Mr. T. Sled of the suburbs had a plymouth rock hen which laid an egg last week measuring 8 by 6½ inches. The effort was an herculean one and an hour afterward biddy was dead. Another hen essayed the same task and produced an egg exactly the same size, but she recovered.

Mr. and Mrs. Bentham have removed to Toronto, where the former has secured a situation with May Bros., hardware merchants. We are sorry to see them go, as Mrs. Bentham will be missed in the Presbyterian church where she was an active worker. At the Guild on Tuesday night she was presented with an address and a purse.

The baseball club held a box social last week. A rousing program was given by the Ceylon Orchestra, local singers, and Henry Howard on the concertina. This was Mr. Howerd's first appearance, and he was given a splendid reception. The proceeds amounted to about $30 and will clear away last summer's deficit, leaving a balance to be expended on equipment. This year's team should be, like the Toronto ball team, better than ever. The local nine have not yet gone south to their training quarters, but all the contracts are signed up.

A serious smashup occurred on the C.P.R. near Schrieber on Saturday last, when a special passenger train running east crashed into a settlers train from this Owen Sound division. Only train hands are said to have been seriously injured. The fireman, a brakeman and a colored porter of the east bound train were killed. Some people from this section are supposed to have been on the train, but no word of any of them being injured has been received. The wreck was caused by the west-bound train overrunning its orders.

Misses Allie Wilcock and Annie Johnston visited Markdale friends last week.

I have a fine selection of spring Suitings and Pantings. Call and see them.—F. Morley, Flesherton.

W. L. Wright is putting in a stock of Rennie's government inspected clover and grain seeds. See his advertisement for prices on all kinds.

At a public meeting on Tuesday evening to consider means of securing adequate fire protection a committee was appointed to look into various means of defence, and will report within two weeks at another meeting. Chemical tanks, gasoline pumps and a gravity system of water works were discussed and will all be investigated by the committee.

A re-organization meeting of the band was held last week. Jas. Bowler will again be at the head of the musicians. Chas. Munshaw is manager; Geo. Mitchell, president; M. Scully, vice president; C. J. Bellamy, secretary, and Mark Wilson, W. L. Wright and J. A. Boyd as citizen's committee. A considerable portion of the old band will be at the business end of the instruments again, while a class of recruits is being marshalled. All that is needed is a little ready cash to straighten out the kinks in the horns and to purchase a new cornet—and this will be provided for by a subscription list in course of circulation. Out of town contributions will be gratefully received and acknowledged by the secretary.

The Peoples Railway

The promoters of the railway advise us that "owing to the stress of work resulting from the securing of our Dominion charter which necessitates changes in our plans for immediate promotion and construction, we are compelled to spend some time at the head office, Berlin, thus temporarily abandoning our work in Collingwood. However, in two or three weeks we will be in a position to return to your town and continue negotiation already opened, with a view of building the line chartered in your section." There have been numerous enquiries as to why the Collingwood office has been closed, and this will allay any uneasiness that may exist in reference to this.—Collingwood Messenger.

A Sweet Boiling Down

One of the chief products of spring weather, along with maple syrup, is sugaring off "yarns." A good one reached the ear of The Advance recently. Here it is:

At a nearby community a number of young men entered a neighbor's sugarbush, and found a kettle hung up, filled with what was apparently sap, but the camp was suspiciously deserted. However they set to work with a will, kindled a fire under the kettle and soon had it boiling merrily. The smoke and cinders were easily tolerated in the light of the sweetness-to-be. As the "sap" boiled down the usual sweetness failed to materialize, and after several hours of waiting, the would-be miscreants discovered that they were boiling plain unadulterated water, and the laugh was on them.

The glorious spring-time, nature's verdant resurrection from the death-like sleep of winter, is here again and it is as welcome as the flowers in May. With what a kindly and miraculous hand Providence will soon touch the earth and bid the trees and verdant pastures awake and don their garb of tender green, and the flowers to burst forth in meadow, vale and on the hillside, to delight and and beautify. Meanwhile the birds are participating in the glories of spring, breathing in its balmy breezes, and basking in its animating sunshine, cheer the souls of men with their joyous songs, as they toil cheerfully along life's weary way.

Oh, The Springtime! is the season,
That reanimates;
And ushers in the baseball suits,
And welcomes roller skates.
Oh, The Springtime! is the season,
For a taffy jubilee;
Or a jolly big "At Home."
That don't break up till three.
Oh, The Springtime! is the season,
When fresh pastures look the best;
And we leave our cosy homes,
And hike to the glorious West.
Oh, The Springtime! is the season,
When our gizzard's out of whack,
Lumbago's in our back,
Our lives are on the wrack,
And the mumps are on our track,
And we really don't know what's the reason.
