FIFE'S SPRING WHEAT.

Osnabro, Cobourg District,
To the Editors of the Agriculturalist.

MESSRS. EDITORS,—One of our farmers having been so fortunate as to introduce a new kind of wheat into this township, of which a brief notice was given in the Cobourg Star, 12 months ago—I trust a more full account of it may not be unacceptable to your readers, as from its tendency to resist the effects of rust, and its adaptation to low black soils—it requires only to be known to be extensively cultivated and highly valued.

Eight years ago Mr. David Fife having a friend about to retire Scotland, requested it on experiment encouraged, that he would forward to this country a small quantity of wheat from some of the northern parts of Europe. On landing at Quebec he found a vessel discharging a cargo from Dantzic—having procured a portion, he sent it to Mr. Fife who sowed it the spring following, and it came up various kinds, as might be expected and the whole was affected by rust, except this variety, of which there was but few ears, and two of them were destroyed by cattle, yet from the remaining three ears he raised the third year, half a bushel—from the produce of this he supplied some of his friends with a few bushels, and it began to be noted for not rusting, and one person had twenty-eight bushels from one bushel sown. Next year the Agricultural Society purchased the Club wheat as a change of seed, which being sown along side of the new wheat in many instances, and the former being rusted as to be worthless, while the latter was not the least injured—so established beyond a doubt in my mind that last spring the Agricultural Society thought it advisable to purchase 200 bushels to distribute amongst its members, rather than it should be taken out of the township, and the principal holder of the wheat refusing to take less than two dollars a bushel for it, that price was given by the Society, and many bushels were sold to the neighboring townships at the same rate, many people applying for it in vain.

It is rather a late kind of wheat being 8 or 10 days behind the Club or Siberian, if sown at the same time, and this morning winter has not ushered it as well on dry soils, but on low black-ish swales and any similar place not too wet for wheat to vegetate, it succeeds well, and its bright yellow appearance confirms the application of "The Golden Grain" as often applied to wheat, though perhaps some of your readers may think that the price paid for it gives it a better claim to that title.

A sample of the wheat shown by Mr James Fife obtained a prize at the Provincial Exhibition last year, and a specimen will accompany this letter, together with an advertisement, which, by your giving publicity to, will oblige

Your obt. Servant,
HENRY BAWDEN.

Sec. Chamber of Adelphoi Agr. Society.

A few bushels of the above Fife's Wheat will be found for sale at Chrisholm's Malt Factory, Princess Street.

TREES, SHRUBS, &c.

SPRING, the best season for transplanting (in most localities) fruit and ornamental trees, has arrived; and the subscribers would notify the public that they have for sale a large stock of the most choice varieties of FRUIT TREES, embracing nearly all of Mr. Downing's select lists, and those recommended by the Congress of Fruit Growers, for general culture.

Their Nurseries, embracing over twenty-five acres, are situated on Tenth-street, Oswego east, but little over half a mile east of the Rail-Road Depot.

They have a larger stock of extra sized trees of all the fruits, except the Plum, than in any Nursery in Western New York, and feel confident in claiming superior hardiness and value to trees grown here on the shore of Lake Ontario, exposed to its winds, at a point further north than any other extensive Nursery in the states; and would also claim superior value to their trees, not from latitude and exposure only, but from the fact that they them more room in the Nursery than other tree growers, thereby rendering them more stocky. They have a large stock of pears on standards, in a bearing state, at prices from $1 to $5. Also *Dwarf pears* in a bearing state, from 50 cents to $5, according to size and variety. Particular care will be taken in digging and packing extra sized trees, so that there will be no more danger in transplanting them than smaller trees. In this city and vicinity they will set the Oswego Beurre, in a bearing state, and warrant to live. This is the most valuable pear that can be cultivated here, and as a high flavored, melting pear, a profuse and regular bearer, the Oswego Beurre is not equalled.

We have of sizes suitable for the garden or orchard, more than 300 varieties of the Pear, and nearly all of the distinguished varieties of the Apple, Cherry, Peach, Quince, Apricot and Nectarine. Also the small fruits—Raspberries, Currants, Gooseberries and Strawberries. Of Rhubarb Roots—an extensive stock of Asparagus, Pie Plant, etc. A large stock of well grown

Ornamental Trees,

and shrubs, hardy Flower Roots and Green House Plants.

Catalogues sent to post-paid applicants.

For convenience of country customers and the travelling public, we have made N. Stone, Jun. 8, in the East Wing of the City Hotel, our Agent, with whom orders may be left, and from whom Green-house Plants, and Fruits and Ornamental Trees, etc., to a limited extent, may be had.

In Kingston C. W., we can refer all those wishing to purchase any thing in our line, to Mr. C. T. Gaudrich, Princess House, Princess Street, having made arrangements with him to attend to the Canada trade in and about Kingston. He will be prepared to supply purchasers at short notice, and without risk of damage in delivering. We have a large variety of green-house plants, such as Fuchsias, Verbenas, Double Dahlias, Calceolarias, Heaths, Oleanders, Rhododendrons, Geraniums, Cactuses, and many other kinds too numerous to name in this advertisement.

GENERAL ADVERTISEMENTS.

BRITANNIA LIFE ASSURANCE COMPANY.
No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

INCORPORATED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies issued by the different Agencies in Canada, evidently shew that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death.—The rates of the Britannia are the lowest which can be offered consistently with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office, or in the Montreal Herald, Montreal Gazette, and Montreal Courier—as the leading papers in Canada West.

Assurances may be advantageously effected on the lives of others, either for the purpose of securing loans, or debts or in case where the party has an interest in the life of another, so as to be in any way prejudiced in the event of his decease. In conclusion, a Policy of Assurance affords a certain and, in many cases, the only means of securing. Above addition to the published rates, an extensive social Tables has been computed for Assurance on Joint Lives, the survivor of two or more lives, and for contingent Assurances; also for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency affecting human life, against which it may be prudent or expedient to provide.

COMPARATIVE STATEMENT OF THE RATES OF THE FOLLOWING OFFICES:
Rate for one year, (which of Life) for the Assurance of £100:

National Loan Fund	age 30	£0	4	4
Colonial Life Assurance Com'y	do.	0	5	2
United Kingdom	do.	0	7	10
British Commercial	do.	0	11	10
Mutual	do.	0	14	9
Britannia	do.	0	9	8

The other Offices doing business in the Colonies are to much higher, that comparison is unnecessary.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within twelve months after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, except under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not vacated said in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

The subscriber begs to remark that the Britannia Company has been doing business in this Province for about ten years—and has been always found liberal, and prompt in the settlement of claims.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

THE CANADA LIFE ASSURANCE COMPANY.
Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sell Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much lower than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which (and this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have made, and it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.
