GENERAL ADVERTISEMENTS.

National School Books.

NEW EDITIONS.

ARMOUR & RAMSAY.

THE Subscribers, in publishing new editions of the National School Books, beg leave to return their warm and sincere thanks for the liberal patronage which has been extended by all classes of the community to their publications. The manner with which the previous Editions were disposed of, evinces in the most satisfactory and decided manner, that the publishers did not overestimate, when they reckoned with the strong confidence upon the intrinsic merits of these Books recommending themselves the esteem, patronage and love of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound with linen:—

A, B C and Figures, on sheets to be hung up.
General Lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Sequel to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The first Book of Arithmetic.
Key to ditto.
An English Grammar.
Key to ditto.
A Treatise on Book-Keeping.
Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they have been universally taught by themselves to be considered as perfectly well qualified to enter upon the pursuits of active life, and to have acquired a fund of preliminary knowledge amply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, are in importance, from the first to the last; and they possess the very distinguishing and characteristic merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and of a vast number of important facts, in History, Literature, and Science. The Treatises on Arithmetic, Grammar, Book-Keeping, Geometry, Mensuration, Geography and History, are unequalled, extensively employed, in the English language. The rules which they contain, are so simple, yet so comprehensive; so clear, yet so profound; that the pupil who has once become thoroughly acquainted with them, can express a ready, in applying to every case which may be presented to his notice. That this Series of School Books should be preferred to so many and such undeserved praises, is not to be wondered, when it is considered, that it has emanated from no private or individual body, as the National Board of Education of Ireland—a body which numbers among its members, some of the highest names on which the British Empire can boast for a love and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expressions of approbation, from men in every rank of society, and who maintain the most opposite and opposing forms of belief. The late amiable Governor General, Lord Metcalfe, when the publishers originally issued their editions, first obtained his sanction and authority all means, and they have been sanctioned by the Bishops of the Roman Catholic Church, by an up informed Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and so far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner, the Edinburgh Review, "to be the very best books of the kind on the English language."

The National School Books are now so generally used and so universally known that little need be said respecting them. For the information, however, of such as from long use of others have not yet adopted these publications, the Publishers submit the following testimonials, selected from a great variety of others with which they were favored when they commenced the publication.

I

Education Office, Toronto.

Gentlemen,—Having had before the Commissioners of National Education a case under the 24th instant, enclosing a Copy of a memorial from Teachers in favor of the School Books published by the Board; with the request of which they were much gratified, we are directed to inform you that you have the sanction and authority of the Commissioners for proceeding to the use of Schools in Canada, some of the Irish National Books, as you very justly think fit.

We are also to state further, that these books are to be used by all National Schools of the country, the Commissioners having expressed a high and well-grounded opinion of the great benefit conferred on the country by the publication of a series of Lessons so well adapted to the circumstances of the Canadas.

Messrs. Armour & Ramsay, Montreal.

I

Private Secretary's Office, Montreal.

Gentlemen,—I am commanded by His Excellency the Governor General to acknowledge the receipt of your letter, and to tell you in reply, that His Excellency will be very glad to have his name associated in the manner you propose, with an undertaking which he considers to be worthy of public benefit, and His Excellency also desires me to say, that it will give him pleasure to aid the work in which you are engaged, by any means in his power.

I have the honor to be,
J. M. Higginson.

Messrs. Armour & Ramsay, Montreal.

The publishers were permitted to append the following on the books:—

In behalf of the Roman Catholic Church—Avec l'approbation des Supérieurs Ecclésiastiques."

III

From the Synod of the Presbyterian Church in connexion with the Church of Scotland.

(Extract.)

"The Committee reported that they had carefully examined the following School Books which Messrs. Armour & Ramsay propose to reprint, viz:—

(Here followed a list of the Books.)

and that they considered the Books extremely well adapted to facilitate the various branches of Education to which they refer. Whereupon the Synod agreed heartily to recommend these School Books to the notice of Parents and Teachers, and all others who feel an interest in the mental improvement of the youth of this country, or who exercise an influence over their education."

Andrew Bell, Synod Clerk.

IV.

In consequence of the Department of Public Instruction in Canada East.

"With the approbation of Dr. Meilleur, Superintendent of Education."

V

From the Superintendent of Education for Canada West.

Educational Office, C. W.

Gentlemen,—I Rejoice to learn that you have continued reprinting for the use of Schools in Canada, the series of admirable School Books which the Government commissioners—headed by the Protestant and Roman Catholic Archbishops of Dublin—have published for the National schools of Ireland. These books have been prepared under the auspices of men of long experience and approved talent, and are remarkable for brevity and simplicity, characteristic correctness of definition and arrangement.

I have been interested by the Government to turn my attention to the preparation and selection of books to be recommended for general use in the Common Schools of Canada West. I am glad that you are so far anticipating with and anticipated me, as to have already commenced the reprinting of a set of books both superior and cheaper than most of those used in our Common Schools. Nor am I certain that I shall be able to do better than recommend to general and permanent use in our Schools, most of the elementary books which you are reprinting.

Canada is already and is likely to be still more deeply indebted to your enterprise for an importation of School Maps and Books. I wish you the most extensive success in your laudable endeavours to improve the most inefficient department of our Government—the Common Schools of Canada.

I have the honor to be, &c.,
Rverson Ryerson.

VI

From the Rev. Mr. Cutler, Rector of the High School, Quebec.

I have long known the Books published for the use of the Irish National Schools under the superintendence of the Commissioners of Education, having seen them extensively used in England both in private families and in public institutions; and as well as they seem to be adapted to the purposes to which they were supplied, that I cannot consider any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

Rev. John Cutler,
Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Leger Johnson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have held the very highest place in my estimation since I witnessed the beneficial effects of their first introduction into Public Schools and private families, in that country.

I have used them in the instruction of my own children, and have repeatedly urged upon members of the Provincial Government the expediency of supplanting them for Educational purposes in Canada.

Messrs. Armour & Ramsay having undertaken to supply them on a form calculated to promote general education in this Province, I consider them entitled to the generous support of every one who is desirous to spread abroad the blessings of Education, and so deserving of the universal gratitude of all who have the welfare of the Province at heart.

W. Leger Johnson,
Chaplain Legislative Council, Associate Minister of Christ's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I request to hear of the information you have done me the favour to communicate—that you are going to be engaged in the republication of the Education Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform series of Elementary works, which, embodying, for the training to be given in our Schools, cannot fail to strike every mind. The revolutionary medium of public Education can be applied to better purpose if it be undertaken upon a plan which will be employed for the purpose of training throughout all the Public Schools in the land of Britain, in a single honoured, and the efficiency augmented. The frequent removals of the pupils with the parents, which, in a population like ours must continue to be a common occurrence, would not operate as disadvantageously as to the progress of such pupils, if the Books employed in Education were uniform.

In regard to the excellence of the Series in the press, I presume little may be. They have established the application of men above the usually rapid, and they have generally rapid, and they have answered a great and unmeasurable blessing to Ireland. Without being minutely acquainted with them all, but having moderately carefully examined several of them, my opinion is, that their introduction into all our Public Schools could not fail to be a national benefit. Nay, as a uniform study of good Teachers, good books, is a desideratum in the Colonies, I cannot refrain congratulation that you are about to supply the want.

Without being any way authorized to cast on the unprecedented the reign on body with which I have the honor to be connected, yet I may be permitted to state that from my knowledge of the general acceptance of the Series, I have no doubt but that the Series will meet with an enlightened and cordial reception on my part.

I am, Gentlemen, yours respectfully,
St. Antoine Street. Henry Wilkes.

IX

From the Reverend J. M. Crump, President of the Baptist Conference.

Gentlemen,—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons, for the use of Elementary Institutions in Canada. I have been long acquainted with these lessons and value them much. They have been used in my own family with much advantage.

It is the great excellence of this Series of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted. Formerly, children were taught words rather than things; these Lessons teach things rather than words. The information they contain is highly interesting and instructive, and the style is adapted to the capacity.

In addition to these commendations, it is to be observed that there is an entire freedom from all sectarian bias. Christians of every persuasion may place these volumes in the hands of their children without the slightest fear of misgiving as to the coming state of society in Canada.

I earnestly hope that this enterprise will be attended with abundant success, and shall be happy if I can, gentlemen, you, obedient servant.

J. M. Crump
Baptist Collegiate, Montreal,

LATIN CLASSICS.

Cheap Colonial Edition for Colleges and Schools

THE success which attended the experiment to introduce and render uniform the Books used in the Common Schools of Canada, as set forth in the following advertisement, emboldened the Subscribers to undertake the publication of the Classical series now advanced for the use of Colleges, High Schools, Dayton and Grammar Schools.

The numbers of the series consist of the following:

Excerpta from Cornelius Nepos. 1s. 6d.
The First Four Books of Cæsar. 1s 9d.
The Third and Fourth Books of Quintus Curtius. 1s 3d.
Cicero de Amicitia. 1s.
Cicero de Senectute.
Twelve Aeneids. 3d.
The Georgics of Virgil. 1s 6d.
The Fasti of Ovid. 1s 6d.
The Odes of Horace. 1s. 3d.
The Three First Books of Ovid. 1s 6d.

Or the above cambic bad handsomely bound in one vol., price 6s. 3d. for the Pupil and 5s. 6d for the Pupils.

We rejoice at this noble attempt to facilitate the studies of the Classics in Canada by reducing the expense of procuring those portions of them which are used in the Schools. The typographical convenience and excellence of this series of Classical Texts cannot fail to secure their introduction and use in our Grammar Schools and Colleges. Messrs Armour & Ramsay have been the greatest Publishers of cheap and neat of Common School Books and do not seem leaving the country under additional obligations by their excellent reprints of Classical School Books. We hope to see the day when Canada will receive in its own printed Classical, as well as general literature, as we now do in some extent, and we hope will be a much greater extent, in its own literary men.—Journal of Education, Toronto.

Orders will be executed by the Booksellers throughout Canada, or by the Publishers.

GENERAL ADVERTISEMENTS.

BRITANNIA LIFE ASSURANCE COMPANY,

No. 1 Princes Street, Bank, London.

CAPITAL, £2 MILLION.

ENDOWED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the Britannia are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds, Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within three months after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, cannot, under any circumstances be afterwards called in question. Policies effected by parties on their own lives are not forfeited in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the instalment of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances may be obtained either by letter or personal application to

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sell Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more reasonable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, to which (as this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have been made, & further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.

Waterloo Nursery

C. T. GOODRICH having procured a suitable piece of ground at Waterloo (opposite the Pine Grove, on the Lobarough Road) for the Nursery Business, would intimate to his friends and the public, that he will be prepared the ensuing fall to supply all orders for Fruit and Ornamental Trees that he may be favored with, having recently received some three thousand standard Trees from the Oswego Nursery. He would also call the attention of the public to his beautiful stock of Cherry, and Pears, together with many choice Ornamentals, now in the McLean Garden, Lot 24, just above the Roman Catholic Seminary, there are some six kinds of Cherry and as many of Pears, all of the very best kinds.

The subscriber would also notice, that after this season he will be prepared to attend to all calls in the way of Grafting, Pruning and Setting trees, and hopes by punctual attention to the interests of his customers, to merit and receive a share of public patronage.

C. T. GOODRICH.
