Another Living Witness of the Hydropathic and Botanic Medicines, from CAPTAIN McMASTER.

I WISH to inform the Public, for the good of the afflicted, that I was very unwell with a cough and inflammation of my lungs and chest, which threatened my whole constitution. I spared no cost or trouble to get rid of it, but I got no relief until I was advised to go to DR. LANKTREE, of Kingston, when I got his Medicines. It took but a short time, and little cost, until I could again rejoice in the return of my perfect health—thank God.

To Mechanics, Inventors & Manufacturers.

Seventh Volume of the Scientific American.

MESSRS. MUNN & CO.,

American and Foreign Patent Agents, and Publishers of the Scientific American,

RESPECTFULLY announce to the public that the first number of Volume VII. of this widely-circulated and valuable journal will issue on the 28th September. The new volume will commence with new type, printed upon paper of a heavier texture than that used in the preceding volumes. It is the intention of the publishers to illustrate it more fully, by introducing representations of prominent events connected with the advancement of science; besides furnishing the usual amount of engravings of new inventions. It is published weekly in form for binding, and affords at the end of the year a splendid volume of over four hundred pages, with a copious index, and from five to six hundred engravings, together with a vast amount of practical information concerning the progress of invention and discovery throughout the world. There is no subject of importance to the mechanic, inventor, manufacturer and general reader which is not treated in the most able manner—the editors, contributors and correspondents being men of the highest attainments. It is in fact the leading scientific journal of the country.

The Inventor will find in it a weekly list of American Patent Claims, reported from the Patent Office, an original feature not found in any other weekly publication.

BRITANNIA LIFE ASSURANCE COMPANY,
No. 1 Princes Street, Bank, London.

CAPITAL, £1 MILLION,
EMPOWERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies issued by the different Agencies in Canada, evidently shew that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the Britannia are the lowest which can be offered consistently with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling per annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide against the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branches of the Institution, hold out a very safe and solid advantage to the public willing to Assure.

All claims payable within twelve months after proof of death. No proof of health is required when the loan is made; the age of the Assured being, in every case, admitted in the Policy, unless any misrepresentation be subsequently called in question. Policies effected by persons in good health, cannot be vitiated, and in case of death by shooting at the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the half amount of premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by between personal application to

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Royal Patent.

THIS COMPANY is prepared to grant Insurances on Lives, whether single or joint, to said Annuities, to purchase Annuities and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated for the most accurate data, and the Company is enabled, from its small expenditure, and the high rate of interest that it can command in Canada, to offer terms of Insurance much more moderate than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An annual statement of its affairs and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does and consequently contributes to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which alone this or any other insurance neither Great Britain nor the neighboring States can hardly offer competition.

To parties who may at any time find themselves unable to continue the payment of their premiums, the Company will grant Policies, payable at death, for a proportionate sum of the value of such payments as they may have been made, & to equitable engagers to postpone payment for equitable considerations, rather than to make risk premiums have to be paid through.

Three-fourths of the profits accrued in the Colonial Branch are yearly divided amongst the policy holders this account.

A peculiar feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.

THE Undersigned, as Agent of the above Company, continues to effect Insurances on Property against Loss or Damage by Fire, on as liberal terms as any other Fire Office in Canada.

To the Assured, this Company offers one important advantage over those of Great Britain &c., that a certain portion of the profits are applied annually for the benefit of the Policyholders without putting the parties having to resort to a Foreign Insurance, to enforce payment of losses, as too usually.
