to whom liberal emoluments will be given.—Apply personally, or by letter (post-paid) to the Publisher, Toronto.

BARKER'S COMPOUND SARSAPARILLA PILLS.

For Purifying the Blood, and Strengthening the Digestive Organs. Scrofula, Eruptions, Pimples and Blotches, Rheumatism, Liver Complaints, Indigestion, Bilious Complaints, Asthma, and all diseases which arise from an impure state of the Blood.

THESE PILLS having been in use several years, experience has proved their great superiority over all other preparations of Sarsaparilla now before the public. In consequence of the peculiar virtues of the Sarsaparilla Root, it has been extensively used by the Medical Profession for a number of years, but it is well known, that all Watery or Liquid Preparations of the Root very soon lose all medicinal qualities, in this state. The only preparation which can be depended upon, in the Solid State, are those of these Pills are prepared, combined with other valuable medicines, and most and benefit will be derived from the use of one box, than from half a dozen bottles of the Syrups or any Preparation in use. They act as a powerful Alterative Tonic, and a Mild Aperient, strengthening the Stomach, and giving warmth and vigor to the system.—They are perfectly safe in their operation, and may be used by the most delicate females and children, and will be found most valuable for any complaints peculiar to them.

The proprietor has an objection to the system of publishing a list of Cures, as he could furnish a large list of the most respectable persons, who have used these Pills to great advantage. Try one Box of these Pills, when you will find them to be the best Medicine ever used.

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Royal Charter.

THIS COMPANY is prepared to grant Assurances on lives, whether single or joint, to wait Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more favorable than the best rate of interest available on investments by British Companies and their generally large expenditure can, as it may regard, to enjoy a share of the profits.

The most abundant of the vouchers and correspondence with results published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it wants all its funds in the Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay Bonuses or Foreign Companies for that, in which case this country is entirely instrumental Great Britain and the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fully represent the value of the amount of such payments as they may have made, and it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thereon.

A peculiar feature of the Company is that it is not desirous to make profits by lapse of Policies.

Tables of Rates, forms of proposal, and other information may be obtained at the Head Office and Agencies.

To the Sick and Afflicted.

DR. SHERIFF,

RESPECTFULLY informs his friends and the public generally, that he has removed to the Stone dwelling immediately adjoining F. Donaghue, situated at the west end of Ontario Street, where he is prepared to receive and prescribe for patients afflicted with diseases of long standing. Dr. S. has during his short residence in the City of Kingston, been the means, through the blessing of Providence, of restoring to health over two hundred individuals, after they had been pronounced incurable, and considered out of the reach of hope, by their physicians. And he intends for the future, to give his attention only to such cases as may be considered beyond the reach of medical aid from every other source, and he feels confident that he will be enabled to heretofore, to give relief to the majority of such cases as may come under his care. By way of reference, it may not be amiss at the present time to mention the case that has been successfully treated by Dr. Sheriff, within the last three weeks.—Mr. Henry Leavens, a respectable farmer, who resides near the first toll-gate, sent for Dr. S. about three weeks ago. When he went to him he was confined to his bed, in the last stage of Dropsy, and at the same time labouring under a severe affection of the Lungs, from which he had been raising profusely of blood. In this hopeless condition his physicians had left him, and said that he could do no more for him. He then commenced taking medicine, under the direction of Dr. S. and in two weeks time was able to ride out. He is now daily attending to his business about his farm as usual.
