A radical change of time-table was made on this breach of the C. P. R., commencing on Monday last, by which the morning train south is about half an hour earlier, but the noon train north remains about the same. The trains now run from this station as follows: Going south—7.20 a. m. and 4.07 p. m. Going north—11.49 a. m. and 8.31 p. m.

Messrs. R. Brown and Jake Lever drove down to the Nottawasaga river one day last week and enjoyed a successful day's fishing at the mouth of the river. They came home with 50 fish, little and big. The king of the heap was a magnificent five-pound small mouthed black bass. There were also several nice pickerel.

Miss Irene Gaudin, who has been living with her aunt, Mrs. W. H. Thurston, here, and attending school, left on Saturday to pay a two-months' visit to her mother at far away Cross Lake, Keewatin. She will join her father at Port Arthur, where he is attending conference.

Both Durham papers gave excellent reports of the laying of the corner stone last week. That given by the Review was especially good. It was written by Miss Alice Ramage, the clever daughter of the proprietor. Miss Ramage has the reportorial instinct well developed.

The C. P. R. has had two costly freight smash-ups on this line during the past two weeks. The last occurred at Woodbridge. Owing to the accident the Winnipeg express was obliged to come up to Melville Junction and down the Streetsville branch to deliver its passengers and freight in Toronto.

Bunches of wheat continue to come in for inspection. The latest is from Mr. Andrew Gilchrist of Ceylon, who brought in last week a bunch of fall wheat measuring five feet in length. From all these evidences we may draw the conclusion that there will be a phenomenal growth of straw this year, whatever the yield of grain may be. Since writing the above Mr. Geo. Johnston of the Toronto line has handed us some wheat four feet, six inches in length. And still they come! Mr. Thomas Cooper, near Feversham, writes us of wheat four feet, one inch in length.

We have received a booklet "Agricultural Temiscaming" published by the New Liskeard Board of Trade. The publication, a product of the New Liskeard Herald, is copiously illustrated and well printed. In it we find illustrated fine farms, residences and barns—any of which might reasonably belong to southern Ontario—also threshing scenes, grain, corn and vegetables with a growth which is a revelation to those who are wont to shiver when thinking of the cold and desolate northern section of our otherwise fertile and agreeable province! Northern Ontario is coming to its own—but it still has its future in front of it and not behind (to use an Irish bull.)

A Pretty June Wedding.

A very pretty June wedding took place at the residence of Mr. Charles Bellamy of the suburbs on Wednesday afternoon of last week, when his fourth daughter, Frances Mary, was united in marriage to Rev. J. W. Miller of Alberta, and whose parental home is at Jessopville. The ceremony was performed by Rev. J. W. Coulter in absence at conference of the bride's pastor, Rev. Mr. Wellwood, in the presence of about sixty guests. The parlor was very handsomely decorated with flowers. Miss Laura Dunsmoor of Owen Sound, niece of the bride, acted as flower girl and carried a bouquet of pink daisies and white bridal roses. The bride looked exceedingly handsome in a dress of cream taffeta silk, trimmed with overlace and ruching and carried a bouquet of mixed roses and maidenhair fern. Her bridal veil was decorated with a wreath of orange blossoms.

The ceremony took place at 1 o'clock, preceded with the Wedding March played by Miss Gertrude Bellamy, sister of the bride. Just as the ceremony was about to begin a lengthy and nicely worded telegram was read from the bride's brother, Mr. Edgar Bellamy of Saskatoon, conveying hearty congratulations to the bride and groom. After the ceremony a choice wedding dinner was served.

The bride's going away gown was of blue chiffon broadcloth with hat to match. The groom's gift to the bride was a gold watch with fob and to the flower girl a gold locket and chain. The happy couple left on the 4.30 train for Toronto, Buffalo and New York. On their return they will visit friends at Grand Valley, Tarbert, Jessopville and Shelburne. They leave about the 28th for Regina, and after spending a week with the bride's brother in Saskatoon they go to their future home in Banff, Alberta.

Among the friends from a distance who attended the ceremony were: Mr. and Mrs. J. W. Miller, and Mr. and Mrs. Ben Miller, Jessopville; Mr. and Mrs. Blair, Tarbert; Mr. and Mrs. McVanel, Shelburne; Mrs. E. E. Miller, Toronto; Mr. and Mrs. Jas. Jones, Owen Sound; Mr. Fred Meredith, and Miss Georgina Hastie, Manitoulin Island; Mr. and Mrs. N. G. Dunsmore, Owen Sound; Mrs. (Rev.) Geo. Coulter.

Centre Grey Women's Institute Meets

The annual district meeting of Centre Grey Women's Institute was held in Dundalk on Wednesday at the residence of Mr. John Gordon. There was a goodly representation from Flesherton, Vandeleur, Eugenia, Kimberley, Ravenna, Maxwell, Hopeville, Walters' Falls, Temple Hill and Dundalk. In the absence of Mrs. R. Best, president, Mrs. J. B. Egan, vice president, took the chair. The Secretary reported that since last meeting two new Branches had been organized, Eugenia and Clarksburg. Mrs. I.B. Lucas and Miss Leone Mathews were appointed directors with the view of organizing in Markdale. The Institutes in the District number fifteen, thirteen of whom raised $472.12, with a membership of over 600. The election of officers resulted as follows: Pres., Mrs. J. I. Graham, Vandeleur; V.P., Mrs. Hanbury, Dundalk; Sec.-Treas, Mrs. A. E. Myles, Kimberley. Mr. C. Stewart, and Mrs. F. Weber, Kimberley, were appointed auditors. It was decided to hold the next meeting at Vandeleur.

The Dundalk ladies provided lunch, which was served on the lawn, where the ladies were joined by the gentlemen of the Farmers' Institute, who met the same day at the same place.

A hearty vote of thanks was tendered to Mr. and Mrs. John Gordon for their generous and hearty hospitality, also to the Dundalk Institute and a very enjoyable meeting was brought to a close.

A gloom was cast over the meeting by the sad death of Mrs. H. Palmer, a member of the Dundalk Institute, and whose funeral took place that day.

May Develop Eugenia Power

Mr. Thomas McLauchlan, secretary of the Georgian Bay Power Company, was in town yesterday, accompanied by Mr. Roberts, a Cincinnatti engineer. The visit to this district was for the purpose of going over the ground at Eugenia Falls with a view to an early development of the power there. Mr. McLauchlan was in consultation with Mr. W. P. Telford, president of the company, and the latter stated to the Sun representative that the prospects for the power scheme were bright. He was certain that were the power brought to Owen Sound they would not have the slightest difficulty in disposing of it.—O. S. Sun.

School Examinations.

The public school closed on Monday last in order to give way for the examinations which are being held this week.

The Model School entrance began on Tuesday under the supervision of Mr. Holland. This examination will occupy four days. There are 23 pupils writing.

The High School Entrance began on Wednesdyy and lasts three days. Mr. Marcellus is in charge. There are 43 pupils writing on this examination.

Three pupils will write on the Entrance to Normal. This exam. will be held next Monday under Mr. Holland.

A Justifiable Hope

The Toronto Star Weekly gave an interesting report of the laying of Artemesia continuation school corner stone which may be considered very encouraging, having been written by a gentleman who would not be likely to engender hopes where such was not justified. Here is an excerpt from the article:

"The purpose in the minds of the men who have been most active in promoting this action on the part of the people of Artemesia is to build and equip such a school as will naturally commend itself to the Provincial Government as a suitable—and perhaps the first—place where there may be established one of those Agricultural High Schools which it is understood to be the intention of the Government to set up in various parts of the Province. Such an institution would work in harmony with the Guelph Agricultural College, and would do much to supplement its usefulness. Courage and foresight have been shown by the people of Artemesia in venturing so early into this field, but the wisdom of their action will probably be shown at an early day. From the remarks made by Hon. James Duff on the occasion, it seems fair to assume that the desires of the Flesherton people will be gratified, as, indeed they should be, not only because they have been first in the field with a fine building, but for the sounder reason that the village is admirably situated to draw an attendance from a wide range of country. At present the new school is called a Continuation School, or a Rural High School but it is hoped that it will take on the character of an Agricultural High School, with one or more experts from Guelph on the teaching staff—a direction which we may be sure education will take in the twentieth century."

The C.P.R. has settled with its railway telegraphers by giving them all an advance of five dollars a month.
