World's Grain Exhibition

The World's Grain Exhibtion and Conference, which will be held in Regina, July 24 to August 5, in which thousands of growers will compete and which will be attended by visitors from every section of the world, is attracting the co-operation of many Canadian business houses which realize the value to the Dominion of the widest possible interest in that great agricultural undertaking.

It is generally admitted that the event is of vital interest to others than farmers and agricultural leaders, that the greatest measure of good will come from the realization by men of business and professional standing that the agricultural resources of Canada can be vastly extended by improved tillage methods.

That is the position taken by A. E. McKenzie Company, Ltd., in its new 1933 Seed Catalogue, just issued from the Company's headquarters in Brandon. Considerable space is devoted to an explanation of the Exhibition and Conference and to urging attendance by the general public, as well as those directly concerned with agriculture.

To arouse the widest possible interest in the event, the McKenzie Company announces two cash prize contests in which $5,215 will be awarded for letters, predictions of attendance, and so on.

Many new and highly interesting varieties are offered in the McKenzie Catalogue for the first time, among them two which are of unusual importance—the Sand Cherry and Crested Wheat Grass, both plants ideally suited to Canadian soil and climatic conditions and both answering a distinct need.

The former makes a new and welcome contribution to the Canadian rural table in that it is a juicy, delicious small fruit, suitable for baking and preserving, one which is easily grown with marked success in the western provinces.

Crested Wheat Grass solves many of the feed problems which have confronted farmers in past years. It is a hardy grass, extremely long-lived and highly resistant to drought. It is in prime condition in early Spring and late Fall and may be used both as pasture and for hay. Stock are fond of it. It is Canada's most newly developed Forage Crop Plant, and now offered for the first time in commercial quantities for sale.

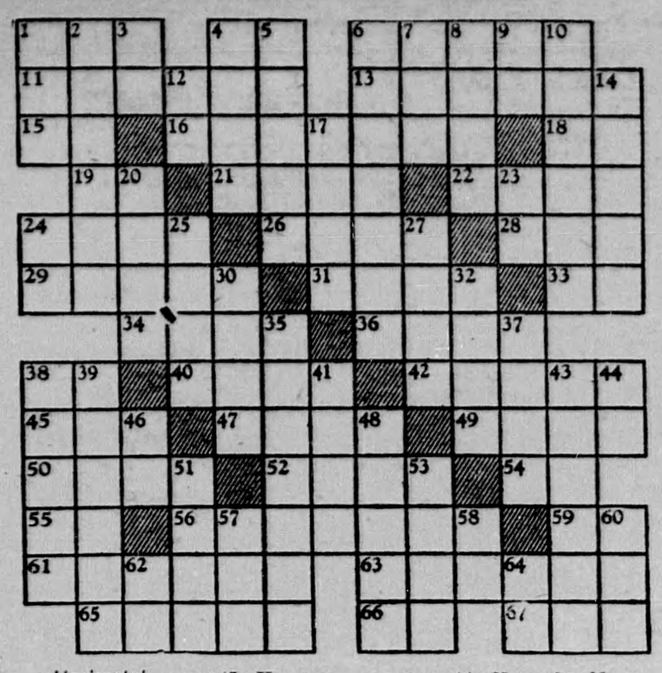
Fools "Who's Who"

New York.—George Jean Nathan, dramatic critic, author, iconoclast and man about town, is either 51 or 37 years old, but he has to stop a minute and figure out which.

"For a long time H. L. Mencken and I have had to bam-boozle 'who's who' a little," he explained. "We've pretended to be 14 years older than we were and maybe get some credit for profoundity."

"I have often said that all the unhappiness of men comes from not knowing how to remain quiet in a chamber."—Pascal.

OUR CROSS-WORD PUZZLE



Horizontal

1—New Zealand bird
4—Musical note
6—Indian savant
11—To imbibe
13—Women's apartments
15—Part of "to be"
16—One who carries on grudge

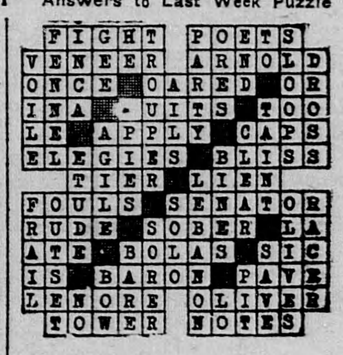
Answers to Last Week Puzzle



Tokyo's Tramcars Speed Up 6 Kilometers

Tokyo.—The speed of Tokyo's tramcars has been increased from a maximum of 24 to 30 kilometers an hour and 100 additional cars have been put into service to meet the increasing competition of taxicabs.

Investigation by the Municipal Electric Bureau, which operates the city's tramways, revealed that more and more former tramcar patrons have taken to taxicabs because of their greater speed.

Meantime taxicab operators announced they will have to increase rates if the Government grants a petition of the six leading oil companies of the empire to increase gasoline prices to 60 sen (about 12½ cents) a gallon.

Down in Weight and Very Pale

Mrs. Beare Thankful for Way In Which Dr. Williams' Pink Pills Helped Her Back to Health

Gained Weight and Color

"I can truly recommend Dr. Williams' Pink Pills, for they did wonders for me," writes Mrs. Mabel R. Beare, New Westminster, B.C. "After a long and very trying illness, I was down to 90 lbs. in weight. I could not eat a hearty meal. In fact, I have had to go away from the table hungry, from a dinner I dared not touch. I was also very pale. I had often read about Dr. Williams' Pink Pills, so thought I would give them a trial. I soon found I was able to eat with any one, and life began to look brighter. My weight came up to 118 lbs. and my lips and cheeks had lots of color. I am more than thankful I ever took Dr. Williams' Pink Pills, and I only hope others will try them."

Dr. Williams' Pink Pills actually create an abundance of new red blood, which is the reason they have given new vitality and strength to thousands of such nervously exhausted women. Equally helpful for growing girls. Try them. At your druggist's in the new glass container, 50c.

"Ice Water Test" Detects High Blood Pressure

The latest results of experiments with an "ice-water" test" that may serve to detect a tendency towards high blood pressure early in life, was described by Dr. George E. Brown, of the Mayo Clinic, Rochester. The cause of this type of blood pressure known as primary hypertension is not definitely known, but the new test is believed to reveal an inborn oversensitiveness of the nerves which go to the blood vessels and this may be the cause of that type of high blood pressure.

Everybody is subjected to heat and cold, worry and fear, and some to joy, and whereas the normal person meets those conditions and emotions without permanent harm, the person with an oversensitive system may not be able to stand the wear and tear. The strain may lead to hardening of the blood vessels and premature aging.

All this, so far, is more philosophy than fact, says Dr. Brown. If the oversensitiveness is inborn, however, it should be possible to detect the tendency to it early in life. Dr. Brown and Dr. E. A. Hines, Jr., have found that if the hands of most persons are placed in ice water their blood pressure will rise only slightly. There is a smaller group of persons whose blood pressure, when they are subjected to test, rises more than it ought. This probably is the group with the oversensitive nervous system.

The test has not been in use long enough for the persons to whom it has been applied to develop high blood pressure. However, the fathers, mothers, or other relatives of 75 per cent. of those whose blood pressure goes higher than it ought on the ice-water test, have had high blood pressure. Since it is known that there is a family predispositon to this disease, it seems likely the test will make it possible to warn susceptible people that they have a tendency to the disease, and thus make it possible for them to take measures to avoid some of its bad effects.

Get Rid of That
SORE THROAT!

Any little soreness in the throat grows rapidly worse if neglected. Crush some tablets of Aspirin in some water, and gargle at once. This gives you instant relief, and reduces danger from infection. One good gargle and you can feel safe. If all soreness is not gone promptly, repeat. There's usually a cold with the sore throat, so take two tablets to throw off your cold, headache, stiffness or other cold symptoms. Aspirin relieves neuralgia, neuritis, too. Use it freely; it does not hurt the heart.

Owl Laffs

After the 5-day week the next goal probably will be the 5-day week-end.

Most men who complain really dug the holes they are in.

Friend—"Don't cry, little boy. You will get your reward in the end."

Tommy—"S'pose so. That's where I allus do get it."

A woman who keeps house is apt to turn up her nose at the woman who boards—but she envies her just the same.

Movie Director—"Mills wants $600 for playing the part of an Indian in our new film."

Manager—"Offer him $300. Tell him it's only a half-breed."

Pausanius—"I hear that Nero was torturing the Christians again last night."

Demeter—"Some one ought to take that fiddle away from him."

Short Pants

The girl with personality has it on the pretty one because she doesn't have to look her best. When a baby appears in a printer's family naturally he wonders what type of child it's going to be. If you haven't been denounced by something or somebody, you're really not popular yet. The only thing a man acquires these times without considerable effort is a birthday. We often allow ourselves to get get very mad about things that really don't concern us at all.

Polly—"Every time I catch my husband flirting I make him buy me something to wear."

Dolly—"What a wardrobe you must have, my dear."

"She was only a photographer's daughter."

"Yes, she sits in a dark room and awaits developments."

Doctor—"Don't get so despondent, my dear young lady, you'll soon pull through."

Girl—"Oh, it isn't that, Doctor. But just think of the money I've spent on apples to keep you away."

Don't think for a minute that women do all the gossiping. The worst gossip is a woman.

Sometimes a boy runs a girl ragged to get married, then expects her to go practically in rags after they're married.

Ginsberg—"Mista Ottist, I vant you should make me a doughnut sign."

Painter—"Certainly, Mr. Ginsberg, but I thought you were a butcher, not a baker."

Ginsberg—"Sure, I am a butcher; I vant it a sign 'Doughnut Hendel de Feesh'."

The fisherman does not figure that he has bought the string of fish he caught even though they cost him ten times the market price.

Struggle On

You may not be doing as well as you would like, but you are accomplishing more than the one who gives up and refuses to try.

A girl can think up a dozen reasons for getting married, but a boy never even stops to reason.

It is humbling to mankind to contemplate men capable of grasping eternal truths, fencing and debating in trivialities, like gladiators fighting with flies.—M. Nisard.

Time and Life

We live in deeds, not years; in thoughts, not breaths;
In feelings, not in figures on a dial.
We should count time by heart-throbs.
He most lives
Who thinks most, feels the noblest, acts the best
—Philip James Bailey.

It's Hard—

To apologize,
To begin over,
To admit error,
To be unselfish,
To take advice.
To keep on trying.
To think and then act,
To profit by mistakes,
To forgive and then forget,
To take a deserved blame,
But it always pays.

"I am so well off that everybody pretends I am much more respectable than I really am."—George Bernard Shaw.

For COLDS

"I always use BABY'S OWN TABLETS to break up my baby's colds," writes Mrs. Wilbert Colquhoun, Sturgeon Falls, Ont.

"When I see a cold coming on, it is to BABY'S OWN TABLETS that I turn," writes Mrs. Robert Greenhorn, Philipsville, Ont.

Mothers everywhere report in like vein of the safe, sure results that follow the use of BABY'S OWN TABLETS in treating children's colds, teething troubles, simple fevers, disordered stomach, colic, constipation. 25 cents.

Then Active for 10 Years

Rheumatism Beaten Again

Time and time again we have seen it proved beyond doubt that rheumatism simply cannot resist the regular "little daily dose" of Kruschen. This is a case that has just come to our notice.

"Some years ago now, I was taken ill with muscular rheumatism, and was on the flat of my back for 12 weeks. My daughter bought a bottle of Kruschen Salts, and I took a dose every morning. I found relief ,and finally recovered by persevering. From that day, which is 10 years and 8 months ago, I have never missed one dose. I would sooner go wthout my best meal than go without my dose of Kruschen Salts. I am now free from all muscular pains, and have never felt any signs of rheumatism since, recommending Kruschen whenever people speak about stiffness or pains in the joints."—J. N.

If your kidneys always performed properly their duty as filters, poisonous uric acid would never be allowed to pass into the blood. And this would mean going to the end of your days without knowing what rheumatism is. Simply because it is the presence of uric acid in the blood-stream which causes rheumatic conditions.

Now the physiological effect of the numerous mineral salts in Kruschen is to arouse all the organs of elimination (including, of course, the kidneys) to healthy, regular action, so that they promptly expel through the natural channels uric acid and other dangerous waste products of digestion. Let Kruschen do this for you. Buy a bottle to-day, and begin the "daily dose" in the morning.

Kruschen Salts is obtainable at all Drug Stores at 45c. and 75c. per bottle.

FREE TRIAL OFFER OF KRUSCHEN

Try Kruschen now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claims for yourself. Ask your druggist for the new "GIANT" 75c. package. This consists of our regular 75c. bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and then, if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorised to return your 75c. immediately and without question. You have tried Kruschen free at our expense. What could be fairer? Manufactured by E. GRIFFITHS HUGHES, Ltd., Manchester, England. (Established 1756).

Literary Tribute To Lady Nicotine

Poets and Prose Writers Express Mankind's Debt to Good Tobacco

Since the day when Sir John Hawkins, Ralph Lane, Governor of Virginia; Sir Francis Drake and Sir Walter Raleigh introduced and popularized smoking tobacco in England, tobacco has formed the inspiration of literary men and artists.

King James 1st is said to have voiced early objection to smoking, refusing to permit his mouth to be "used as a chimney," but despite his royal prejudices, smoking became popular in England and, indeed, throughout Europe. Poets, prose writers and philosophers from the sixteenth century on have extolled its beneficence and acknowledged the comforting solace of the "blessed weed."

In modern days among those who have found a congenial theme in tobacco have been Sir James Barrie, the novelist and playwright, whose tender whimsicalities have made him a beloved figure in English letters wherever English is spoken and read. "My Lady Nicotine" will remain a classic of its kind.

Rudyard Kipling, the Poet of Empire, creator of "Kim" and "Soldiers Three," devoted several famous verses to the cigar:

"Open the old cigar box,
"Give me a Cuba stout,
"For ways are runnng crossways,
"And Maggie and I are out.
"A million surplus Maggies
"Are willing to bear the yoke;
"And a woman is only a woman,
"But a good cigar is a smoke."

One of the most enthusiastic of modern eulogies on cigars comes from the mouth of a character in Thomas Mann's novel, "The Magic Mountain:"

"With a good cigar in his mouth a man is perfectly safe, nothing can touch him—literally. It's just like lying on the beach. When you lie on the beach, why you lie on the beach, don't you? You don't require anything else in the line of work or amusement, either."

Women Are To Make Most of Appearance

New York.—The majority of women today do not know how to dress properly according to Professor Lillian H. Locke of the Department of Household Arts, Columbia University.

"There are always two things to be considered when a woman dresses," Professor Locke said today. "First, she should dress to make the most out of her physical appearance and bring out her best points; second, she should dress to bring out the best traits of her personality. The two are quite different things. The first has to do with the size of nose and lips, and shape of hips, while the second has to do with charm and grace."

Professor Locke listed five principles, as follows: Avoid repetition of color or lines; avoid clashing opposites of color or lines; try for transition of colors; subordinate the entire costume to the central color note; and try for symmetry of lines.

Well-Dressed Men Are A Law Unto Themselves

Many of the best dressed men in London are a law unto themselves in the matter of clothes. They pay no attention to what tailors, manufacturers and stylists say, but standing examples are Earl Beatty, the Marquis of Londonberry, the Earl of Chesterfield, Sir Jock Buchanan-Jardine, and Sir Walter Gilbey, with the most shining light of all—the Earl of Lonsdale.

OFF COLOUR? HOW IS YOUR LIVER?

Wake up your Liver Bile —Without Calomel

Your liver's a very small organ, but it certainly can put your digestive and eliminative organs out of kilter, by refusing to pour out its daily two pounds of liquid bile into your bowels

You won't completely correct such a condition by taking salts, oil, mineral water, laxative candy or chewing gum, or roughage. When they've moved your bowels they're through—and you need a liver stimulant.

Carter's Little Liver Pills will soon bring back the sunshine into your life. They're purely vegetable. Safe. Sure. Ask for them by name. Refuse substitutes. 25c at all druggists. 48

NERVOUS WOMEN
Take Lydia E. Pinkham's Vegetable Compound

"I am so nervous it seems as though I should fly" . . . "My nerves are all on edge" . . . "I wish I were dead" . . . how often have we heard these expressions from some woman who has become so tired and run-down that her nerves can no longer stand the strain.

No woman should allow herself to drift into this condition if she can help herself. She should give Lydia E. Pinkham's Vegetable Compound a trial. For nearly sixty years women have taken this wonderful tonic to give them renewed strength and vigor.

98 out of every 100 women who report to us say that they are benefited by this medicine. Buy a bottle from your druggist today . . . and watch the results.
