The steamboat express started running to Owen Sound last week. It is thought this is only temporary, however, and that as soon as the Victoria Harbor branch is open for traffic, about the middle of June, the steamboat express will be cut out on this line and all through traffic will go by way of Victoria Harbor. This will be a severe blow to Owen Sound, and will cause the removal of many families to the new lake terminus.

Summer meetings of Centre Grey Women's Institute will be held as follows: Dundalk May 29, Hopeville May 30, Badgeros May 31, Maxwell June 1, Eugenia June 2, Flesherton June 3, Priceville June 5, Vandeleur June 6, Kimberley June 7, Markdale June 8, Williamsford June 9, Walters Fal's June 10, Rocklyn June 12, Heathcote June 13, Clarksburg June 14. R. McNulty of Flesherton won the half mile race at Markdale on the 24th. Two others competed, Wilfred Black and Smith of Meaford. Black took second place.

The Artemesia District L. O. L. will hold their semi-annual district meeting in Vandeleur lodge room on the second Tuesday in June. Wm. Swanton, Rec.-Sec.

The census is on. It begins to-day, and the enumerator for Flesherton is Mr. T. Henry. There are very many questions to ask and answer and it will take a good many days for the enumerators to cover the ground.

Among the Toronto visitors in town for the holiday last week we noticed Mr. and Mrs. Bert Field, Mr. James Field and Miss Cliffe, Mrs. (Dr.) Webster and little daughter, Mr. and Mrs. J. Docherty, Mr. and Mrs. Fred Hickling, and Dr, and Mrs. Fred Murray.

The Advance had a pleasant but short call from Mr. W. J. McWhinny of Crowstand, Sask., one day last week. Mr. McWhinny and wife have been visiting relatives in Osprey. Mr. McWhinny is superintendent of an Indian school. He says the reciprocity question out west is sharply divided on party lines.

Mrs. R. H. Wright and Mrs. W. A. Armstrong are in Toronto this week attending the annual Branch meeting of the Woman's Missionary Society of the Methodist church. The former represents the auxiliary and the latter, the band. They were accompanied by Miss Mary Stafford, who is the first representative of the newly organized auxiliary at Kimberley.

Postmaster W. W. Trimble is carrying a bandaged eye and has to look twice to see the address on a letter. It was not a result of his inherent belligerence, either; neither was it caused by any unpleasantness with the head of the house, or a swat from a baseball. It was something worse than that. While out driving near Vandeleur Monday evening he came to some crushed stone, his pacer shied and something heavy struck him on the eyeball and cheek bone, making a very nasty bruise, but fortunely failing to seriously damage the eye, although the wound is very painful. The stone was thrown by the horse's shoe when it shied.

Thornbury Reflector: On Sunday morning a very severe electric storm passed over this section. The first part happened about 2 o'clock and was succeeded by another severe electric display about 4 o'clock. There was a heavy down pour of rain. A number of places report damages by being struck. The light house at the end of the Thornbury pier was struck and burned. The chimney on Mr. T. W. Lambert's house was struck and stove pipes knocked down and other things disarranged but did not take fire. The house of R. M. Wright at Clarksburg was struck and also that of E. C. Bennett. In Owen Sound there were some buildings struck and one house burned. The electric wires were in several cases, put out of business and both electric and telephone wires required repairs on Sunday.

Bolton Enterprise: There were few more pleased men in the community on Thursday evening of last week than Messrs. James W. Maw and Alfred T. Harper. They had that day recovered their horses which had been stolen some days previously. The animals were found by Mr. Maw and a detective, in possession of a contractor in Toronto named Myers, who said he had purchased the horses from a Jew whose name he did not know. The horses were brought home by the owners and since then the detectives have been working on the case. On Monday Myers was arrested, charged with the stealing, and was taken to Brampton jail. He was let out on $800 bail to appear June 1st.

Eldon Peterman of Belmore is recovering from the effects of a very peculiar accident which occurred a few weeks ago. He was chopping a piece of wood when a sharp splinter flew up and struck him on the nose, penetrating same, and rupturing a blood vessel, which bled so profusely that the young man's life was almost despaired of before the flow was stopped. He is still quite weak, but will be able to resume his work in a week or so.—Mildmay Gazette.

A Wiarton despatch says that the zinc industry of the northern rural vicinity is progressing favorably, the mine being operated by a gang of men under the supervision of Dr. Wolverton. The mineral is being turned out in large quantities, which according to the tests taken, is of a particularly fine quality. Some of the nuggets assayed 67 per cent., which is the highest figure. The other 33 per cent. of its composition consists of sulphur, which is a by product of much importance.

Listen to this fish yarn that comes from the Black Horse lake. It sounds—oh, well—here it is, you can believe it if you like:—A hungry pike, having bitten, the trolling line broke in a weak spot, and away went fish, hooks and 40 feet of line into the depths of the water. About a week later, when the same fisherman was again fishing there, his attention was drawn to a piece of line lying among the weeds just below the surface. On pickings it up and pulling it in he found it to be the one he had previously lost. The pike was still on the end of it and still alive, but nearly starved to death. Even in that condition it weighed five pounds.—Walkerton Telescope.

Chest Inflammation

Suffered From a Heavy Cold, Pleuritic Pains in Side — Constant Coughing.

"Anyone that goes through all that I suffered last winter will appreciate the value of a remedy that cures like Nerviline cured me." These are the opening words of the solemn declaration of E. P. Von Hayden, the well-known violinist of Middleton. "My work kept me out late at night, and playing in cold drafty places brought on a severe cold that settled on my chest. I had a harsh racking cough and severe pains darted through my sides and settled in my shoulders. I used different liniments, but none broke up my cold till I used Nerviline. I rubbed it on my neck, chest and shoulders, morning and night, and all the pain disappeared. Realizing that such a heavy cold had run down my system, I took Ferrozone at meals, and was completely built up and strengthened. Since using Nerviline I have no more colds or pleurisy, and enjoy perfect health."

Nerviline CURES CHEST COLDS

It's because Nerviline contains the purest and most healing essences and medicinal principles, because it has the power of sinking through the pores to the kernel of the pain—these are the reasons why it breaks up colds, cures lumbago, stiffness, neuralgia, sciatica, and rheumatism. Refuse any substitute your dealer may suggest—insist on Nerviline only. Large bottles, 50c, trial size 25c. Sold everywhere, or The Catarrhozone Co., Kingston, Ont.
