TO THE

Artist, the Amateur, the Manufacturer, and all who desire beautiful

WORKS OF ART.

THE Proprietors of the *Art Journal* presume to recommend that Publication and direct their attention to the following Prospectus for the year 1851: inasmuch as a New Volume will be commenced in January, and the occasion is favorable for New Subscribers.

Moreover, the *Art Journal*, during the year 1851, will contain upwards of a Thousand Engravings on Wood, of the finest, most beautiful, and most suggestive, of the Works of Industry of all Nations, to be exhibited in London, in 1851: comprising the most extensive, and the most perfect, of the Illustrated Catalogues of the Great Collection of the Art of the World.

With the First of January, 1851, will be commenced a new volume of THE ART-JOURNAL with such Improvements as have been suggested by experience, the advanced intelligence of the age, and that augmented power which results from increased prosperity. The circulation of this Journal during the past year, has approached 18,000 monthly: its conductors are consequently enabled to obtain the co-operation of accomplished writers and eminent engravers and to avail themselves of all the advantages which industry and capital may place at their command.

The engravings from pictures by British Artists, comprising the Vernon Gallery, will be most numerous of these, as heretofore, they will be issued in such numbers, engraved on steel by the most eminent British engravers. Among the Pictures to appear during the year 1851 are the following:—

The Death of the Stag, Sir E. Landseer, R. A.
The Crown of Hope, W. F. Witherington, R. A.
Rebekah at the Well, W. Hilton, R. A.
The Cure—Sold, F. S. Lee, R. A.
The Mother, Sir A. W. Calcott, R. A.
The South Sea Bubble, E. M. Ward, R. A.
The Golden Bough, J. M. W. Turner, R. A.
Spectacles & Perspective, H. O. Briggs, R. A.
Cursed Gold, T. Stothard, R. A.
The Prison Gate, H. Howard, R. A.
The Battle of Trafalgar, C. Stanfield, R. A.
Cupid and the Nymphs, W. Etty, R. A.

The Works of Sculpture for the coming year have been selected, for the most part from the studios of the Sculptors of Germany; of these will be engraved the leading works of Professors Kaulch, Wichmann and Kiss, of Berlin; Professor Rietschel of Dresden; Schwanthaler, Dannecker and Thorwaldsen.

Moreover, His Grace the Duke of Devonshire has been pleased to place at the disposal of the Editor, for engraving in the *Art-Journal*, the whole of his Gallery of Sculpture at Chatsworth.

The Editor has also arranged in Germany for a series of Twenty-four Drawings—"Episodes in Life"—drawn expressly for the Art-Journal by Julius Retzsch: these will be engraved on wood, of large size and in the highest style of Art.

A series of illustrated articles on "Early Costumes," from the pen and pencil of Professor Carl Heideloff, produced expressly for the Art-Journal, the engravings to be on wood.

A series of Twelve drawings of figures representing the "Cardinal Virtues," drawn expressly for the Art-Journal by Professor Moritz of Dusseldorf.

A series of selections (of which four will be issued monthly) from the Illustrated Bible of Baron Cotta; the drawings, engraved on wood, by Overbeck, Bendemann, &c. &c.

In addition to these, other interesting works are in preparation; among them may be mentioned a series of Lives of the Great Painters, with illustrations of large size, procured from the Proprietors of the "Vies des Peintres," of Paris; a series of Illustrated Articles, exhibiting "the Domestic Habits of the Early English," by T. Wright, F. S. S., and F. W. Fairholt, F. S. A.; a series of original designs for furniture after the models of the middle ages, by Carl Heideloff; the continuation of a "Dictionary of Terms in Art," illustrated; the continued series of Dr Bronn's Papers on the Art-Manufacture of the Ancients; and also those of Mr. Robert Hunt, on the "Application of Science to the Fine and useful Arts, and various matters, interesting and instructive to the artist, the amateur, the manufacturer and the public.

Among the authors whose valuable assistance is given to the *Art-Journal*, and whose names the Editor is free to mention, are—Dr Waagen, Mrs Jameson, Dr Braun, Dr. Feuaster, Professor Heideloff, R. Weemans, Mrs. Merrifield, T. Wright, F. S. A., Robert Hunt, Mr S. C. Hall and F. W. Fairholt, F. S. A.

To the studies of the Artist; to the library of the Amateur; to the close of the Student—to the workshop of the Manufacturer—and to the evening round table of the Admirer of Beautiful Engravings, the Art-Journal is recommended as a companion and counsellor, at once agreeable and instructive—as a cheap and impartially conducted organ, stimulating the manufacturer to the production of excellence, and the public to appreciate his improved works—and as having worked out with "industry, integrity and ability," its high purpose of "supplying to Artists and Amateurs, accurate and useful information upon all subjects in which they are interested, and to the public the means of justly appreciating and estimating the progress of Art both at home and abroad."

The year 1851 will be memorable in the History of the Industrial Arts in Great Britain. "The Exhibition," to be commenced in May, will be of the highest interest to every civilized Nation of the world; it is, above all things, essential that the Exhibition should be properly reported; and this can be done only by a very large number of engravings. The Editor of the Art Journal has therefore announced his intention to issue, in May, June, and July, Supplementary Parts (to double numbers,) each Part to consist of at least Fifty-two pages of letter-press, and to contain between 250 and 300 engravings, exhibiting the best and most suggestive objects contributed to the Exhibition. This project cannot fail to be received with favor by all subscribers to the work. The Reports thus supplied will become—as a Catalogue of its most beautiful and valuable contents—a permanent record of the Exhibition and a key to the most meritorious manufactures of all parts of the world.

The Volumes, handsomely bound, of the Art Journal for the years 1849, and 1850, containing each, Twenty-five Line engravings (on Steel) of Works in Sculpture, above Eight Hundred Engravings on Wood, and Four Hundred pages of Letter-press, may be purchased, each for the sum of Thirty-one shillings and six pence. These volumes therefore contain Fifty Engravings of pictures in the Vernon Gallery, which began with the volume for 1849, which a New Series of the Art Journal was commenced.

In order to meet the wishes of those who require copies of the engravings for the purpose of framing, a limited number of proofs and impressions on large paper are issued; but immediate application will be necessary, as they are taken only for Subscribers.

ART-JOURNAL PROOFS. TWO GUINEAS THE PAIR (of which only 150 are printed.) These will be signed by the Engraver.

THE BRITISH PERIODICALS AND THE FARMER'S GUIDE.

LEONARD SCOTT & CO.

NO. 54 GOLD ST., NEW YORK.

CONTINUE to publish the four leading British Quarterly Reviews and Blackwood's Magazine, in addition to which they have recently commenced the publication of a valuable Agricultural work, called the

"*Farmer's Guide to Scientific and Practical Agriculture.*"

By Henry Stephens, F.R.S. of Edinburgh, author of the "*Book of the Farm*," &c. &c., assisted by John P. Norton, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c. &c.

This highly valuable work will comprise two large royal octavo volumes, containing over 1400 pages, with 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement, building or animal, one by the best living artists, the best methods of ploughing, planting, nursing, harvesting, &c. &c., the various domestic animals in their highest perfection; in short the practical feature of the work is unique, and will render it of invaluable value to the student of agriculture.

The work is being published in semi-monthly Numbers, of 64 pages each, exclusive of the steel engravings, and is sold at 25 Cents each, or $5 for the entire work in numbers, of which there will be at least 22.

The British Periodicals Re published are as follows, viz.—

The London Quarterly Review (Conservative,)
The Edinburgh Review (Whig,)
The North British Review (Free-Church,)
The Westminster Review (Liberal,)

AND

Blackwood's Edinburgh Magazine (Tory.)

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their *literary character* which gives them their chief value, and in that they stand confessedly far above all other journals of their class. *Blackwood*, still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is at this time unusually attractive from the serial works of Bulwer and other literary notables, written for that magazine and first appearing in its columns both in Great Britain and in the United States. Such works as 'The Caxtons' and 'My New Novel' (both by Bulwer,) 'My Peninsular Medal,' 'The Green Hand,' and other serials, of which numerous rival editions are issued by the leading publishers of this country, have to be re-printed by those publishers from the pages of Blackwood, *after it has been issued by Leonard Scott & Co.*, so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

The St. Lawrence Insurance Company Charter, in 1845, continues to insure at as cheap rates as any other sound Company in New York. It insures from five to seven millions annually, and presents the following advantages.

1st. In total rates for *five years* do not exceed the rates of Stock Companies for *two years* on same property.

2d. It does not insure buildings in blocks, nor extra hazardous risks, but ordinary and detached dwellings only. In the several towns of Plattsburgh, Watertown, Corning, Port Hope and Picton, lately destroyed, in each of which the Company had agencies, the total losses were less than $1000.

Such facts speak.

3d. The Company is bound by the survey of the agent, and dispute is precluded altogether.

4th. The total liability of the member is the note, and the company cannot assess beyond that sum, as is the case in most Companies of the State.

5th. The capital of this Company is almost wholly unimpaired, as it has laid but one assessment in FIVE YEARS, and the cash balance in favor of the Company, October 1, over and above all expenses and liabilities was about $12,000 00

6th. The policy covers loss from 12 o'clock noon the day the money is paid to the agent.

7th. The notes of the members of this Company cannot be hypothecated to borrow money, but a member can withdraw his note, and cancel his policy when he may please, by paying his share of loss to that date.

8th. The capital of this company is *bona fide*, not got up to answer the requirements of the law of the State by taking extensive notes, or overvalued hazardous property, but the notes are on *safe property throughout.*

This Company has twelve millions of Insurance—three hundred thousand dollars capital; the heavy surplus fund above stated—its risks are well and carefully chosen; and of prudent management, strict economy, small risks, and a large business can save the members from assessment it will be done. This Company stands at the lowest, and an inspection by any mutual Company is common—its agents in promising what cannot be *forseen*, but it gives the facts, and parties must be their own judges.

We consider the past a good guarantee for the future. During the past year the Company paid in losses $33,417 99, and its expenses were only $2,125 34—a loss to the fire to the agency. It includes $300 paid to the Officers, about $600 for premiums, and the balance was for printing and other incidental expenses.

N. B. Agents have commissions signed by the Secretary, and parties paying money will require their production and receipts. The company will not hold itself in any way responsible for the acts of any person not having in its commission.

If the policy be not received, the party must sell his receipt to the office in thirty days, and the policy or cash will be returned.

AGENTS, who can come well recommended for proper age, judgment and character, are wanted to whom liberal inducements are offered. Address the Secretary.
