BEFORE TREATMENT

AFTER TREATMENT

He was surprised at how the sores healed—"I took your NEW METHOD TREATMENT for a serious blood disease with which I had been inflicted for twelve years. I had consulted a score of physicians taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the NEW METHOD TREATMENT for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish. W. TRUTH BEFORE FAVOR- PRINCIPLES, NOT MEN

SNOW PLOWS ARE NEEDED

The furious blow of Sunday and Monday of this week awakens the usual yearly problem of how to keep open the winter roads.

It has been repeatedly suggested that the township dig down in its jeans and purchase several snow plows, to be used in keeping the roads open that the people may go to church, nomination meetings and box socials—and also to the post office to get their weekly copy of The Advance. To open the main roads as they become closed would cause some slight expense but would save much time and labor for those interested.

The only stumbling block seems to be that those not directly benefitted would object to paying their proportion of the shot. However, the fact that the plow could not clear every sideline and bush road in the entire township should not be sufficient reason for the council to sit by and do nothing. Councils of former years have been remiss in this matter, but that should not be allowed to influence the present one. The need is evident—ask any of the councillors who had to battle with the drifts to get out to the council meeting on Monday—and the remedy is suggested. What will be done?

We wou'd be happy to hear from the councillors themselves, or anyone interested, regarding this matter.

A DUAL LANGUAGE FIGHT

An interesting fight is on in the Province of Quebec between the the railway companies and the Legislature. At the last session of that body a law was passed making it compulsory for the railways in that province to print their tickets, time tables, etc., in both French and English. This the companies are determined to ignore, and the fight is now on, the companies declaring that they will carry it to the Privy Council if necessary. They claim that these railway matters are vested in the Dominion Government and not in the Provincial Legislatures; also that to comply with the law would be very costly and cumbersome. We fancy that the railways will win out on this, too. Imagine the street railways in our cities being compelled to print their tickets in a dozen languages and dialects for the convenience of Greek, Ruthenian, Bohemian, etc.! This is a country where the English language prevails, and if those who reside within her borders do not care to learn the language their alternative is to move on to some land where they can read the instructions on their pasteboard.

A TREATY COMING

Two Canadian envoys are now in the United States negotiating a reciprocity treaty with Uncle Sam. We do not look for very much from this, and for this reason: If Canada should gain a fair reciprocity treaty with the United States that country is likely to abrogate it so soon as they discover that the big end of the bargain is not coming their way. This they did in the last treaty negotiated, and the Eagle still grows the same kind of dun grey feathers. On the other hand, if Uncle Jonathan is satisfied Canada is not likely to have cause for rejoicing. As an honorable people, however, we would have to grin and bear it for the whole time limit, if there is one.

The dual language law has led to a duel of languages.

With its "burned district" Flesherton resembles Toronto, which has a choice bit of fire ruins near the union station.

If you've worked hard to build up a successful store, don't advertise so sparingly that no one would suppose you had succeded.

The depth of snow on Flesherton's sidewalks recalls the "good old days" several years ago when the snow was scraped off the sidewalks, to a certain extent, by the corporation snow plow.

A sum of $550,000 is being raised to equip a German expedition to find the south pole. The pole must be a very valuable one when it is worth such a sum to find it. Why do the losers not advertise for it? And a final question: Who lost it, anyway?

Students at the Guelph Agricultural College occasionally tire of the maddening monotony of absorbing knowledge, and have in their desperation appealed to the fatherly provincial government to hold mixed dances. What do they want with mixed dancing? Wouldn't it be just as pleasant to dance with a broom handle or bed pillow as a Guelph girl?

In discussing the tax bugaboo a great many people are apt to overlook certain facts, and the chief of these, strange to say, is the one that is most patent to all if the eyes were not blind to its existence. We refer to the added earning power conferred by municipal improvements made possible by these taxes. The earning power of our farms is very much greater than it was before the advent of good schools, railways or good roads, and appears to be getting greater year by year. For these we have had to pay big taxes, but the possibility of doing so is made much easier by the existence of these very things.

Eugenia

Crowded out last week.

New Years' day passed over very quietly. A pleasant time was spent by a number of young folks at the home of John E. Williams with games and other amusements.

Will Hawkins, of the Morey farm, gave a house warming party on Thursday night last to which a great number were invited. The handsome new residence was well filled with neighbors and other friends who came to wish them prosperity and the best of good luck. A dainty supper was served and a very pleasant time enjoyed by all.

The heavy snow of the past few weeks has caused some of the old landmarks to collapse. Mrs. Carr's barn roof, Miss Beecroft's old stable and the old Saunders place on the Woodburn property have all collapsed.

Born—To Mr. and Mrs. Jos. Fenwick od Dec. 14, a fine big baby boy.

B. F. Reesor of Lindsay is at the Eugenia House.

Ernest Morgan has gone on a visit to friends at Woodbridge.

Laurie Munshaw of Markdale is visiting his parents here.

Mrs. T. E. Fenwick and children spent Chriatmas with her father at Paisley.

Mr. and Mrs. Thos. Hoggard of Thornbury are visiting the latter's mother, Mrs. Graham, of Eugenia.

Virgie McMullen of Toronto and Millie of Wodehouse spent the holidays with at Eugenia.

The winter meeting of the Women's Institute will be held in the Methodist church on the afternoon of Jan. 16, and a joint meeting with the Farmers' Institute will be held in the Orange hall at night.

The next monthly meeting of the Women's Institute will be held at the home of Mrs. John E. Williams the first Wednesday in February.

Pity Your Mother

If She Is Frail or Weak.

The heroic side of life is most often found in the struggle between duty towards the family, and the mother's inability through ill-health to perform that duty.

"Words sometime seem poor things to express one's feelings," writes Mrs. J. P. Merritt. "I have a family of five all pretty close together. After baby was born my strength didn't come back. The child pulled me down a lot, and I couldn't wean him in the hot weather, my other children needed so much to be done for them. My system did not come right—my color was pallid, and morning and night and all the time, I was livid. My druggist told me of how well his customers spoke of Ferrozone, and I got six boxes right away. You wouldn't believe how well it built me up. It seems quite strange now to be real well again, to feel like my old self once more. I was really hopelessly in despair and too completely worn out to feel like living before I used Ferrozone, so you can imagine how highly I prize such a good medicine. My children now say 'mother isn't tired any more,' and for my children's sake I am so glad to be well enough to give them all the care and attention that every good mother feels she must bestow upon her family."

Ferrozone Cures Weakness

You are sure to be invigorated, certain to be built up and kept always at your best—you are bound to enjoy all the happiness of lasting good health if you use Ferrozone. Try it, one or two tablets along with your meals. Fifty cents a box, six for $2.50, all dealers or The Catarrhozone Co., Kingston, Canada.
