DR. DE LE. TOBE
PURE COD LIVER OIL.

To the Medical Profession, and the Public in general, who heretofore have been in many instances imposed upon, by a spurious imitation of a valuable MEDICINE.

IN consequence of the want of a truly Chemical Test, to ascertain the PURITY OF COD LIVER OIL, much to an unwarrantable and serious description, has been introduced into the Market, and sold as Genuine. Under these circumstances, and as the public are altogether dependent upon the character of the MANUFACTURER for the

PURITY OF THE ARTICLE,

I respectfully announce that I have appointed Mr. CHARLES BRENT, Apothecary & Chemist, Kingston, C. W., Sole Agent for the Sale of my

I beg to refer to the subjoined Certificates, given up by several of the most respectable Medical Gentlemen in Quebec and Montreal, and to the same and others, after perusing which, any further remarks would be superfluous.

Please notice, that every Package of my Cod Liver Oil, is sealed with my Seal, and signed in my handwriting, and can only be obtained in Kingston, from Mr. Charles Brent.

Fare from Ogdensburgh to Montreal	$3
" " " Boston	$5
" " " New York	$7

No Charge for conveyance of baggage from the Steamboats to the Cars, or from the Cars to the Steamboats, on this Route.

Arrangements are now being made for a Through Route by Railroad from Ogdensburgh to New York, via the Valley of the Connecticut River, by which passengers can reach New York in one day from Rouse's Point—the western terminus of the Ogdensburgh Railroad.

A new and complete route is now open to the Travelling Public, by which passengers desirous of going to Boston or New York or Montreal, can have an opportunity of passing through a portion of the country, heretofore shut out from the Travelling for want of proper Railway connection from Lake Ontario to the sea-board. This connection is now formed by the completion of the Ogdensburgh Railroad, (118 miles), and two Lines of Rail from Lake Champlain to New York and Boston. (For a more particular description of all these routes, see advertisement in another column.)

As a new Route to and from Montreal, and from Canada West to Boston and New York, the Ogdensburgh Railroad and its connections, presents many objects of interest to Canadians at this time, more especially to those who are interested in the movements now making to give Canada West the advantages arising from a carefully arranged system of Railway communication between Lake Huron, Lake Erie, Lake Ontario and the Atlantic Cities of the United States.

By taking the steamers at Hamilton, Toronto, and the Canadian Ports on Lake Ontario, passengers can be conveyed to Kingston, Brockville or Prescott. At Kingston, the United States Steamers, touch on route to Ogdensburgh, connecting with the British Line from Hamilton. A Ferry Boat plies between Prescott and Ogdensburgh daily.

Travellers desirous of examining the method of constructing Railways in the United States, can have an opportunity (by taking the Boats arriving at Ogdensburgh in the evening), of viewing the Ogdensburgh Station, Grounds, (20 acres in extent,) the Dock, 4,100 feet in length; the large Passenger and Freight Houses, the Grain Warehouse and Steam Elevators now in progress of construction; the Engine Houses and Machine Shops, and leave in the 10 o'clock, A. M. Train, which arrives at Rouse's Point, for dinner at 3 o'clock, P. M. The Steamboats bound north, for Montreal (from Rouse's Point, take these passengers at 7 o'clock, P. M.; then giving Travellers four hours to examine the vast warehouses, 300 feet long by 100 feet wide, built on a pier in Lake Champlain,] the Machine Shops, Car Houses, Engine Houses and the Bridge, now constructing on the Vermont and New York side of the Lake.

The 8 o'clock, P. M., Train will always wait for the evening Boats from Kingston.

Parties on pleasure, during the summer months, after visiting the Falls of Niagara and the Suspension Bridges, of proceeding to Boston or New York, will view some of the most magnificent Mountain, Lake and River scenery in any part of America, when [via Ogdensburgh] passing through Vermont, New Hampshire, Massachusetts, the Valley of the Connecticut River, and the River Hudson.

The Ogdensburgh Railroad Company, anticipating this being the direct Channel to the Atlantic Sea-Board for Canada West, at the most direct, expeditious and economical, invite the attention of all interested in the commercial and General prosperity of this important portion of the British North American Colonies, to an early and careful examination of all the facilities afforded by the Road and its connections, when it will be found that these have in view the most rapid and favorable channels through which to develope the Canadian trade.
