BRITANNIA LIFE ASSURANCE COMPANY,

No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 8.

THE great increase of this Institution in Europe and the American Colonies, based on the ADVICE of Actuaries in Offices, evidently shew that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts that by so to them in case of premature death.—The rates of the Britannia are the lowest which can be offered consistently with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office, or in the Montreal Herald, Montreal Gazette, and Montreal Courier—as also in several papers in Upper Canada West.

Assurances may be advantageously effected on the lives of others, either for the purpose of securing loans, or debts or in case where the party has an interest in the life of another, so as to be in any way prejudiced in the event of his decease. By confining a Policy of Assurance affords a certain and, in many cases, the only means of securing. Also in addition to the published rates, an extensive set of Tables has been compiled for Assurance on Joint Lives, the survivor of two or more lives, and for continuous Assurances; also, for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency affecting human life, against which it may be expedient to provide.

COMPARATIVE STATEMENT OF THE RATES OF THE FOLLOWING OFFICES:

Rate for one year, (which is Life) for the Assurance of £100;

National Loan Fund	age 30	£2	4 4
Colonial Life Assurance Com'y do		2	3 2
United Kingdom	do	2	3 10
British Commercial	do	2	1 10
Equitable	do	2	1 9
Britannia	do	2	0 8

The other Offices doing business in the Colonies are as much higher, that comparison is unnecessary.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling per Annum, and of this the greater part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may draw for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an considerable Bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable investment to the person wishing to Assure.

All claims payable within THREE MONTHS after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being in every case, admitted in the Policy, except, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not vacated and in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

The subscriber begs to remark that the Britannia Company has been doing business in this Province for about ten years—and has been always found liberal, and prompt in the settlement of claims.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

THE BRITISH PERIODICALS AND THE FARMER'S GUIDE.

LEONARD SCOTT & CO.
No. 54 GOLD ST., NEW YORK.

CONTINUE to publish the four leading British Quarterly Reviews and Blackwood's Magazine, in addition to which they have recently commenced the publication of a valuable Agricultural work, called the

"Farmer's Guide to Scientific and Practical Agriculture,"

By Henry Stephens, F.R.S., of Edinburgh, author of the "Book of the Farm," &c. &c., assisted by John P. Norton, M.A., New Haven, Professor of Scientific Agriculture in Yale College, &c. &c.

This highly valuable work will comprise two large royal octavo volumes containing over 1400 pages, with 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, hoeing, harvesting, &c. &c., the various domestic animals in their highest perfection; in short the practical features of the book in unique, and will render it of incalculable value to the students of agriculture.

The work is being published in semi-monthly Numbers, of 64 pages each, exclusive of the engravings, & and is sold at 25 Cents each, or $5 for the entire work in numbers, of which there will be at least 20.

The British Periodicals are published as follows, viz.—

The London Quarterly Review (Conservative.)
The Edinburgh Review (Whig.)
The North British Review (Free-Church.)
The Westminster Review (Liberal.)
AND
Blackwood's Edinburgh Magazine (Tory.)

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other periodicals of their class. Blackwood, still under the ministry guidance of Christopher North, maintains its ancient celebrity, and at the same time unceasingly abstracting from the ever-whole of Science and other literary wealth, which for this magazine and first appearing in its columns both on Great Britain and in the United States. Such works as "The Caxtons" and "My Novel" (both by Bulwer,) "My Peninsular Medal," "Tom Cringle's Log," and other serials, of which numerous reprint editions are issued by the leading publishers of this country, have to be re-produced by these publishers from the pages of Blackwood, after it has been issued by Leonard Scott & Co., so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these interesting tales.

FIRE! FIRE!

Capital $30,000.

The St. Lawrence Insurance Company Chartered in 1836, continue to insure at as cheap rates as any other sound Company in New York. It insures from fire to one and three quarters, and presents the following advantages.

1st. Its total gains for five years do not exceed the rates of Stock Companies for two years on farm property.

2d. It does not insure buildings in blocks, manufacturing trades, but ordinary and detached hazards only. In the several towns of Pittsburgh, Watertown, Corning, Fort Brady, and Fulton lately destroyed, in each of which the Company had agencies, on total losses were less than $1000.

Such facts speak.

3d. The Company is bound by the survey of its agents; and this is printed on all policies.

4th. The total liability of the member in the state, and the company cannot assess beyond that sum, as is the case in most Companies of the State.

5th. The capital of this Company is almost wholly unimpaired, as it has had but one small assessment in FIVE YEARS, and the cash balance in favor of the Company, October 1, 1850 and above all liabilities included was about $12,000.00

6th. The policy covers loss from 12 o'clock noon the day the money is paid to the agent.

7th. The rates of the members of this Company are never heightened to borrow money, but a member can withdraw his note, and cease his policy when he may please, by paying his share of loss to that date.

8th. The capital of this company is bona fide, not got up to evade the requirements of the law of the State by taking enormous rates, on encumbered property, but the rates are on such property throughout.

This Company has twelve millions of Insurance—three hundred thousand dollars capital; the heavy surplus fund above stated—its risks are well and carefully chosen; and it produces unexpensive, most economy, small risks, and a large business can save the members from assessment it will be seen. This Company regards it as dishonest, and an imposition in any mutual Company to commission its agents in promising what cannot be foreseen, but it gives the facts, and parties must be their own judges.

We combine the past a good guarantee for the future. During the past year the Company paid in losses $33,417 36, and its expenses were only $2,125 94 exclusive of the fees to the agency, & includes $300 paid to the Officers, about $300 for postages, and the balance was for printing and other incidental expenses.

N. B. Agents have commissions signed by the Secretary, and persons paying premiums will require their production and receipts. The company will not hold itself in any way responsible for the acts of any person not having in its commission.

If the policy be not received, the party must mail his receipt to this office in thirty days, and the policy or cash will be returned.

AGENTS, who can come well recommended for proper age, judgment and character, are wanted to whom liberal inducements are offered. Address the Secretary.

Directors.—Duncan Ullman, President.—Wm Sutton, V. P.—Jas Whitlock, B. Chittenden, S. Cornwall, Jr. Walter Wilson, Allen Cheney, W. E. Green, J. G. Hopkins, Jas Hale, Wm. K. Strong, J. F. Kane, Regal Ulman.

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sell Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more favourable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which (as this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have made, and it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Annual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.

TO THE

Artist, the Amateur, the Manufacturer, and all who desire beautiful

WORKS OF ART.

THE Proprietors of the *Art Journal* persume to recommend that Publication; and direct their attention to the following Prospectus for the year 1851: inasmuch as a New Volume will be commenced in January, and the occasion is favorable for New Subscribers.

Moreover, the *Art-Journal*, during the year 1851, will contain upwards of a Thousand Engravings on Wood, of the rarest, most beautiful, and most suggestive, of the Works of Industry of all Nations, to be exhibited in London, in 1851: comprising the most extensive, and the most perfect, of the Illustrated Catalogues of the Great Collection of the Art of the World.

With the First of January, 1851, will be commenced a new volume of THE ART-JOURNAL with such improvements as have been suggested by experience, the advanced intelligence of the age, and that augmented power which results from increased prosperity. The circulation of this Journal, during the past year, has approached 18,000 monthly: its conductors are consequently enabled to obtain the co-operation of accomplished writers and eminent engravers, and to avail themselves of all the advantages which industry and capital may place at their command.

The engravings from pictures by British Artists comprising the Vernon Gallery, will be continued; of these, as heretofore, two will be issued with each month, engraved on steel by the most eminent British engravers. Among the Pictures to appear during the year 1851 are the following:—

The Death of the Stag.	Sir E. Landseer, R. A
The Crown of Hope	W. F. W. Shakspeare, R.A
Rebekah at the Well	W. Hilton, R.A.
The Cove—Sole	F. R. Lee, R.A.
The Meadow	Sir A. W. Calcott, R.A
The South Sea Bubble.	E. M. Ward, R.A.
The Golden Bough	J. M. W. Turner, R.A.
Spaniards & Peasants	H. P. Briggs, R.A.
Capel Bleaud	T. Stothard, R.A.
The Flower Girl	H. Howard, R.A.
The Battle of Trafalgar	C. Stanfield, R.A.
Cupid and the Nymphs.	W. Etty, R.A.

The Works of Sculpture for the ensuing year have been selected, for the most part from the ateliers of the Sculptors at Germany; of these will be engraved the leading works of Professors Rauch, Wichmann and Kiss, of Berlin; Professor Rietschel of Dresden; Schwanthaler, Dannecker and Thorwaldsen.

Moreover, His Grace the Duke of Devonshire has been pleased to place at the disposal of the Editor, for engraving in the *Art-Journal*, the whole of his Gallery of Sculpture at Chatsworth.

The Editor has also arranged in Germany for a series of Twenty-four drawings on "Romeo in Love"—drawn expressly for the Art-Journal by Moritz Retzsch: these will be engraved on wood, of large size and in the highest style of Art.

A series of illustrated articles on "Early Costume," from the pen and pencil of Professor Carl Heideloff, published expressly for the Art-Journal, the engravings to be on wood.

A series of Twelve drawings of figures representing the "Cardinal Virtues," drawn expressly for the Art-Journal by Professor Muche of Dusseldorf.

A series of selections (of which four will be issued monthly) from the Illustrated Bible of Raphael Cartoons: the drawings engraved on wood, by Dorchesek, Bendemann, &c. &c.

In addition to these, other interesting works are in preparation; among them may be mentioned a series of Lives of the Great Painters, with illustrations of large size, procured from the Proprietors of the "Vies des Peintres," of Paris; a series of Illustrated Articles, exhibiting "the Domestic Halls of the Early English," by T. Wright, F. S. S., and F. W. Fairholt, F. S. A.; a series of original designs for furniture after the manner of the middle ages, by Carl Heideloff; the continuation of a "Dictionary of Terms in Art," illustrated; the continued series of Dr. Brande's Papers on the Art-Manufacture of the Ancients; and also a series of Mr. Robert Hunt, on the "Application of Science to the Fine and Useful Arts, and various matters, interesting and instructive to the artist, the amateur, the manufacturer and the public.

Among the authors whose valuable assistance is given to the *Art-Journal*, and whose names the Editor is free to mention, are—Dr Wagner, Jan Jameson Dr Braun, Dr. Pinnster, Professor Heideloff R. Wornum, Mrs. Merrifield, T. Wright, F. S. A. Robert Hunt, Mrs S. C. Hall and F. W. Fairholt F. S. A.

To the choice of the *Artist*; to the library of the *Amateur*—to the close of the *Student*—to the workshop of the *Manufacturer*—and to the crowning room table of the *Admirer of Beautiful Engravings*, the Art-Journal is recommended as a companion and counsellor, at once agreeable and instructive—as a "ably and impartially conducted" as "mediating the mutual interest to the production of excellence, and the public to appreciate the improved works" and as having worked out with "industry integrity and energy," its high purpose of "supplying to Artists and Amateurs, accurate and useful information upon all subjects in which they are interested, and to the public the means of justly exercising and estimating the progress of Art both at home and abroad."

The year 1851 will be memorable in the History of the Industrial Arts in Great Britain. "The Exhibition," to be commenced in May, will be of the highest interest to every civilized Nation of the world: it is, above all things, essential that the Exhibition should be properly reported, and this can be done only by a very large number of Engravings. The Editor of the ART JOURNAL has therefore announced his intention to issue, in May, June, and July Supplementary Parts (or double numbers,) each Part to consist of at least Fifty-two pages of letter press, and to contain between 220 and 300 engravings, exhibiting the best and most suggestive objects contributed to the Exhibition. This project cannot fail to be received with favor by all subscribers to the work. The Reports thus supplied will become—as a Catalogue of its most beautiful and valuable contents—a permanent record of the Exhibition and a key to the most meritorious manufactures of all parts of the world.

The Volumes, handsomely bound, of the ART JOURNAL for the years 1849, and 1850, containing each Twenty-five Line engravings (on Steel) of the Vernon Gallery, Twelve Engravings (on Steel) of Works in Sculpture, above Eight Hundred Engravings on Wood, and Four Hundred pages of Letter-press, may be purchased, each for the sum of Thirty-one shillings and six pence. These volumes therefore contain Fifty Engravings of pictures in the Vernon Gallery, which began with the volume for 1849, when a New Series of the ART-JOURNAL was commenced.

In order to meet the wishes of those who require copies of the Engravings for the portfolio or for framing, a limited number of proofs and impressions on large paper are issued; for these early application will be necessary, as they will be taken only for Subscribers.

To the Sick and Afflicted.

DR. SHERIFF,

RESPECTFULLY informs his friends and the public generally, that he has removed to the Shop dwelling belonging to Mr. F. Donghue, situated at the west end of Ontario Street, where he is prepared to receive and prescribe for patients afflicted with diseases of long standing. Dr. S. has, during his short residence in the City of Kingston, been the means, through the hand of Providence, of restoring to health over two hundred individuals, after they had been abandoned as incurable, and considered out of the reach of hope, by their physicians. And he intends for the future, to give his attention only to such cases as may be considered beyond the reach of medical aid from every other source. And he feels confident that he will be enabled as heretofore, to give relief to the majority of such cases as may come under his care. By way of reference, it may not be amiss, at the present time to mention one case that has been successfully treated by Dr. Sheriff, within the last three weeks.—Mr. Henry Leavens, a respectable farmer, who resides near the first toll-gate, sent for Dr. S. about three weeks ago. When he went to him he was confined to his bed, in the last stage of Dropsy, and at the same time labouring under a severe affection of the Lungs, from which he had been raising profusely of blood. In this hopeless condition his physician had left him, and said that he could do no more for him. He then commenced taking medicine, under the direction of Dr. S. and in two weeks time, was able to ride out. He is now daily attending to the business about his farm as usual.

Latin Classics...Cheap Editions.

THE success which attended this experiment to improve and render uniform the Books used in the Common Schools of Canada by issuing the National Second Book, has emboldened the Publishers to undertake the publication of the Classical series for the use of Colleges, High Schools, District and Grammar Schools. The first numbers of the series consist of the following:—

Excerpts from Cornelius Nepos, 1s. 6d.; the First Four Books of Caesar, 1s. 9d.; the Georgics of Virgil, 1s. 6d.; the Fath of Orid, 1s. 6d.; the Third and Fourth Books of Quintus Curtius, 1s. 9d.; Cicero de Amicitia, 1s.; Cicero de Senectute, 1s.; Tacitus Agricola, 9d.; Excerpts from Horace, 1s. 9d.; the Three First Books of the Æneid, 1s. 6d.

Or the above can be had handsomely bound in two vols.—price 6s. 3d. for the Prose and 5s. 6d. for the Poetry.

The Trade, Teachers, and Country Dealers supplied with Circulars, Prospectuses, &c., relating to both of the above series of Books, which are now in general use in the Province.
