New sort of a brake is out that will stop a car going 65 miles an hour in 20 feet. A telephone post will do it in less than that.

Considerable work has to be done on the back roads in the townships in this district this year. They were considerably cut up in the fall and the spring thaw has made the ruts still deeper.

Man Killed At Ivy

William Edward Lennox, well-known farmer residing at Ivy, met a tragic death shortly before noon yesterday when the fly wheel attached to the shaft of a wood cutting machine burst into numerous pieces striking the unfortunate man and practically sheering off the top of his head. Death took place before medical assistance could be rendered. No inquest is considered necessary. Deceased was in his 70th year. The accident took place at a wood cutting bee on the farm of Ernest Tuck, formerly owned by John Kewan, and located a mile and a half from Ivy on the eighth line of Essa Township. About a dozen men were engaged in sawing wood with a buzz-saw, when, without warning the belt flew off the engine letting the machine run away The fly wheel attached to the shaft thereupon burst, and scattered far and wide.

Although none of the others gathered around the machine were struck they had a miraculous escape from the fate which befell the late Mr. Lennox.—Creemore Star.

Lost Money Returned

Mr. Frank Pedlar found two ten-dollar bills in his barnyard the other day. He hunted up Mr. Fred Pedlar whom he was suspicious had dropped the money and discovered that his suspicions were correct and Fred was mightily pleased to have his ten spots returned. He now swears by Frank's honesty.

In the ropt r of the death of Mrs. F. G. Karstedt in last issue the name of Dr. E. C. Murray appeared as taking part in a trio. This should have read Mr. R. G. Holland.

SUMMER HOLIDAYS CUT

Starting this year, the High Schools of Ontario will open the 1st day of September, a recent bulletin from the Department of Education reads. Ordinarily the schools resume their classes on the day following Labor Day, which comes on the first Monday of the month. The edict means that this year, instead of returning to school on Tuesday, Sept. 6th, as they ordinarily would do, the pupils return to classes Thursday, Sept. 1st. Labor Day on Sept. 5th is a holiday as usual

A PICTURE OF WAR

General Currie, speaking recently on the question of disarmament, said: "Let me give you one picture of war, a memory I carry from the battle of Amiens. That battle was a great victory. It was perhaps the greatest triumph we had. Our troops went into it fit and healthy, high-spirited and well-trained. We had plenty of artillery, we had plenty of tanks. The Germans were completely surprised and thoroughly beaten. At the end of the day I was asked to go back to a casualty clearing station. I was told that something was wrong. I went back. And there I saw the aftermath of victory. Something was indeed wrong. The extraordinary secrecy of the movement had somehow hampered the Army medical services. I saw ambulance after ambulance full of woonded men, some shrieking, some groaning, some dying, some dead, some just suffering in patience, waiting to get to the hospital gate. Inside the doors of the building used as a hospital, its windows boarded up tight so that no light would reveal its position to enemy aircraft, the fumes of acetylene gas from the lamps the terrible smell of gas gangrene from some of the wounds, the sickening odor of ether, the white faces of the worn-out nurses, the blood-stained hands of the doctors, who had to work as fast as butchers—only to save and not to kill—made a scene of horror that I can never forget. And the next time war comes that is what we will see in our peaceful cities, and the doctors and the wooden operating tables will be our doctors and our office tables, and the blood will be the blood of our wives and our children.

You say that is impossible—that it could not happen. It may be impossible to-day, but it will happen to-morrow, unless the viewpoint of humanity is changed. I do not need to remind you of our nearness to scientific developments which will make our inmost cities as vulnerable as was the city of Rheims when it came under the fire of German guns."

Given D.D. Degree

The New Outlook of this week gives the following news item, which will be of interest to many of our readers:- "The Rev. J. S. Miller of Winnipeg, and Rev. S. D. Gaudin of our Indian Mission at Cross Lake, Manitoba, received the degree of Doctor of Divinity from the United Colleges, Winnipeg." The Free Press in commenting on it says, "Mr. Gaudin, who has been chairman of the Lake Winnipeg district under the United Church of Canada, has for over 40 years acted as missionary among the Cree Indians in the North. He covers the entire district from Norway House to Island Lake." Mr. Gaudin spent two weeks in Flesherton last summer, the guest of his sister, Mrs. W. H. Thurston, accompanied by Mrs. Gaudin and daughter, Esther.

$40 profit from one Telephone Call

The local dealer had offered Jim Ross a price for his fat steers, but Jim was canny. He thought he ought to get a better price.

So he telephoned in to the stockyards — and found that beef had gone up two cents. He took his steers in that day and made $40 extra profit. The telephone call cost him 35 cents.

No wonder Jim said to his wife that night when he got home for a late supper: *"It's lucky we've kept our telephone."*
