## Ceylon

Another of the old residents and pioneers of Artemesia has passed away to her long home in the person of Mrs. Alex. McRae, Sr., who was interred in Priceville cemetery on Monday, 11th inst. She had reached the ripe age of eighty years and leaves behind to lament her loss one son and four daughters, all of whom attended the funeral except her son, Duncan, who resides in New Ontario, and who found it impossible to reach home in time. During her illness she had the loving attendance of her two daughters, who reside in the village. Two of her sons, Adam and Donald Muir, and a daughter, Mrs. Kyle, predeceased her. The daughters are Mrs. W. Burnet, Flesherton; Mrs. John McFadden and Mrs. Alex. McFadden, Ceylon, and Mrs. Walter Murdoch, Caledon. The deceased lady was born in Scotland and came to Canada in the year of her birth with her parents, who settled in Vaughan township. In 1850 she was married to Wm. Muir, and after about four years of residence near London, Ont., they came to Artemesia in 1853, where she has remained ever since. She Married Mr. McRae in 1878.

The many friends and old neighbors of Mr. and Mrs. Wm. Reid were shocked to hear of the latter's death, which took place at their home in Flesherton last Tuesday. Four head of cattle belonging to a farmer named McIlwain, who lives near Connor, were shot on Saturday, having developed the dread disease, rabies. Some time before a stray collie wandered into the McIlwain property and soon afterwards showed signs of madness and was destroyed. In the meantime, however, seven cattle and a couple of McIlwain's colts had been bitten and on Saturday four of the cattle exhibited unmistakable evidence of rabies. The other cattle and colts that were exposed to infection were tied up, but it is likely some of them will develop the dread disease. The farmers of the neighborhood are very much concerned over the outbreak and every precaution is being taken against the disease spreading.—Alliston Herald.

During 1909 three of the largest milling companies in Canada either increased their dividends or gave cash bonuses to their shareholders. There has also been a "merger" of cereal companies. All these actions show that the milling industry is a particularly healthy one, and the public who have their money invested in such concern need have no fears regarding their dividends.

A Mt. Forest girl tried to skate down cellar on roller skates. She was taken to the hospital.

## Maxwell

The choir will render special music Sunday night at the Methodist church.

Mr. Wm. Gay is receiving many congratulations from many friends. On Tuesday he celebrated his 84th birthday. He enjoys fair health and is quite active for a man of his years.

The English Church is holding a concert in the Orange hall on Friday evening next. Everyone come.

Many admired the flowers that adorned the Methodist pulpit Sunday evening, especially Miss Heron's double yellow daffodil. We wonder why some of our villagers, many having beautiful plants, don't brighten the church with their flowers every Sabbath.

Miss Maudie Juhan of Feversham has taken a position as clerk in Mr. Osborne's store.

A very sad accident occurred to the year old son of Mr. and Mrs. Hilliard. The little fellow in some way pulled a pot of boiling water over himself. One leg is badly scalded.

## Priceville

The last "bargain lot" of winter weather has passed away, and farmers are busy seeding again.

The fall wheat fields look nice and green ever since they threw off their winter coat and have been enjoying the sunshine and balmy weather.

Thos. Nichol, of the western suburbs, sowed his wheat on April first, but we learn that Geo. McRae, further north in Glenelg, sowed one week earlier, March 23.

Donald McKinnon secured a permit to teach the Irish Lake school, beginning after Easter holidays.

Halley's comet has appeared and is blamed by some people for the peculiar weather we are getting this season. Can it be possible that the comet affects men's heads also? About two weeks ago several young farmers and others were in town, and talked and acted rather peculiarly, while a mail carrier or postmaster from the country succeeded in getting His Majesty's mail loaded on the vehicle, and made three or four attempts to drive out of town, but turned every time and tied his horse again. When the comet sank below the horizon he managed to move for home. It may be that there are more "comets" than one in the vicinity. If Halbert's telescope had been within range at the time some important observations might have been recorded.

The executors of the Reiley estate held a successful auction sale on the 5th.

Otto Konold, has been shipping a car of fat stock every Tuesday for several months back, and as a buyer seems to be very popular with the farmers.

## "PILLS LIKE A FILE"

**So Harsh and Drastic are Many Pills as to Seriously Injure Health.**

In a letter written from his home in Valencia, Mr. Marsh Selwyn does service to thousands by drawing attention to the injuries inflicted upon delicate people by drastic purgative pills.

"For a long time I suffered from constipation. This condition compelled the use of pills. Like many another, I made the unwise choice of using pills that were like lightning in their activity. I began to be filled with intestinal disturbances, constant rumblings, gas in the bowels and diarrhoea. I grew pale and emaciated. Then the doctor told me drastic irritating pills had caused catarrh of the bowels, an almost incurable disease. Explaining my situation to a friend, he advised a trial of Dr. Hamilton's Pills. I speedily experienced the healing and curative effect they exert on the stomach, liver and bowels. The intestines, freed from irritating drugs, rapidly regained natural tone, the bowels acted as if nature and not Dr. Hamilton's Pills were at work. I know it will be of value to thousands to know that a pill as mild and curative as Dr. Hamilton's is available to the ailing."

For bowel disorders, sick headache, constipation, liver and stomach derangement, there is no pill so invariably sure to cure as Dr. Hamilton's Pills. Refuse a substitute. Sold in 25c boxes, all dealers, or The Catarrhozone Co., Kingston, Ont.
