McKean--Smith

On Wednesday, Feb. 16, a very pretty wedding took place at the home of the bride's parents, Mr. and Mrs. Wm. Smith, 10th con., Osprey township, when their fourth daughter, Frances, was married to Mr. E. A. McKean of Kolapore, Collingwood township, son of the late Mr. Arch McKean of Pasadena, California. Rev. Mr. O'Neil of Ravenna performed the ceremony. Mrs. Thompson, aunt of the bride, played the Wedding March.

The bride, who was given away by her father, was charmingly attired in a pretty gown of white silk trimmed with alover lace and insertion and wore a wreath of lily of the valley in her hair. The bridesmaid, Miss Belna Davidson, wore a very pretty gown of pale blue delaine, and pretty little Miss Lola Smith, sister of the bride, acted as flower girl and carried a bouquet of red and white roses.

After the ceremony the party adjourned to the dining room, where a sumptuous repast was enjoyed amid beautiful floral decorations. The bride was the recipient of many beautiful and useful presents, showing the esteem in which she is held. The groom was ably supported by Mr. James Smith, brother of the bride. The groom's gift to the bride was a beautiful fur-lined coat with persian lamb trimmings; to the bridesmaid a gold locket and chain; to the flower girl a gold ring, and to the best man a gold locket.

The bride's going-away suit was of brown ladies' cloth with Alice blue hat trimmed with large plumes. The happy couple left for a trip to Buffalo and other points. The heartiest good wishes go with the happy couple over the sea of matrimony.

S. J. Brown of Laurel discovered 19 gold nuggets in his piggery last week. His improved Yorkshire sow gave birth to the remarkably large litter of 19 wee grunters. Such a feat is noteworthy and the sow should receive a reward for her pains. Mr. Brown would like to know if anyone has a sow that can compete with his.—Orangeville Post.

An Artemesia Boy Prospers

[From the Lincoln Co. (Wash.) Times]

W. G. Duncan, farmer, merchant and postmaster of Egypt, Washington, is a native of eastern Ontario, born and raised on a farm 84 miles west of Toronto, Canada. Having at an early age acquired a desire for pioneer life, he journeyed west to the state (or then territory) of Washington, arriving in Spokane in the spring of 1884, leaving his family of a wife and three children in the east until the following fall. After thoroughly inspecting the county he located his present homestead where he still lives, on July 4th, 1884. Having come here with limited means he had to combat with all the ups and downs of western pioneer life, and had for a time to work at day labor for money to care for his family and improve his homestead. Especially in the panic of 1893 to 1896 was he compelled to haul cordwood to Davenport to make a livelihood for the family. Having lost nearly everything he was unable to seed what land he was handling in 1896, and summer fallowed about 200 acres, when the big crops of 1897 brought him out with a few hundred ahead.

In the spring of 1899 he purchased the general merchandise store of Moore Bros. at Egypt, starting with a small stock, and continued to enlarge until he now carries a complete line of goods usually found in a general store. He has been postmaster since buying the store, and has been identified in church and school work ever since coming to this county, having served on the school board in Dist. No. 16 twenty-one years.

About one year ago Mr. Duncan was visited with one of the most severe losses that falls to the lot of man in the loss by death af his wife.

Mr. Duncan now owns 3¼ sections of land, has it rented out, and with the help of his five children continues to operate the store successfully.

That the newspapers and the authorities have succeeded in instilling a thorough fear of dogs and rabies into the mind of the people was seen the other day when two men were running up Yonge street and entered a store where they stated that a mad dog was in pursuit of them. The store keeper peeped out of his glass door and beheld a little black poodle sitting outside, who complacently wagged its tail, but was anxious to find a home somewhere.—North Toronto Progress.

Does the finished animal pay the farmer? is an undecided question among some of those interested. The experience of T. H. Hamilton of Monticello is so encouraging that others might profit. Less than a year ago he bought a pair of steers for $90. After letting them run on the grass, he finished them off in the stable, and last week Arthur Rounding bought them at 6c. a lb., giving him a cheque for $189.60. Looks like there was money in it.—Grand Valley Star.

A Durham Surprise Party

Mr. Hugh McCrae was taken by surprise last week when the dray drove up to his door very unceremoniously, and left off an article of furniture shipped from Toronto, and bearing his name and address. Mrs. McRae objected to the delivery of the goods, but the drayman assured her it was all right. When Mr. McCrae came home from work, he too, was at a loss to know what it all meant, and proceeded to investigate. He unpacked the article, and found it contained a beautiful hall seat in quarter cut oak, artistically finished in what is known as early English style. It was just the kind of article Mr. McCrae intended purchasing, and he felt tickled more than ever when he thought he had been relieved from making the investment, and especially so, since the article now in his possession was much better than he himself would have purchased. It was not for some time that Mr. McCrae learned that the beautiful piece of furniture was a gift from his friends in the Methodist church, as a token of appreciation for the valuable services he rendered them as leader of the choir, from which he had recently resigned.—Durham Chronicle.

Catarrh and Bronchitis

The Bane of Thousands, and has Hitherto Baffled the Skill of Medical Science.

Catarrhozone

Dry air treatment is the one treatment that will cure these diseases.

What stomach medicine has ever been known to cure Catarrh or Bronchitis?

Catarrhozone is not a stomach medicine, but an air medicine, that carries to the remotest parts of the throat lungs, and air cells little drops of healing so curative that whenever it touches germ life it kills and eradicates them from the system.

Thousands of doctors and patients have been disappointed by using stomach medicines for coughs and colds. Have you not found it a rather roundabout way to reach the diseased portion of the throat and lungs?

Why not use Catarrhozone, which is breathed to the very root of the disease and heals so quickly and perfectly that every spot is rebuilt with new healthy tissue?

Catarrhozone is the only medicine that will cure. Thousands have testified.

Think for a moment. Is it not sense? Little drops of healing—the air carries them just where disease exists That is why
