MESSRS. MUNN & CO.,

American and Foreign Patent Agents, and Publishers of the Scientific American,

RESPECTFULLY announce to the public that the first number of Volume VII. of this widely circulated and valuable journal will issue on the 25th September. The new volume will commence with new type, printed upon paper of a heavier texture than that used in the preceding volumes. It is the intention of the publishers to illustrate it more fully, by introducing representations of prominent works connected with the advancement of science; besides increasing the usual amount of engravings of new inventions. It is published weekly in form for binding, and affords at the end of the year a splendid volume of over two hundred pages, with a copious index, and from five to six hundred engravings, together with a vast amount of practical information concerning the progress of invention and discovery throughout the world. There is no subject of importance to the mechanic, inventor, manufacturer and general reader which is not treated in the most able manner—the editors, contributors and correspondents being men of the highest attainments. It is in fact the leading scientific journal of the country.

The inventor will find in it a weekly list of American Patent Claims, reported from the Patent Office, an original feature not found in any other weekly publication.

BRITANNIA LIFE ASSURANCE COMPANY.
No. 1 Princes Street, Bank, London.

CAPITAL. 0 ½ MILLION.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 3.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the Britannia are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may chose for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out very safe and profitable inducement to the person wishing to Assure.

All claims payable within twenty months after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, unless, under any circumstances, its allowance called in question. Policies effected by parties on their own lives are not forfeited, said in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sell Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that Money commands in Canada, to offer terms of Assurance much more reasonable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An *exact statement of its receipts and expenditure* is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that *it invests all its funds in Canada*, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which (and this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have been made, & is further engaged to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is, that it is not desirous to make profit by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.

Waterloo Nursery

C. T. GOODRICH having procured a suitable piece of ground at Waterloo (opposite the Pine Grove, on the Lisbonough Road) for the Nursery Business, would intimate to his friends and the public, that he will be prepared the coming fall to supply all orders for Fruit and Ornamental Trees that he may be favored with, having recently received some three thousand standard Trees from the Oswego Nursery. He would also call the attention of the public to his beautiful stock of Cherry, and Peach, together with many choice Ornamentals, now in the McLean Garden, Lot 21, just above the Roman Catholic Seminary; there are some six kinds of Cherry and as many of Peach, all of the very best kinds.

The subscriber would also notice, that after this season he will be prepared to attend to all calls in the way of Grafting, Pruning and Setting trees, and hopes by punctual attention to the interests of his customers, to merit and receive a share of public patronage.
