BRITANNIA LIFE ASSURANCE COMPANY.

No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT, 4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death.—The rates of the Britannia are the lowest which can be offered consistently with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the annexed Table of Rates, specimens of which may be seen at his office, or in the Montreal Herald, Montreal Gazette, and Montreal Courier as also in several papers in Canada West.

Assurances may be advantageously effected on the lives of others, either for the purpose of securing loans, or debts or in case where the party has an interest in the life of another, so as to be in any way prejudiced in the event of his decease. To creditors, a Policy of Assurance affords a certain and, in many cases, the only means of security. Also in addition to the published rates, an extensive set of Tables has been computed for Assurance on Joint Lives, the survivor of two or more lives, and for contingent Assurances; also for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency of having human life, against which it may be prudent or expedient to provide.

COMPARATIVE STATEMENT OF THE RATES OF THE FOLLOWING OFFICES:

Rate for one year, (whole of Life) for the Assurance of £100:

National Loan Fund	age 30	£2	4	4
Colonial Life Assurance Com'y	do	2	5	2
United Kingdom	do	2	3	10
British Commercial	do	2	1	10
Mentor	do	2	1	9
Britannia	do	2	0	8

The other Offices doing business in the Colonies are much higher, that comparison is unnecessary.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds, Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may claim for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable investment to the person wishing to Assure.

All claims payable within three months after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, cannot under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not protected void in case of death by shooting at the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy is not assigned the full amount of Premium received thereon will be returned to the family of the Assured.

The subscriber begs to remark that the Britannia Company has been doing business in this Province for about ten years—and has been always found liberal, and prompt in the settlement of claims.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

THE BRITISH PERIODICALS

AND THE

FARMER'S GUIDE.

LEONARD SCOTT & CO

No. 54 GOLD ST., NEW YORK.

CONTINUE to publish the four leading British Quarterly Reviews and Blackwood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural work, called the

"Farmer's Guide to Scientific and Practical Agriculture."

By Henry Stephens, F.R.S. of Edinburgh, author of the "Book of the Farm," &c. &c. assisted by John P. Norton, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c. &c.

This highly valuable work will comprise two large royal octavo volumes containing over 1400 pages, with 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c. &c., the various domestic animals in their highest perfection; in short the pictorial feature of the work is unique, and will render it of incalculable value to the student of agriculture.

The work is being published in semi-monthly Numbers, of 64 pages each, exclusive of the steel engravings, and is sold at 25 Cents each, or $5 for the entire work in numbers, of which there will be at least 22.

The British Periodicals to be published are as follows, viz.—

The London Quarterly Review (Conservative.)
The Edinburgh Review (Whig.)
The North British Review (Free-Church)
The Westminster Review (Liberal.)

AND

Blackwood's Edinburgh Magazine (Tory.)

Although these works are distinguished by the political shades shown indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. Blackwood, still under the masterly guidance of Christopher North, maintains its unrivalled celebrity, and is at this time unusually attractive from the serial works of Bulwer and other literary notables, written for that magazine and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxtons" and "My Novel" (both by Bulwer) "My Farmer's Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers of this country, have to be republished by these publishers from the pages of Blackwood, after it has been issued by Leonard Scott & Co., so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

FIRE! FIRE!

Capital $30,000.

The St. Lawrence Insurance Company Chartered in 1838, continues to insure at as cheap rates as any other sound Company in New York. It insures from five to ten millions annually, and presents the following advantages.

1st. Its small rates for five years do not exceed the rates of Stock Companies for two years on farm property.

2d. It does not insure buildings in blocks, nor extra hazardous risks, but ordinary and detached hazards only. In the special towns of Plattsburgh, Watertown, Canning, Port Hope, and Picton lately destroyed, in each of which the Company had agencies, its total losses were less than $700.

Such facts speak.

3d. The Company is bound by the survey of the agents; and this is printed on all policies.

4th. The total liability of the member in the note, and the company cannot assess beyond that sum, as is the case in most Companies of the State.

5th. The capital of this Company is almost wholly unimpaired, as it has had but one small assessment in FIVE YEARS, and the cash balance in favor of the Company, October 1, over and above all liquidated liabilities was about $12,000.00

6th. The policy covers for from 12 o'clock noon the day the money is paid to the agent.

7th. The notes of the members of this Company are not hypothecated to borrow money, but a member can withdraw his note, and cancel his policy when he may please, by paying his share of loss to that date.

8th. The capital of this company is bona fide, not got up to answer the requirements of the law of the State by taking over-valued notes on encumbered property, but the notes are on safe property throughout.

This Company has twelve millions of Insurance—three hundred thousand dollars capital; the heavy surplus fund above stated—its risks are well and carefully chosen; and of prudent management, strict economy, small risks, and a large business can give the members from assessment it will be done. This Company regards it an honest, and an imposition in any mutual Company to commence on its agents in promising what cannot be performed, but it gives the facts, and patrons must be their own judges.

We consider the past a good guarantee for the future. During the past year the Company paid in losses $32,417 39, and its expenses were only $2 105 84 exclusive of the fees to the agency, it includes $300 paid to the Officers, about $600 for postages, and the balance was for printing and other incidental expenses.

N. B. Agents have commissions signed by the Secretary, and parties paying monies will require their production and receipts. The company will not hold itself in any way responsible for the acts of any person not having in its possession.

When policy is not received, the party must wait his receipt to this office in thirty days, and the policy in each will be returned.

AGENTS, who can come well recommended for proper age, judgment and character, are wanted to whom liberal commissions are offered. Address the Secretary.

Directors.—Preston Thos. President.—Wm Van Rensselaer, V. P.—Ira Wheelock, D. Crocker, S. Sidwell, J. Walter Winne, Alex Chaney, Wm F. Grant, J. G. Hopkins, Jas Hale, Wm. R. Stirling, J. V. Ketz, Royal Vibbs.

BARKER'S

COMPOUND SARSAPARILLA PILLS.

For Purifying the Blood, and Strengthening the Digestive Organs. Scrofulous Humours, Pimples and Blotches, Rheumatism, Liver Complaints, Indigestion, Bilious Complaints, Asthma, and all diseases which arise from an impure state of the Blood.

THESE PILLS having been in use several years, experience has proved their great superiority over all other preparations of Sarsaparilla now before the public. In consequence of the peculiar nature of the Sarsaparilla Root, it has been exclusively used by the Medical Profession for a number of years, but it is now known, that all Watery or liquid Preparations of the Root, very soon lose all medicinal qualities, in that state. The only preparation which can be depended upon, is the Solid Extract, from which these Pills are prepared, combined with other valuable medicines and more use, benefit will be derived from the use of one box, than from half a dozen bottles of the Syrups or any Preparation in use. They act as powerful Alterative Tonic, and a Mild Aperient, strengthening the Stomach, and giving warmth and vigor to the system.—They are perfectly safe in their operation, and may be used by the most delicate females and children, and will be found most valuable for any complaints peculiar to them.

The proprietor has an objection to the system of publishing a list of Cures, or he could furnish a large list of the most respectable persons, who have used these Pills to great advantage. Try one Box of these Pills, when you will find them to be the best Medicine ever used.

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sell Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more favourable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which case this is nearly a solitary instance, neither Great Britain nor the neighbouring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly to represent the value of such payments as they may have made, and at further compute to purchase policies for a reasonable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits of the Mutual Branch are yearly divided among the policy holders thereon.

A peculiar feature of the Company is that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and other information may be obtained at Head Office and Agencies.

Artist, the Amateur, the Manufacturer, and all who desire beautiful

WORKS OF ART.

THE Proprietors of the Art Journal presume to recommend that Publication; and direct their attention to the following Prospectus for the year 1851: inasmuch as a New Volume will be commenced in January, and the occasion is favorable for New Subscribers.

Moreover, the Art Journal, during the year 1851, will contain upwards of a Thousand Engravings on Wood, of the much and best-liked, and most appreciated, of the Works of Industry of all Nations, to be exhibited in London, in 1851: comprising the most extensive, and the most perfect, of the Illustrated Catalogues of the Great Collection of the Art of the World.

With the First of January, 1851, will be commenced a new volume of Due Art Journal, with such improvements as have been suggested by experience, the advanced intelligence of the age, and that augmented power which time has given to extend prosperity. The second volume of this Journal, during the past year, has appeared [illegible] monthly; its works have continuously evinced to subscribers the energy and [illegible] and eminent engravers, and [illegible] of all the advantages [illegible] and [illegible] of the Art-Journal.

To be abreast of the Artist—to the library of the Amateur—to the desk of the Student—to the workshop of the Manufacturer—and to the evening room table of the Admirer of Beautiful Engravings, the Art-Journal is recommended as a companion and counsellor, at once agreeable and instructive—as a valuable and inexhaustible stimulating the new—assistant to the production of excellence, and the public to appreciate his improved works—and as a work [illegible] with the industry, integrity and [illegible] the high purpose of supplying to Artists and Amateurs accurate and useful information upon all subjects in which they are interested, and to the public the means of fairly acquainting and [illegible] the progress of Art in their home and abroad."

The year 1851 will be memorable in the History of the Industrial Arts in Great Britain. "The Exhibition," to be commenced in May, will be of the highest interest to every civilized Nation of the world; it is, above all things, essential that the Exhibition should be properly reported; and this can be done only by a very large number of engravings. The Editor of the Art Journal has therefore determined to commence, in May, June, and July (supplementary Parts for double numbers) each Part to consist of at least Fifty-two pages of letter press, and to contain between 250 and 300 engravings, exhibiting the best and most suggestive objects contributed to the Exhibition. This project cannot fail to be received with favor by all subscribers to the work. The Volumes, handsomely bound, of the Art-Journal for the years 1849 and 1850, containing each, Twenty-five Line engravings (on Steel) of the Vernon Gallery, Twelve Engravings (on Steel) of Works in Sculpture, about Eight Hundred Engravings on Wood, and Four Hundred pages of Letter-press, may be purchased, each for the sum of Thirty-five shillings and six pence. In order to meet the wishes of those who require copies of the engravings for the purpose of framing, a limited number of proofs and impressions on large paper are issued; but the supply is very limited, and to avoid disappointment, it is necessary to order in advance.
