NOTICE

To whom it may concern:

Reports are being circulated that I am at present and have been in the past, receiving assistance from the government through the Old Age Pension Act. This report is a malicious slander against me, as I have never put in an application for such help, and furthermore do not need it I request that such lies be stopped at once.

Women's Institutes as an Educator

Twelve hundred Women's Institutes in the Province usually give some consideration, during March and April, to formulating a program for next year. The Institute year ends in April, and the educational program for the following twelve months is usually completed in May, or early in June, printed copies being placed in the hands of the members. The general practice is to have an address, paper, or demonstrator of real practical value to the housewife, at each meeting. Most branches aim to have something to hear, something to see, or something to do for all concerned at these gatherings. The following is a good example of one such meeting:

Motto—The Doors of Opportunity are marked "Push and Pull."

Roll Call—"A Canadian Product, Where Found and Used."

Canadian Vegetables — Ways to Serve.

Canadian Apples versus Imported Fruit.

Discussion and Recipes.

Paper—"Famous Canadian Women."

Two Humorous Recitations.

Community Singing.

Social half-hour with afternoon tea at the close.

The opportunity to hear from women of experience of methods which have proven effective, and to take in the discussions, have added materially to the efficiency of country women in the housing, clothing and nutrition of the family.

Where the Department of Agriculture supplements the efforts of local groups with literature on foods, health etc., and provides instructors for Short Courses, it will readily be seen that the Institutes are of real educational value to the rural women and girls.
