S.—Shall feel extremely favoured by the "Advocates of Teetotalism" leaving their hotels of "Swine" with their "coarse grain," that is, in case the "Disciples," through their faith "conscientiously" believe (?) that "Pork" accompanied by a draught of "No. 6," is more "palatable" to their taste, than a wet of good Rum or Whiskey. Another Living Witness of the Hydropathic and Rational Medicines, from CAPTAIN McMASTER.

I WISH to inform the Public, for the good of the afflicted, that I was very unwell with a cough and inflammation of my lungs and chest, which threatened my whole constitution. I spared no cost or trouble to get rid of it, but I got no relief until I was advised to go to DR. LANKTREE, of Kingston, when I got his Medicine. It took but a short time, and little cost, until I could again rejoice in the return of my perfect health—thank God.

SEEING and hearing of so many testimonials for Dr. Lanktree's Medicine, brings me to recollect my duty both to him and the public; for I was some time ago, to the knowledge of many in this city, given over as an incurable case, with Enlargement of the Heart and Liver Complaint, and was effectually cured by him; also, lately, I was in despair with a Dropsical Swelling, and obtained immediate relief, so that I am now able to do my business well, thank God.

RESPECTFULLY announce to the public that the first number of Volume VII. of this widely circulated and valuable Journal will issue on the 28th September. The new volume will commence with new type, printed upon paper of a heavier texture than that used in the preceding volumes. It is the intention of the publishers to illustrate it more fully, by introducing representations of prominent events connected with the advancement of science; besides furnishing the usual amount of engravings of new inventions. It is published weekly in form for binding, and affords at the end of the year a splendid volume of one four hundred pages, with a copious index, and from five to six hundred engravings, together with a vast amount of practical information concerning the progress of invention and discovery throughout the world. There is no subject of importance to the mechanic, inventor, manufacturer and general reader which is not treated in the most able manner—the editors, contributors and correspondents being men of the highest attainments. It is in fact the leading scientific journal of the country.

The Inventor will find in it a weekly list of American Patent Claims, reported from the Patent Office, an original feature not found in any other weekly publication.

BRITANNIA LIFE ASSURANCE COMPANY,
No. 1 Princess Street, Bank, London.

CAPITAL 6 MILLION.
INCORPORATED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 8.

THE great successful distribution in Europe and the American Policies issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The claims of the Britannia are the lowest which can be offered consistently with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the annexed Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may then have fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out very rich and profitable inducements to the person wishing to Assure.

All claims payable within twelve months after proof of death. No proof of birth is required to the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, unless, under any circumstances, he afterwards evided in question. Policies effected by parties in their own lives are not vacated with in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the refundment of Premiums previous thereto will be imposed to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letters personal application to

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Insurances on Lives, whether single or joint, to sell Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms in Assurance much more reasonable than the low rate of interest attainable on investment by British Companies and their generally large expenditure can with any regard to safety admit of.

An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it owes all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which (and this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel discontinued or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have been made, & of rather engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.
