The newly organized band played on the square for the first time one evening last week, and the music was appreciated. Mr. Bowler is producing quite a respectable bunch of musicians.

Mrs. Joseph Phillips and sister, Miss Mary McLean, of Toronto, called here last Friday on their way to Singhampton to look after the remains of an uncle who had died there suddenly while holidaying.

Saturday last, the King's birthday, was not generally observed here as a holiday. All places of business kept open as usual and catered to the public. We have not got weaned from the good old 24th of May as yet.

One of our merchants has learned that salty water is not easily digested by tomato plants. Two shipments were spoiled before he discovered this little secret. Water from an ice cream feezer had been used.

The Epworth League had charge of the service in the Methodist church Sunday evening and M. K. Richardson spoke in the morning. The evening service was quite profitable and interesting, the young people acquitting themselves very creditably. The women of the church have charge of the services next Sunday.

Messrs. Jos. Clark and A. H. U. Colquhoun of Toronto spent Saturday on their trout preseve down in the valley. They returned to the city Monday morning with a choice lot of trout, and in a benevolent frame of mind. Joe. says he caught so many that he won't be able to look a trout in the face for a year. But this won't prevent him from catching them by the tail or hooking them when their backs are turned.

In the first draught of stations not much change is made on the Owen Sound district. Among the changes noted in this vicinity are: Rev. A. P. Stanley of Maxwell is down for Walters Falls, and Rev. H. E. Kemp of that place goes to Heathcote. Rev. H. Berry of Priceville goes to Corbetton and Rev. Williamson, Ph. B., takes his place. Rev. James Phimister is down for Maxwell.

A week or so ago Mr. Joseph Duncan of the suburbs received a slight scratch from a nail on the palm of his hand. It festered and became painful. Mr. Duncan went to a doctor, who advised him to poultice it. Later it got much worse and on Sunday last the hand was so swollen and painful that blood poisoning was feared and Mr. Duncan took a freight train to Toronto for treatment. We trust the treatment will prove successful, but the trouble is looked upon as being rather serious.

Mr. and Mrs. J. W. Bates, and their son in-law and daughter, Mr. and Mrs. Maddox, of Toronto, were in town last week calling on old friends. While here they removed the remains of two children from the cemetery—one a little girl six years of age and the other a baby boy. The children died while the parents lived here some 25 years ago.

Mark Wilson, butcher, purchased from Roddy Stewart, west back line, on Saturday last a yearling heifer that tipped the scales at 945 pounds. The animal was just a year and two weeks of age, and was the fattest piece of beef ever seen on the market here. Mr. Wilson purchased a good one from Mr. Stewart last year also, the two netting the seller over $110.

A considerable change has been made in the time table on this line of railway. The morning train south is twenty minutes earlier, the evening train south fifteen minutes earlier. The noon train from Toronto gets here at 11.28, or 27 minutes earlier than in the past, but the night train arrives eight minutes later, or at 8.53. This change went into effect on Monday morning. The time table appears every week on our local page.

She showed the contrast between Manitoba and Ontario concerning women; she also sounded a warning to mothers concerning the white slave traffic. Miss Gilholm made suggestions to the program committee that when acted upon will make the meetings more interesting and helpful.

Mr. Wilson, who has been manager of the Rock Mills since their purchase from Armstrong Bros. by the Durham Furniture Company, has severed his connection with the company and gave up authority with the first of the present month. He owns a sawmill at Louise in Bentinck and has moved his family to that place, where he will look after his own business and go extensively into building operations. Previous to leaving he was the recipient of an address and presentation from the employees of the mill and a few neighbors. While here Mr. Wilson and family were very highly esteemed and their removal is considered by all as a distinct loss to the community. Mr. Wilson is succeeded in the management by Mr. James Dargavel.

Catarrhozone

Catarrhozone will relieve colds almost instantly and in a few hours will cure completely. If it is old-standing asthma or bronchitis its quick and curative results will astonish you.

Catarrhozone is little drops of healing medicine carried by air to the sore and diseased parts. You breathe them through the Catarrhozone Inhaler and they spread throughout all the air passages.

It is sense as well as healing, because Catarrhozone is a germ killer, a healer and restorer of weak tissues, because it is so prompt and certain in its results, better than any other remedy for diseases of the throat, lungs and bronchial tubes, and it is neither alcohol, morphia or cocaine—all dangerous.

Tens of thousands have used Catarrhozone without reporting a single case of failure to cure diseases of the throat and lungs and nasal passages.

Remember, CATARRHOZONE is taken in air, and is little drops of healing for the throat, nasal passages, or lungs. It always does cure—is guaranteed.

The Agricultural Society of the Gironde, France, is convinced that the continually increasing number of enemies of crops, and especially of the insects so harmful to vines, Cochylis and Eudemis, is due to a great extent to the disappearance of small birds. The society, therefore, has invited all the agricultural associations of France to unite and insist upon the protection of these valuable auxiliaries of the farmer.
