Ogdensburgh Railroad.

GREAT NORTHERN AND EASTERN
RAILROAD & STEAMBOAT
Route from Buffalo, Niagara Falls and Canada West, to Boston, New York and Montreal

TIME CARD, OGDENSBURGH RAILROAD
MAIL TRAIN.

Leaves Ogdensburgh at 10 o'clock, A. M., arrives at Rouse's Point at 3 P. M.
Leaves Rouse's Point at 9 A. M.; arrives at Ogdensburgh at 2 P. M.
Steamboat Express Train leaves Ogdensburgh at 8 P. M., (on the arrival of the accommodation Boat from Kingston); arrives at Rouse's Point at midnight. Leaves Rouse's Point at 7 P. M. (on the arrival of the Lines from New York, Boston and Montreal); arrives at Ogdensburgh at 11½ o'clock P. M.

By this Train, passengers are carried through from Boston to Ogdensburgh (400 miles) in One Day.

Fare from Ogdensburgh to Montreal	$3
" " " Boston	$5
" " " New York	$7

No Charge for conveyance of baggage from the Steamboats to the Cars, or from the Cars to the Steamboats, on this Route.

Arrangements are now being made for a Through Route by Railroad from Ogdensburgh to New York, via the Valley of the Connecticut River, by which passengers can reach New York in one day from Rouse's Point—the western terminus of the Ogdensburgh Railroad.

A new and complete route is now open to the Travelling Public, by which passengers destined for Boston or New York or Montreal, can have an opportunity of passing through a section of the country, heretofore shut out from the Traveller for want of proper Railway connection from Lake Ontario to the sea-board. This connection is now formed by the completion of the Ogdensburgh Railroad, (118 miles), and two Lines of Rail from Lake Champlain to New York and Boston. (For a more particular description of all these routes see advertisement in another column.)

As a new Route to and from Montreal, and from Canada West to Boston and New York, the Ogdensburgh Railroad and its connections, presents many objects of interest to Canadians at this time, more especially to those who are interested in the movements now making to give Canada West the advantages arising from a carefully arranged system of Railway communication between Lake Huron, Lake Erie, Lake Ontario and the Atlantic Cities of the United States.

By taking the steamers at Hamilton, Toronto, and the Canadian Ports on Lake Ontario, passengers can be conveyed to Kingston, Brockville or Prescott. At Kingston, the United States Steamers touch en route to Ogdensburgh, connecting with the British Line from Hamilton. A Ferry Boat plies between Prescott and Ogdensburgh daily.

Travellers desirous of examining the method of connecting Railways in the United States, can have an opportunity (by taking the Boats arriving at Ogdensburgh in the evening), of viewing the Ogdensburgh Station Grounds, (40 acres in extent,) the Dock, (1,100 feet in length,) the large Passenger and Freight Houses, (the Grain Warehouse and Steam Elevators now in progress of construction;) the Engine Houses and Machine Shops, and leave in the 10 o'clock, A. M., Train, which arrives at Rouse's Point, for dinner at 3 o'clock, P. M. The Steamboats bound north, for Montreal from Rouse's Point, take their passengers at 7 o'clock, P. M.; thus giving Travellers four hours to examine the vast works—a 1,300 feet long by 104 feet wide, built on a pier in Lake Champlain,] the Machine Shops, Car Houses, Engine Houses and the Bridge, now constructing on the Vermont and New York side of the Lake.

The 8 o'clock, P. M., Train will always wait for the evening Boats from Kingston.

Parties on pleasure, during the summer months, after visiting the Falls of Niagara and the Suspension Bridge, if proceeding to Boston or New York, will view some of the most magnificent Mountain, Lake and River Scenery in any part of America, when [via Ogdensburgh] passing through Vermont, New Hampshire, Massachusetts, the Valley of the Connecticut River, and the River Hudson.

The Ogdensburgh Railroad Company, anticipating the being the Great Channel to the Atlantic Sea-Board for Canada West, as the most direct, expeditious and economical, invite the attention of all interested in the Commercial and General prosperity of this important section of the British North American Colonies, to an early and careful examination of all the facilities offered by the Road and its connections, when it will be found that these have in view the most rapid and favorable channels through which to develope the Canadian trade.

BY R. LEACH,
(LATE S. B. SHAW.)

S. B. SHAW, in retiring from the "Mansion House," begs to tender his sincere thanks to the Public for their very liberal support during his connection with the House, and would cordially recommend a continuation of the patronage so liberally bestowed upon him to be extended to his successor.

A Carriage will at all times, during the season of Navigation, be in waiting of the boats, to convey passengers from the boats, and also to convey them from the house to the boats.
