ICE! ICE!! ICE!!!

THE Subscriber possesses a Receipt to enable any person to make ICE, in any climate, with but little expense or trouble.—The process is simple, and can be accomplished by the most limited understandings, so as to produce from even warm water, in the hottest climate, a pure Ice, equal in every essential to that formed by natural causes. The luxury of always having at one's will, in the heat of Summer, a pure and delicious Ice, will readily be conceded; and its advantages, in cases of sickness cannot be too greatly prized. By this same process, warm water can be rendered delightfully cold in about 3 minutes, and Ice creams, with many other luxuries, can be made in from 10 to 20 minutes.

The following notice of this great discovery is taken from the New York Sun:

"A REAL LUXURY.—Dr. James R. Wilmington produces, by an artificial process, pure and solid Ice, from warm water, in the heat of summer, in less than half an hour.—And he can render a barrel of water as cold as Ice itself in a very few moments. This discovery must be of immense value to all living South.

TERMS.—This receipt, which contains full instructions for making Ice & Ice creams, cooling water, and numerous other useful matters, will be forwarded to order for Two Dollars, by addressing Dr. Jas. R. Wilmington, 122 Nassau street, N. Y.

☞ One Agent only will be appointed in each county, and those desiring the Agency must forward $50, for which they will receive 37 copies of the pamphlet, containing full instructions.

Arrangements are now being made for a *Through Route* by *Railroad* from Ogdensburgh to New York, via the Valley of the Connecticut River, by which passengers can reach New York in one day from Rouse's Point—the western terminus of the Ogdensburgh Railroad.

A new and complete route is now open to the Travelling Public, by which passengers destined for Boston or New York or Montreal, can have an opportunity of passing through a portion of the country, heretofore shut out from the Traveller for want of proper Railway connection from Lake Ontario to the seaboard. This connection is now formed by the completion of the Ogdensburgh Railroad, (118 miles), and the Lines of Rail from Lake Champlain to New York and Boston. (For a more particular description of all these routes, see advertisement in another column.)

As a new Route to and from Montreal, and from Canada West to Boston and New York, the Ogdensburgh Railroad and its connections, presents many objects of interest to Canadians at this time, more especially to those who are interested in the movements now making to give Canada West the advantages arising from a carefully arranged system of Railway communication between Lake Huron, Lake Erie, Lake Ontario and the Atlantic Cities of the United States.

By taking the steamers at Hamilton, Toronto, and the Canadian Ports on Lake Ontario, passengers can be conveyed to Kingston, Brockville or Prescott. At Kingston, the United States Steamers touch en route to Ogdensburgh, connecting with the British Line from Hamilton. A Ferry Boat plies between Prescott and Ogdensburgh daily.

Travellers desirous of examining the method of constructing Railways in the United States, can have an opportunity (by taking the Boats arriving at Ogdensburgh in the evening), of viewing the Ogdensburgh Station Ground, (60 acres in extent,) the Dock, 4,100 feet in length; the large Passenger and Freight Houses, (the Grain Warehouse and Steam Elevators now in progress of construction;) the Engine Houses and Machine Shops, and wave in the 10 o'clock, A. M., Train, which arrives at Rouse's Point, for dinner at 3 o'clock, P. M. The Steamboats bound south, for Montreal from Rouse's Point, take their passengers at 7 o'clock, P. M.; thus giving Travellers four hours to examine the east warehouse, (500 feet long by 104 feet wide, built on a pier in Lake Champlain,) the Machine Shops, Car Houses, Engine Houses on the Bridge, now constructing on the Vermont and New York side of the Lake.

The 8 o'clock, P. M., Train will change *boats for the evening Boats from Kingston.*

Parties on pleasure, during the summer months, after visiting the Falls of Niagara and the Saguenay Bridges, (proceeding to Boston or New York, will view some of the most magnificent Mountain, Lake and River Scenery in any part of America, when [via Ogdensburgh] passing through Vermont New Hampshire, Massachusetts, the Valley of the Connecticut River, and the River Hudson.

The Ogdensburgh Railroad Company, anticipating this being the Great Channel to the Atlantic Sea-Board for Canada West, on the most direct, expeditious and economical, invite the attention of all interested in the Commercial and General prosperity of this important section of the British North American Colonies, to an early and careful examination of all the facilities offered by the Road and its connections, when it will be found that these have in view the most rapid and favorable channels through which to develope the Canadian trade.
