BRITANNIA LIFE ASSURANCE COMPANY.

[illegible] Princes Street, Bank, London.

CAPITAL. ONE MILLION.

ESTABLISHED BY ROYAL ACT OF PARLIAMENT, 1 Vic. Cap. 9.

THE great success of this Institution in Europe, and the numerous Policies, issued by the Colonial Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death.—The rates of the Britannia are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to draw the attention of the inhabitants of Kingston to the annexed Table of Rates, specimens of which may be seen at his office, or in the Montreal Herald, Montreal Gazette, and Montreal Courier papers received papers in 4 weeks West.

Assurances may be advantageously effected on the lives of others, either for the purpose of securing loans, or debts or in case where the party has an interest in the life of another, so as to be in any way prejudiced in the event of his decease. To creditors, a Policy of Assurance affords a certain, and, in many cases, the only means of security. Also in addition to the published rates, an extensive set of Tables has been computed for Assurance on Joint Lives, the survivor of two or more lives, and for contingent Assurances; also, for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency affecting human life, against which it may be prudent or expedient to provide.

COMPARATIVE STATEMENT OF THE RATES OF THE FOLLOWING OFFICES:

Rate for one year, (whole of Life) for the Assurance of £100:

Assurance from Fund	age 30	£2	4	4
Colonial Life Assurance Com'y	do.	2	5	2
United Kingdom	do.	2	3	10
British Commercial	do.	2	1	10
Minerva	do.	2	1	3
Britannia	do.	2	0	8

The other Offices doing business in the Colonies are as much higher, that comparison is unnecessary.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling, per annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may need for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying extra premium, that is actually required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within THREE MONTHS after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being in every case, admitted in the Policy, cannot, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not rendered void in case of death by duelling or the hands of justice. In the case of bankruptcy, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without delay; if the Policy be not assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

The subscriber begs to remark that the Britannia Company has been doing business in this Province for about ten years—and has been always found liberal and prompt in the settlement of claims.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

THOMAS BRIGGS, Jun.,
Agent at Kingston.

Kingston, Dec. 1st, 1849.

THE BRITISH PERIODICALS AND THE FARMER'S GUIDE.

LEONARD SCOTT & CO.
NO. 54 GOLD ST., NEW YORK.

CONTINUE to publish the four leading British Quarterly Reviews and Blackwood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural work, called the

"*Farmer's Guide to Scientific and Practical Agriculture.*"

By Henry Stephens, F.R.S., of Edinburgh, author of the "*Book of the Farm*" &c. &c., assisted by John P. Norton, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c. &c.

This highly valuable work will comprise two large royal octavo volumes, containing each 1000 pages, with 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c.&c., the various domestic animals in their highest perfection; in short the pictorial feature of the book is unique, and will render it of incalculable value to the student of agriculture.

The work is being published in semi-monthly Numbers, of 64 pages each, exclusive of the steel engravings, and is sold at 25 Cents each, or $5 for the entire work in numbers, of which there will be at least 22.

The British Periodicals to be published are as follows, viz:—

The London Quarterly Review (Conservative.)
The Edinburgh Review (Whig.)
The North British Review (Free-Church.)
The Westminster Review (Liberal.)
AND
Blackwood's Edinburgh Magazine (Tory.)

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. *Blackwood*, still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is at this time unusually attractive from the serial works of Bulwer and other literary notables, written for that magazine and first appearing in its columns both in Great Britain and in the United States. Such works as 'The Caxtons' and 'My New Novel' (both by Bulwer,) 'My Peninsular Medal,' 'The Green Hand,' and other serials, of which numerous rival editions are issued by the leading publishers of this country, have to be re-printed by these publishers from the pages of Blackwood, after it has been issued by Messrs Scott & Co., so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

TERMS.

	Per ann.
For any one of the four Reviews	$3 00
For any two do	5.00
For any three do	7.00
For all four of the Reviews	8 00
For Blackwood's Magazine	3.00
For Blackwood and 3 Reviews	9 00
For Blackwood and the four do	10.00
For Farmer's Guide (complete in 22 Nos.)	5.00

(*Payments to be made in all cases in Advance.*

Money current in the States where issued will be received at par.

☞ Remittances and communications should be always addressed post-paid or franked to the Publishers.

Kingston, January 1, 1851. 1

FIRE! FIRE!

Capital $300,000.

The St. Lawrence Insurance Company Chartered in 1836, continues to insure at as cheap rates as any other sound Company in New York. It insures from five to six millions annually, and presents the following advantages.

1st. Its total rates for five years do not exceed the rates of Stock Companies for two years on farm property.

2d. It does not insure buildings in blocks, nor extra hazardous risks, but ordinary and detached hazards only. In the several towns of Pittsburgh, Watertown, Corning, Port Hope, and Picton lately destroyed, in each of which the Company had agencies, its total losses were less than $1000.

Such facts speak.

3d. The Company is bound by the survey of the agents: and this is printed on all policies.

4th. The total liability of the member is the note, and the company cannot assess beyond that sum, as is the case in most Companies of the State.

5th. The capital of this Company is absolutely unimpaired, as it has laid but one small assessment in FIVE YEARS, and the cash balance in favor of the Company, October 1, over and above all liquidated liabilities was about

$12,000 00

6th. The policy enures from 12 o'clock noon the day the money is *paid* to the agent.

7th. The notes of the members of this Company are not hypothecated to borrow money, but a member can withdraw his note, and cancel his policy when he may please, by paying his share of loss to that date.

8th. The capital of this money is *bona fide*, not got up to answer the requirements of the law of the State by taking enormous notes, on enormously hazardous property, but the notes are on safe property throughout.

This Company has twelve millions of Insurance—three hundred thousand dollars capital; the heavy surplus fund above stated—its risks are well and carefully chosen; and if prudent management, strict economy, small risks, and a large business can save the members from assessment it will be done. This Company regards it as dishonest, and an imposition in any mutual Company to countenance its agents in promising what cannot be fulfilled, but it gives the facts, and parties must be their own judges.

We consider the past a good guarantee for the future. During the past year the Company paid in losses $33,417 39, and its expenses were only $2,125 84 exclusive of the fees to the agency. It includes $300 paid to the Officers, about $600 for passages, and the balance was for printing and other incidental expenses.

N. B. Agents have commissions signed by the Secretary, and parties paying monies will require their production and receipts. The company will not hold itself in any way responsible for the loss of any person not having in its commission.

If the policy be not received, the party must send his receipt to this office in thirty days, and the policy or cash will be returned.

AGENTS, who can prove well recommended for proper age, judgment and character, are wanted to whom liberal inducements are offered. Address the Secretary.

Directors.—Erastus Yates, President.—William Bacon, V. P.—Ira Wheelock, D. Cruikshank, S. Stilwell, J. Walter Wilson, Allen Chaney, W. E. Grant, J. G. Hopkins, Ira Hale, Wm. H. Sterling, J. V. Kent, Royal Niles.

H. G. FOOTE, Secretary.

Ogdensburgh, N. Y., Nov. 1st, 1850.

CHAS. JOHNSTON,
Agent at Kingston.

NOW IN PRESS.

CANADA.

PAST, PRESENT, AND FUTURE;

BEING a Geographical and Statistical Account of Canada West, (formerly Upper Canada,) exhibiting its past history, present condition, and future prospects; showing its resources and capabilities as a great Agricultural and Manufacturing Country, and its relative advantages as contrasted with the other British Colonies and the United States, as a new home for British Emigrants.—Also, contained a particular account of the mineral wealth and other valuable available resources of each District; with an analytical description of the Mining Region of Lake Huron and Superior. The whole compiled from information obtained on each locality, up to the date of publication, by W. H. Smith, Author of the Canadian Gazetteer.

A chapter will be devoted to the special benefit of Emigrants—furnishing them with information concerning the proper measures and precautions to be taken in order to reach the Province in a comfortable and economical manner; with hints as to the readiest and most advisable means of acquiring land on their arrival, &c.

Correct tables of distances from places to places will be added, with extracts from such Provincial Acts as are most generally to be generally known; and a variety of miscellaneous useful matter. The whole forming a complete text book on the subject of Canada for families, a valuable book of reference to men of business, and a guide for the traveller and emigrant.

For the convenience of subscribers, the work will be issued in numbers at 1s. 3d. each, and will be of about double size at 2s. 6d. each and will be completed in about ten parts. Each part will be accompanied by a Map, containing one or more Counties; and a general Map of the Province, compiled expressly for the purpose, will be appended to the work. The Maps will be engraved on copper, in the best style of art, and will contain the latest division of Counties, and all the new settlements in the Province up to the latest dates.

THE WORK WILL BE FORWARDED TO SUBSCRIBERS ONLY.

A complete Business Directory of the Upper Province will be added to the work, being the first ever published in either Province. As the Author and Publisher possess peculiar facilities for collecting the necessary information, that subscribers will have the advantage of receiving this portion of the work without any additional expense.

The first part of the work will be ready for delivery in about a fortnight, and will be supplied to subscribers by the Publisher or Agents.

Local Agents wanted to canvass for the work, to whom liberal encouragement will be given.—Apply personally, or by letter (post-paid) to the Publisher, Toronto.

THOS. MACLEAR,
Publisher, 45 Young Street.

Toronto, October 30, 1850.

BARKER'S COMPOUND SARSAPARILLA PILLS.

For Purifying the Blood, and Strengthening the Digestive Organs, Scorbutic Eruptions, Pimples and Blotches, Rheumatism, Liver Complaints, Indigestion, Bilious Complaints, Asthma, and all diseases which arise from an impure state of the Blood.

THESE PILLS having been in use several years, experience has proved their great superiority over all other preparations of Sarsaparilla now before the public. In consequence of the peculiar virtues of the Sarsaparilla Root, it has been extensively used by the Medical Profession, for a number of years, but it is well known, that all Watery or Liquid Preparations of the Root, very much lose all medicinal qualities, in that state. The only preparation which can be depended upon, is the *Solid Extract*, from which these Pills are prepared, combined with other valuable medicines, and more real benefit will be derived from the use of one box, than from half a dozen bottles of the Syrups or any Preparation in use. They act as powerful *Alterative Tonic*, and a *Mild Aperient*, strengthening the Stomach, and giving vigour and vigor to the system.—They are perfectly safe in their operation, and may be used by the most delicate females and children, and will be found most valuable for any irregularities peculiar to them.

The proprietor has an objection to the system of publishing a list of Cures, as he could furnish a large list of the most respectable persons, who have used these Pills to great advantage. *Try one Box of these Pills, when you will find them to be the best Medicine ever used.*

Prepared and sold in boxes, price 1s. 3d., by

Sheriff's Office,
Kingston, Nov. 20th, 1850. 229

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sell Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more favourable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, to which (and this is nearly a solitary instance) neither Great Britain nor the neighbouring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have made, and it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders then assured.

A peculiar feature of the Company is that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and other information may be obtained at the Head Office and Agencies.

ROBERT L. INNES,
Agent for Kingston.

Kingston, August 13, 1850. 191

DR. F. A. CADWELL

OCULIST AND AURIST,

Operator on the Eye and Ear,

For Deafness, Blindness, and all defects of Sight and Hearing.

THE Advertiser has for the past twelve years, given his whole attention to the treatment and cure of diseases of the *Eye and Ear*, and in that department of his profession, has been very extensively employed in this Province for many years past, with the most desirable success. He therefore most respectfully requests those who are desirous of availing themselves of his services on this occasion that they will do so with as little delay as possible.

Artificial eye inserted without pain, and made to move, and match the sound eye perfectly.

Squinting cured in one minute, with guaranteed success.

Office, No. 5 King Street East, three doors below Yonge Street, over the Drug Store of Robert Love.

☞ Hours of attendance from 9 A. M. to 5 P. M.

Toronto, 7th June 1850. 177

NOTICE.

THE Business of the Kingston Branch of the Colonial Life Assurance Company, will, in future, be conducted at the Office of the Company, in King Street.

WM. GRANT, *Agent.*

Picton Sun and Gazette copy till further notice

TO THE

Artist, the Amateur, the Manufacturer, and all who desire beautiful

WORKS OF ART.

THE Proprietors of the *Art-Journal* persume to recommend that Publication; and direct their attention to the following Prospectus for the year 1851: inasmuch as a New Volume will be commenced in January, and the occasion is favorable for New Subscribers.

Moreover, the *Art-Journal*, during the year 1851, will contain upwards of a Thousand Engravings on Wood, of the rarest, most beautiful, and most suggestive, of the Works of Industry of all Nations, to be exhibited in London, in 1851; comprising the most extensive, and the most perfect, of the Illustrated Catalogues of the Great Collection of the Art of the World.

With the First of January, 1851, will be commenced a new volume of THE ART-JOURNAL, with such improvements as have been suggested by experience, the advanced intelligence of the age, and that augmented power which results from increased prosperity. The circulation of this Journal, during the past year, has approached 18,000 monthly; its conductors are consequently enabled to obtain the co-operation of accomplished writers, and eminent engravers, and to avail themselves of all the advantages which industry and capital may place at their command.

The engravings from pictures by British Artists, composing the Vernon Gallery, will be continued; of these, as heretofore, two will be issued with each number, engraved on steel by the most eminent British engravers. Among the Pictures to appear during the year 1851 are the following:—

The Death of the Stag	Sir E. Landseer, R. A.
The Queen of Hearts	W. F. Witherington, R.A.
Rebekah at the Well	W. Hilton, R.A.
The Cove—Side	F. R. Lee, R.A.
The Meadow	Sir A. W. Calcott, R.A.
The South Sea Bubble	E. M. Ward, R.A.
The Golden Bough	J. M. W. Turner, R.A.
Spaniards & Peruvians	H. P. Briggs, R.A.
Cupid Bound	T. Stothard, R.A.
The Flower Girl	H. Howard, R.A.
The Death of Trafalgar	C. Stanfield, R.A.
Cupid and the Nymphs	W. Etty, R.A.

The Works of Sculpture for the coming year have been selected, for the most part from the artists of the Sculpture of Germany; of these will be engraved the leading works of Professors Rauch, Wichmann, and Kiss, of Berlin; Professor Rietschel, of Dresden; Schwanthaler, Dannecker and Thorwaldsen.

Moreover, His Grace the Duke of Devonshire has been pleased to place at the disposal of the Editor, for engraving in the *Art-Journal*, the whole of his Gallery of Sculpture at Chatsworth.

The Editor has also arranged in Germany for a series of Twenty-four drawings—"Episodes in Life"—drawn expressly for the Art-Journal by Moritz Retzsch; these will be engraved on wood, of large size and in the highest style of Art.

A series of illustrated articles on "Early Costumes," from the pen and pencil of Professor Carl Heideloff, produced expressly for the Art-Journal, the engravings to be on wood.

A series of Twelve drawings of figures representing the "Cardinal Virtues," drawn expressly for the Art-Journal by Professor Moritz of Darmstadt.

A series of selections (of which four will be issued monthly) from the Illustrated Bible of Baron Cotta; the drawings, engraved on wood, by Unzerbuch, Bendemann, &c. &c.

In addition to these, other interesting works are in preparation; among them may be mentioned a series of Lives of the Great Painters, with illustrations of large size, procured from the Proprietors of the "Musée des Peintres," of Paris; a series of Illustrated Articles, exhibiting "the Domestic Habits of the Early English," by T. Wright, F. R. S., and F. W. Fairholt, F. S. A.; a series of original designs for furniture after the models of the middle ages, by Carl Heideloff; the continuation of a "Dictionary of Terms in Art," illustrated; the continued series of Dr. Ure's Papers on the Art-Manufacture of the Ancients; and also those of Mr. Robert Hunt, on the "Application of Science to the Fine and Useful Arts, and various matters, interesting and instructive to the artist, the amateur, the manufacturer, and the public.

Among the authors whose valuable assistance is given to the *Art-Journal*, and whose names the Editor is free to mention, are—Dr Waagen, Mrs. Jameson, Dr. Braun, Dr. Forster, Professor Heideloff, R. Westmacott, Mrs. Merrifield, T. Wright, F. S. A., Robert Hunt, Mrs. S. C. Hall and F. W. Fairholt F. S. A.

To the circle of the Artist; to the library of the Amateur—to the desk of the Student—to the workshop of the Manufacturer—and to the drawing room table of the Admirer of Beautiful Engravings, the ART-JOURNAL is recommended as a companion and counsellor, at once agreeable and instructive—as "ably and impartially conducted" as "stimulating the manufacturer to the production of excellence, and the public to appreciate his improved works"—and as having worked out with "industry, integrity and ability," its high purpose of "supplying to Artists and Amateurs, accurate and useful information upon all subjects in which they are interested, and to the public the means of justly appreciating and estimating the progress of Art both at home and abroad."

The year 1851 will be memorable in the History of the Industrial Arts in Great Britain. "The Exhibition," to be commenced in May, will be of the highest interest to every civilized Nation of the world; it is, above all things, essential that the Exhibition should be properly reported; and this can be done only by a very large number of engravings. The Editor of the ART-JOURNAL has therefore announced his intention to issue, in May, June, and July, Supplementary Parts [at couple numbers,] each Part to consist of at least Fifty-two pages of letter press, and to contain between 200 and 300 engravings, exhibiting the best and most suggestive objects contributed to the Exhibition. This project cannot fail to be received with favor by all subscribers to the work. The Reports thus supplied will become—as a Catalogue of its most beautiful and valuable contents—a permanent record of the Exhibition and a key to the most meritorious manufactures of all parts of the world.

The Volumes, handsomely bound, of the ART-JOURNAL for the years 1849, and 1850, containing each, Twenty-five Line engravings (on Steel) of the Vernon Gallery, Twelve Engravings (on Steel) of Works in Sculpture, about Eight Hundred Engravings on Wood, and Four Hundred pages of Letter-press, may be purchased, each for the sum of Thirty-one shillings and six pence. These volumes therefore contain Fifty Engravings of pictures in the Vernon Gallery, which began with the volume for 1849; when a New Series of the ART-JOURNAL was commenced.

In order to meet the wishes of those who require copies of the Engravings for the purpose of framing, a limited number of proofs and impressions on large paper are issued; for these early application will be necessary, as they are taken only for Subscribers.

Artists' Proofs, Two Guineas each Part (of which only 150 are printed.) These will be signed by the Engraver.

	THE PART
Proofs before letters, India Paper (Of which only 250 are printed.)	£1 1 0
Lettered Proofs, India Paper (Of which only 250 are printed.)	0 10 0

JOHN DUFF,
Agent.

Kingston, January 7th, 1851. 6

To the Sick and Afflicted.

DR. SHERIFF,

RESPECTFULLY informs his friends and the public generally, that he has removed to the Stone dwelling belonging to Mr. F. Donoghue, situated at the west end of Ontario Street, where he is prepared to receive and prescribe for patients afflicted with diseases of long standing. Dr. S. has, during his short residence in the City of Kingston, been the means, through the Land of Providence, of restoring to health over two-hundred individuals, who they had been abandoned as incurable, and considered out of the reach of hope, by their physicians. And he intends for the future, to give his attention only to such cases as may be considered beyond the reach of medical aid from every other source. And he feels confident that he will be enabled as heretofore, to give relief to the majority of such cases as may come under his care. By way of reference, it may not be unfit, at the present time to mention one case that has been successfully treated by Dr. Sheriff, within the last three weeks.—Mr. Henry Learens, a respectable farmer, who resides near the first toll-gate, sent for Dr. S. about three weeks ago. When he went to him he was confined to his bed, in the last stage of Dropsy, and at the same time labouring under a severe affection of the Lungs, from which he had been raising profusely of blood. In this hopeless condition his physician had left him, and said that he could do no more for him. He then commenced taking medicine, under the direction of Dr. S. and in two weeks time was able to ride out. He is now daily attending to the business about his farm as usual.

July 20th, 1850. 170

TO DRUGGIST, &c.

Stock of Drugs, Bottles, and Fittings FOR SALE.

THE Advertiser being about to enter into another line of business, wishes to dispose of his Stock and Fittings. The business has been established some years, and is situated in a large and improving City. Any person with a moderate capital would find this a desirable opportunity to commence business.

For particulars address by letter, post-paid, to A. B., Kingston C. W. Post Office.

Kingston, Sept. 12, 1850. 214

FARM FOR SALE.

FOR SALE on liberal terms a Farm of Land, situated in the Township of Portland, 7th Con., South-half No. 1. There is about 40 Acres improved. A good Log House, and a Frame Barn—36 by 48. Also a small Orchard. Apply to the subscriber in Camden.

BENJ. M. CARSCALLEN.

Camden, Nov. 15, 1850. 269

To Sell or Rent.

A FARM in the Newcastle District of first quality, 45 acres, under crop, and 50 woodland,—it is well watered, in good order, and has a comfortable House, Barn, Stables, &c. If Cash was not paid one quarter would be accepted down, and the balance covering 10 years, at interest; or the Farm would be leased on easy terms. Apply to Dr. Barker, *Whig* office, Kingston, C. W., if by letter post paid.

Kingston, May 6, 1850. 105
